TERRA NOVA NURSERIES, INC.

2025/2026 Catalog

Rooted in the Past, Blooming for the Future

Introduction

Growing plants is not for the weak at heart. When I was in the retail nursery world, I would always hope for that one perfect year without late freezes, mild winters and PERFECT Mother's Day weekend weather. Now that I'm in the plant breeding world, I hope for the same things - and more. Add to that, perfect field planting weather, no voles, enough labor at the right time, no wildfires and plenty of water when we need it. It's always something.

I think you'll be pleased with the curated selection of plants TERRA NOVA® has put together for you. Starting with a perfect partner for the highly sought after Agastache 'Pink Pearl' is the phenomenal 'Peach Pearl'. Dense, lush peach-colored flowers are produced from late spring until frost. It is very popular with pollinator insects. Echinaceas 'Fried Egg' and 'Fringe Festival' are truly distinct in the flower world. 'Fried Egg' looks exactly like a fresh farm egg with a sunny yellow yolk, surrounded by egg white petals. Special attributes for this echinacea include stout stems, bouquet branching habit and long-lasting color. 'Fringe Festival' is a real departure from the regular echinacea world. 'Fringe Festival' had no cone in the center, its all petals, all the time! Shaggy, orange-red petals fill the entire flower in a standout fashion. Heucheras are well represented also with an entirely new color added to our lineup. Heuchera 'Iridescent' is just that, radiating pink, lavender and rose, all shimmering under an iridescent gloss – so pretty! Heuchera 'Testarossa' -which means redhead, is a very red, large-leaved plant that we trialed for years before moving it forward. We think this is going to be another garden classic. Kniphofia POCO™ 'Butter Brickle' is well named. The fresh butter and toasted caramel flower color combo is as delicious as it sounds, unless you are lactose intolerant. But you could still have this in your garden! A very special introduction is another native garden plant – Liatris 'White Feather' is a huge improvement for Liatris. The basal branching, the flower density and overall flower power make this a worthy garden choice. Beloved by pollinator insects, too! My last call out is our new Plectranthus NOVA® 'Brilliant'. Grown for its foliage, NOVA® 'Brilliant' is an annual or houseplant, depending upon how one wants to use it. As a hanging basket, it is thrilling with the very crisp white and green margins of variegation, as an annual in a mixed container, it is a filler, a spiller AND a thriller!

If you took the time to read this, thank you. Your support of our independent, leader, not follower business means everything to us. We wish you a prosperous year and hope that you'll let us be a partner in your success.

Chuck Pavlich - *Director of New Product Development*

Mission Statement

At TERRA NOVA® Nurseries, Inc., we are dedicated to cultivating a greener, more vibrant world through the relentless pursuit of excellence in plant breeding, propagation, and horticultural innovation. Our mission is to provide the global horticulture community with superior plant varieties that embody beauty, resilience, and sustainability.

Driven by a passion for enhancing the natural environment, we commit to:

- **Innovation:** We strive to be at the forefront of plant breeding, continuously pushing boundaries to develop new and unique varieties that captivate the imagination of growers, landscapers, and garden enthusiasts.
- **Quality:** We maintain the highest standards in the production of our plants, ensuring they not only meet but exceed expectations for performance, adaptability, and aesthetic appeal.
- **Collaboration:** We actively collaborate with industry partners, horticulturists, and researchers to foster a culture of shared knowledge and innovation. Through these partnerships, we aim to collectively advance the field of ornamental plant development.
- **Customer Satisfaction:** We are dedicated to understanding and exceeding the needs of our customers. By providing unparalleled service, support, and a diverse range of top-quality plant varieties, we aim to empower our customers to create thriving and sustainable landscapes.
- **Education:** We strive to be a source of knowledge and inspiration for the horticulture community. Through educational initiatives, workshops, and resources, we aim to contribute to the growth and expertise of our industry.

At TERRA NOVA® Nurseries, our commitment to excellence, environmental responsibility, and customer satisfaction is rooted in a vision of a world where every landscape is a masterpiece of natural beauty and ecological balance. Together, let us cultivate a future where plants enrich lives and inspire a deeper connection with the beauty of our planet.

TERRA NOVA® Nurseries & ThinkPlants® Partnership

TERRA NOVA® Nurseries, Inc. is proud to be part of the ThinkPlants® team, united under the banner of 'Exceptional Plants in an Exceptional Market'. We believe TERRA NOVA® genetics are a valuable complement to an already impressive lineup of high-quality perennials. Through this partnership, we can more efficiently and reliably deliver the specialty plants you're looking for.

ThinkPlants® brings together a dedicated team of plant breeders, horticultural experts, and supply chain professionals, all working in sync to support the North American nursery industry. This collaboration gives ThinkPlants® a distinct edge, offering innovative genetics, a robust and reliable supply of URC, bare root, and liners, and a strong commitment to transparency between growers and suppliers.

TERRA NOVA®'s Unrooted Cutting Program

THIS URC PROGRAM IS AVAILABLE THROUGH OUR BROKER NETWORK

We're proud to partner with Danziger to produce unrooted cuttings (URCs) from TERRA NOVA®'s exclusive elite stock. Danziger delivers exceptional quality, sourcing from their state-of-the-art elite mother stock facility in Guatemala. Thanks to the region's sunny, temperate climate, they are able to support efficient, year-round production of premium URCs.

We believe this collaboration holds great promise and will be instrumental in shaping the future of our breeding program. New varieties will continue to be added to the lineup, and we're excited to see this initiative grow alongside your business and ours.

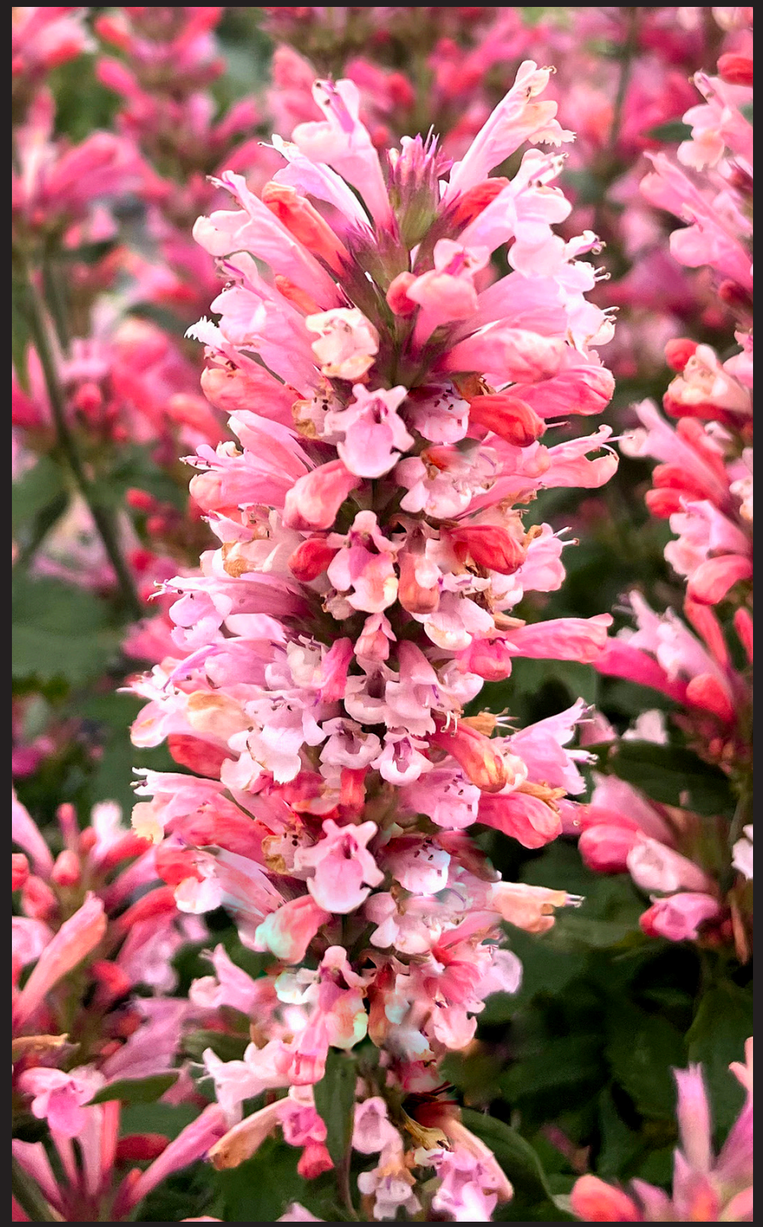
FEATURED PLANT

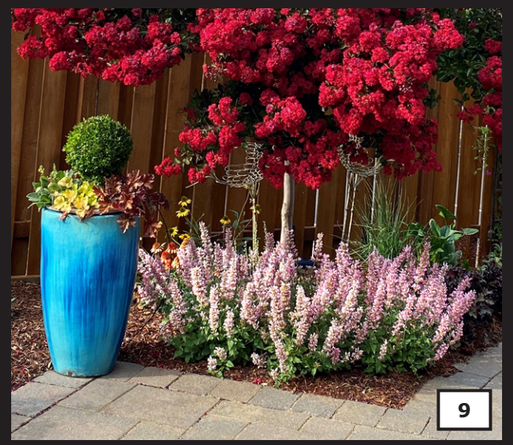
Agastache 'Pink Pearl'



Why Agastache 'Pink Pearl'?

Because your garden deserves a pop of pink that parties with pollinators! Agastache 'Pink Pearl' bursts with candy-colored blooms that butterflies, bees, and hummingbirds just can't resist. It's fragrant, tough, and thrives in the heat, like a low-maintenance friend who always shows up looking fabulous. Add it to your sunny spots for nonstop color and good vibes all season long!

FLOWERING TIME: Spring
FLOWERING COLOR: Pink
HABIT: Mounding
EXPOSURE: Full Sun
DIMENSIONS: 15-17" W x 9-10" H
HARDINESS ZONES: 6 – 10



Hanging Baskets, Mixed Containers & Other

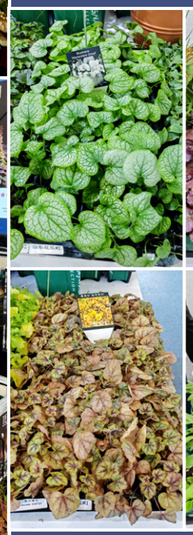
Domestic Trade Shows

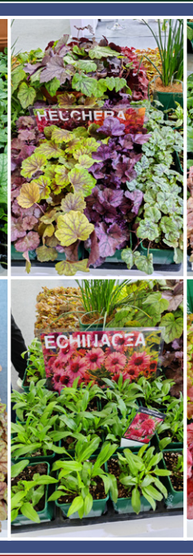
Cultivate & Farwest 2024, CAST 2025

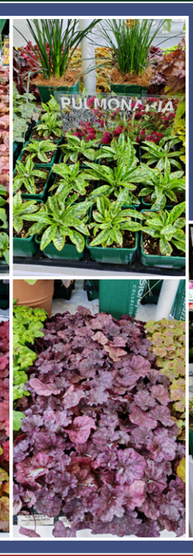
International Plant Showcases

China Garden Show, May 2025

This was a new show held outdoors in a public park in Shanghai, where TERRA NOVA® featured a show garden.







Shanghai IPM, April 2025

The annual IPM show in China was held in Shanghai this year. While TERRA NOVA® did not exhibit directly, our licensees, Chongqing Tianmu and Jardin China, had booths at the event.

Chang'an Road, October 2024

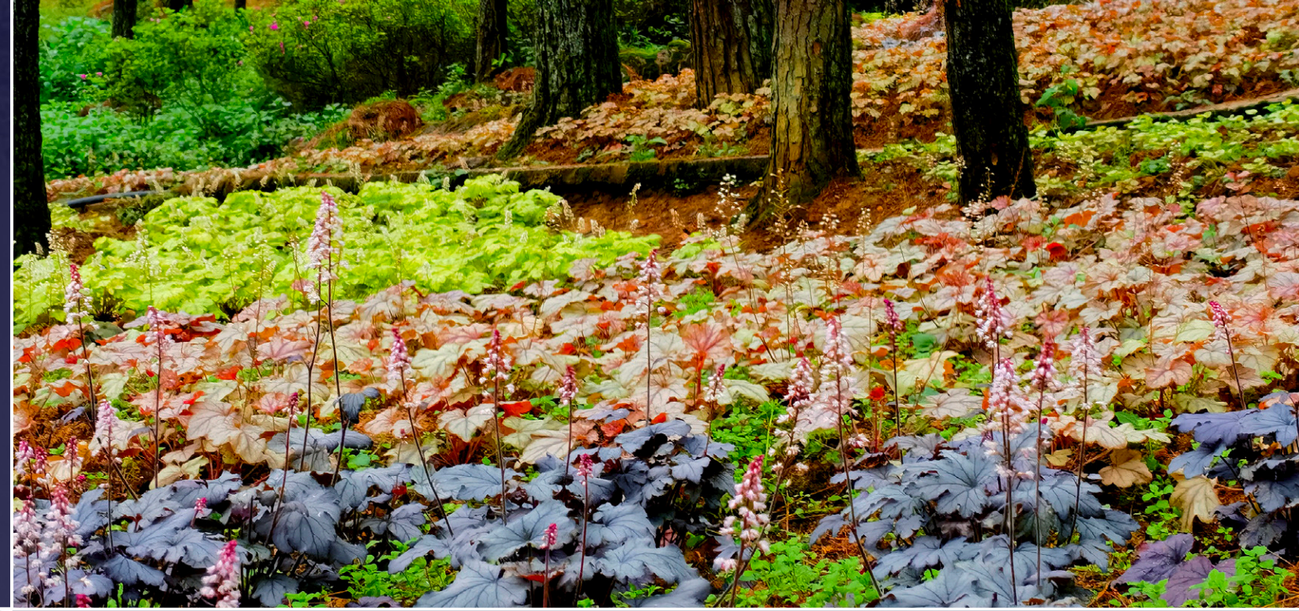
This was not a traditional trade show, but rather a series of landscape installations carried out by Beijing Florascape, featuring TERRA NOVA® plants. Given the unique setting and significance of this location for showcasing our varieties.

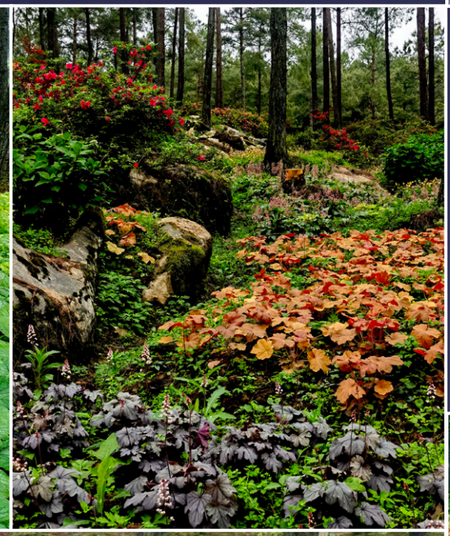
Damu Flower Valley

Damu Flower Valley, nestled in the Wuling Mountains of Southwest China, has undergone a remarkable transformation from a once-degraded landscape into a vibrant ecological and cultural destination. This revitalization is largely attributed to a collaboration between TERRA NOVA® Nurseries and Chongqing Tianmu Agriculture, which began in 2018. The initiative aimed to restore areas damaged by overharvesting of wild medicinal plants and mushrooms, utilizing TERRA NOVA®'s robust and visually striking plant varieties.

The valley now showcases an extensive collection of TERRA NOVA®'s plants, including Begonia 'First Blush' and 'St. Nick'; Heuchera 'Shanghai', 'Berry Smoothie', 'Georgia Peach', and 'Lime Marmalade'; Heucherella 'Gold Zebra', 'Tapestry', 'Solar Eclipse', and 'Sweet Tea'; Kniphofia 'Papaya Popsicle'; and Echinacea 'Aloha'. These selections were chosen for their adaptability to the region's shaded, cool environment and their ability to provide continuous color throughout the summer and autumn seasons.

The success of this project has elevated Damu Flower Valley to a 4A national tourist site, attracting over 300,000 visitors annually. It serves as a living exhibition of TERRA NOVA®'s breeding excellence and a model for sustainable landscape restoration. The valley not only enhances biodiversity but also fosters community pride and environmental awareness.





TERRA NOVA® Heucherellas exhibit exceptional tolerance to heat and high humidity. At Damu Flower Valley, afternoon rain showers occur almost daily throughout the summer, resulting in consistently moist soil conditions. Despite these challenging environmental factors, our Heucherellas not only thrive but also demonstrate vigorous growth and robust branching, spreading prolifically across the landscape.

Our trailing Heucherellas, including the CASCADE™ and FALLS™ series, are well-suited for use as ground covers on roadside shoulders and sloped terrains, where they can help prevent soil erosion during the rainy season in Southern China. Unlike typical roadside plantings that offer only greenery, these Heucherellas bring added value by providing vibrant foliage colors and ornamental flowers, enhancing the aesthetic appeal of such landscapes.

Varieties in Cascade series: 'Autumn Cascade', 'Gold Cascade', 'Plum Cascade' and 'Cooper Cascade'
Varieties in Falls series: 'Sunrise Falls', 'Yellowstone Falls', 'Redstone Falls' and 'Glacier Falls'

2024 Garden Trial Highlights

Every year, TERRA NOVA® Nurseries sends its latest plant superstars on a world tour! From bustling trial gardens to serene backyard beds, our new introductions are put to the test across the globe. These real-world trials reveal which plants thrive, wow, and win hearts in every climate. It's a golden opportunity for plant pros and green-thumbed fans alike to get a sneak peek at the next big thing in gardening. Along the way, excitement blooms, helping these fresh varieties land in grower programs and garden centers big and small. Check out some of the standout performers from the past year!

Heuchera 'Changeling'

Scored a perfect 5/5 at both Penn State and Colorado State University trials shining in both sun and shade

Heuchera FOREVER® 'Midnight'

Perfect score at Penn State and Colorado State University for both sun and shade

Heuchera 'Peach Smoothie'

Earned the prestigious 'Plant of Distinction' award at the University of Georgia Trial Gardens, recognized for exceptional performance and standout beauty

Sedum 'Conga Line'

Named a top performer in the Colorado State University Trials for outstanding garden performance and appeal

More Perfect Plants

- Long deep violet blue flower spikes
- Fast growing and vigorous large landscape perennial
- One of TERRA NOVA®'s TOP POLLINATOR plants
- Z 5-10 ● 30/24/36

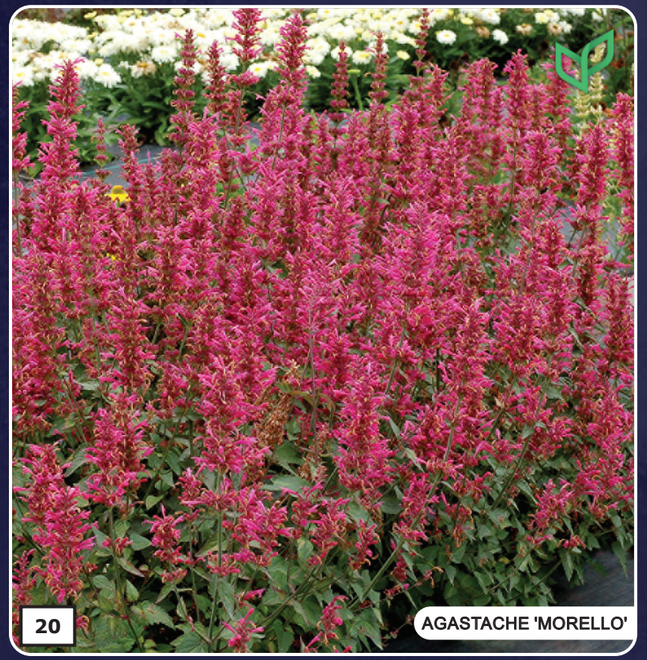
***Agastache* 'Morello'** PP29527 EU51349
- Huge, dense inflorescences of burgundy flowers
- Extended bloom time spring through fall
- Spring foliage has dramatic purple tones
- Dense, strongly upright habit
- Mildew tolerance
- Loved by bees and hummingbirds
- Z 5-10 ● 27/22/33

TERRA NOVA® Agastache

Benefits
- Vibrant, eye-catching colors
- Outstanding disease resistance
- Naturally strong growth habits without the need for PGRs
- A top choice for attracting butterflies, hummingbirds, and bees
- Improved winter hardiness (zones 5-10)
- Drought tolerant, once established
- Delightful sweet licorice fragrance from foliage and flowers, especially noticeable on warm days

Uses
- Makes a great "thriller" or "filler" in a container
- Background or mid border plants
- Planting median or low maintenance beds
- Hanging baskets

AGASTACHE 'BLUE BOA'



AGASTACHE 'MORELLO'

Agastache Background & History

The genus Agastache is thought to have originated in North America around 25 million years ago. Fast forward to modern-day Canby, Oregon, where our team of passionate plant breeders took a fresh look at the genus during breeding strategy meetings.

The challenge with Agastache was clear: the most colorful varieties lacked hardiness and couldn't tolerate winter wet, while the cold-hardy types came in uninspiring hues. The introduction of Blue Boa changed everything. With its striking, fluffy flower spikes and robust upright habit, it quickly became a standout. This breakthrough was achieved by incorporating the winter-hardy genetics of A. rugosa from Korea. Yet, there was still a demand for more compact, "rack-height" plants suitable for efficient shipping and retail displays.

While exploring the deserts of Eastern Oregon, the TERRA NOVA® team discovered an obscure and, frankly, unremarkable species that would become the cornerstone of a revolutionary Agastache breeding program (zones 5–10). Despite its humble appearance, this species contributed both its dwarf habit and superior winter hardiness, laying the foundation for the KUDOS™ Series. After years of careful selection, the series was introduced to resounding success, instantly reshaping the Agastache market. The KUDOS™ varieties proved ideal for growers, with their naturally compact and bushy form, diverse color palette, and unexpected resistance to downy mildew.

With KUDOS™ firmly established as a “game-changer” for propagators and growers, we thought our work with Agastache was complete. But demand led us to push the boundaries further. Growers wanted an even more compact series, and we delivered. A few years later, the POQUITO® Series was born. These ultra-compact, bushy plants are perfect for borders and containers, offering the same hardiness and disease resistance as KUDOS™, but in an even smaller package without forming a tight clump.

At TERRA NOVA®, we're proud to have transformed Agastache from a disease-prone temperennial into a resilient and breathtaking perennial, setting new standards fo the industry.

AGASTACHE 'PEACH PEARL'

AGASTACHE 'PEACH PEARL'

NEW *Agastache* 'Peach Pearl' PPAF PBRAF
- Bright, peachy-orange flowers for months and months
- Disease resistant foliage
- Full, compact habit
- Z 6-10 ● 8/16/16

***Agastache* 'Pink Pearl'** PP36637 PBRAF
- Soft, light pink flowers spring through frost
- Phenomenal flowering at 14 to 16 inches
- Distinctly different from other Agastache
- Every visitor to the nursery's favorite
- Z 6-10 ● 8/16/16

NEW *Agastache* 'Prince's Plume'
- Large lavender-violet flower spikes in great abundance
- Excellent pollinator attactor
- Disease resistant foliage
- Z 5-10 ● 30/30/36

AGASTACHE 'PRINCE'S PLUME'

AGASTACHE 'PINK PEARL'

Agastache KUDOS™ Series

- Genetically dwarfed
- Cold hardy
- Uniform height
- Bloom all summer
- Available in 6 colors
- Well branched
- Downy Mildew resistant
- Low water user when established
- Bee and hummingbird magnets

AGASTACHE 'KUDOS GOLD'

AGASTACHE 'KUDOS MANDARIN'

AGASTACHE 'KUDOS AMBROSIA'

AGASTACHE 'KUDOS CORAL'

***Agastache* 'Kudos Ambrosia'** PP25614 EU41116
- Multicolor flowers of cream, orange and light rose
- Z 5-10 ● 17/16/22

***Agastache* 'Kudos Coral'** PP25613 EU41117
- Long blooming, dense spikes of coral flowers
- Z 5-10 ● 20/16/24

***Agastache* 'Kudos Gold'** PP26410 EU43297
- Lemon-gold flowers in large compact spikes
- Early flowering
- Z 5-10 ● 16/20/22

***Agastache* 'Kudos Mandarin'** PP25381 EU41118
- Dense spikes of bright orange colored flowers
- Z 5-10 ● 17/16/22

AGASTACHE 'KUDOS SILVER BLUE'

KUDOS™ SERIES

AGASTACHE 'KUDOS YELLOW'

AGASTACHE 'KUDOS RED'

***Agastache* 'Kudos Red'** ('TNAGAKR') PP30375 EU54373
- Red flowers that hold their color in full sun
- Z 5-10 ● 12/25/20

***Agastache* 'Kudos Silver Blue'** PP25344 EU43266 ('Kudos SB')
- Long blooming, dense spikes of silver blue flowers
- Z 5-10 ● 18/24/24

***Agastache* 'Kudos Yellow'** PP26563 EU46413
- Large, dense spikes of bright yellow flowers
- Z 5-10 ● 20/22/27

Agastache POQUITO® Series

- Incredibly compact, bushy habits
- Disease resistant and hardy
- Dense flower spikes
- Loved by hummingbirds, bees, and butterflies
- Use in border fronts or containers
- Work well in mixes!
- Deer resistant

***Agastache* POQUITO® 'Butter Yellow'** ('TNAGAPBY') PP30403 EU54370
- Covered in Butter-yellow flowers
- Full, round habit
- Looks stunning in a hanging basket
- Superior trial performance
- Z 5-10 ● 10/15/13

***Agastache* POQUITO® 'Dark Blue'** ('TNAGAPDB') PP28950 EU51332
- Showy, large, bright blue flowers
- Upright, branching habit
- Z 5-10 ● 10/14/14

***Agastache* POQUITO® 'Lavender'** ('TNAGAPL') PP30530 EU54371
- Showy, large spikes of bright lavender pink flowers
- Dwarf, bushy upright habit
- Z 5-10 ● 11/15/14

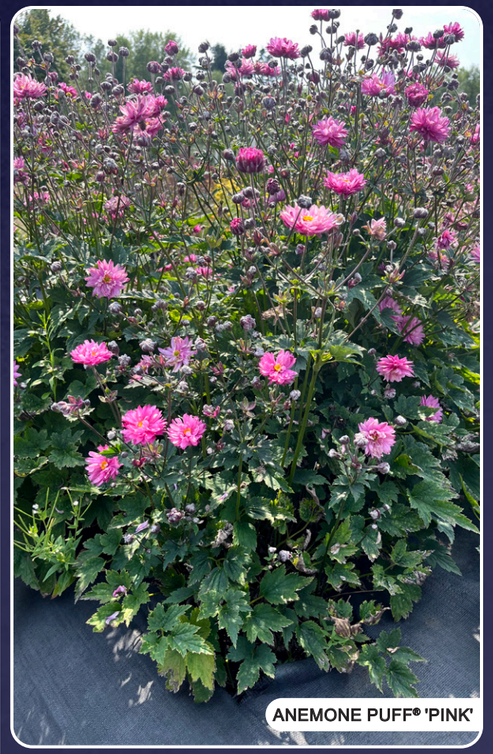
***Agastache* POQUITO® 'Orange'** ('TNAGAPO') PP30506 EU54378
- Full, round habit
- Looks great in a hanging basket
- Superior trial performance
- Showy, large, clear orange flowers
- Z 5-10 ● 12/15/15

***Ajuga reptans* 'Blueberry Muffin'** PP22092
- Bronze leaves are enveloped in contrasting bright blue flowers in the spring
- Mounding, dense habit suppresses weed growth
- Superior substance, vigor, and growth
- Z 5-9 ● ◗ ○ 6/18/10

NEW *Ajuga* NOVA® 'White'
- Glossy deep green foliage
- Tight mat forming habit
- Showy white flowers in spring and summer
- Z 5-9 ● ◗ ○ 6/17/8

● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower = Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant = Winter Color = ThinkPlants® (page 6)

ANEMONE HARLEQUIN™ 'CAMEO'



ANEMONE PUFF® 'PINK'

ANEMONE PUFF® 'PINK'

ANEMONE HARLEQUIN™ 'PASTEL'

***Anemone* HARLEQUIN™ 'Cameo'**
- Bushy, upright habit
- Huge floral display, summer into fall
- Large flowers sit atop the bouquet branching habit
- Z 4-9 ● ◗ 14/18/26

***Anemone* HARLEQUIN™ 'Pastel'**
- Naturally compact with excellent branching
- Large semi-double flowers in great numbers
- Great pollinator attractor, blooms late July through frost
- Easy, hardy and well behaved
- Z 4-9 ● ◗ 10/12/18

***Anemone* PUFF® 'Pink'**
- Midsize habit with phenomenal crown and stem count
- Gorgeous multitoned pompon flowers held on wiry stems
- Compact enough to be a filler and a thriller
- Long blooming, a visitor favorite
- Z 4-9 ● ◗ 12/12/24

***Anemone* SATIN DOLL™ 'Glow'**
- Large, pink, daisy-like flowers
- Naturally short and compact
- Great in containers or in the garden
- Z 4-9 ● ◗ 12/13/14

***Anemone* SATIN DOLL™ 'Rose'**
- Two toned bright rose-pink and carmine flowers
- Short, compact habit with minimal running
- Very upright habit
- Z 4-9 ● ◗ 10/16/14

BEGONIA HOLIDAY™ 'JOLLY HOLLY'

BEGONIA HOLIDAY™ 'SILVER BELLS'

Begonia T REX® Series

- Fills containers quickly
- Large, mounding habit
- Extremely showy
- Great in garden or as a house plant
- High altitude, semi-tropical species add incredible hybrid vigor
- Increased cold tolerance compared to other Rex types
- Tender perennial in zone 8

Watch our Video Featuring: Begonia T REX® Series

BEGONIA T REX® 'FIRST BLUSH'

BEGONIA T REX® ' PAINTER'S PALETTE'

***Begonia* T REX® 'Dancing Peacock'**
- Brilliantly colored, fan shaped leaves resemble a Peacock's tail
- Wildly colored and fanciful leaves of rose purple, silver, and mint
- Z 9-11 ○ 24/28/24

***Begonia* T REX® 'First Blush'** PP25974
- Silvery lavender leaves are lightly kissed with raspberry
- Great size and shape match with 'Ruby Slippers' but opposite contrasting colors
- Z 8-11 ○ 16/16/12

***Begonia* T REX® 'Painter's Palette'** PP25017 EU43391
- Leaves shaped like an artists' palette with red and green centers edged with black and dotted white edges
- Z 8-11 ○ 16/16/12

BEGONIA T REX® 'DANCING PEACOCK'

BEGONIA T REX® 'DANCING PEACOCK'

BEGONIA T REX® 'ST. NICK'

BEGONIA T REX® 'STARDUST'

***Begonia* T REX® 'Ruby Slippers'** PP24992 EU43392
- Deep ruby red leaves are super glossy with a little black stripe on the mid rib
- Z 8-11 ○ 16/16/12

***Begonia* T REX® 'St. Nick'** PP26811 EU46034
- Foliage charcoal and green with a red center and polka dots
- Z 8-11 ○ 16/16/16

***Begonia* T REX® 'Stardust'** ('TNBEGTRS') PP28647
- Showy, sometimes spiraled, medium large leaves
- Variable color depending on temperature, but always beautiful celestial appearance
- Z 9-11 ○ 24/30/24

BEGONIA T REX® 'RUBY SLIPPERS'

TERRA NOVA® Coleus History and Breeding Goals

Twenty years ago, TERRA NOVA®'s Coleus breeding program began informally - by allowing seedlings and named varieties to freely cross pollinate, and sowing the open-pollinated seed. In a word, the color spectrum was... "fantastic." Years went on before a dedicated breeding program brought a new sense of discipline, leading to our many advances. Rob Jansen influenced the goals and direction of program greatly before retirement, only now we see the full results of his work. Currently our head of Research and Development, Chuck Pavlich, has begun adding his own talents to bring our program to new heights. With nearly 200 varieties to date, TERRA NOVA® Coleus powers a number of famous programs around the world. Let us ramp yours up too!

TERRA NOVA®'s mantra in breeding is "no pinch, no PGR" and we certainly achieved this with Coleus. Our goals were met, with some additional features built in! Some of our varieties have never flowered in cultivation, some have flower spikes shorter than an inch long and a few have beautiful flowers that contrast well with their foliage. Using only one plant per pot, they'll branch naturally at every internode without a pinch, and have that perfect habit.

Benefits of TERRA NOVA® Coleus

The benefits of choosing our coleus over seed types or open varieties are clear, you will save on both time and labor because what you see is what you get! TERRA NOVA® Coleus root easily, fill appropriate sized containers quickly and stay tidy on shelves better than the competition. The decision to grow TERRA NOVA® Coleus is an easy one; bright colors, impeccable habit, late flowering or no flowers at all and a fast sell-through make our varieties a top pick for the annual foliage market.

TERRA NOVA® Uses for Coleus

Coleus are easy to grow and have surprising uses too.

Quick Bonsai: Try growing our minis in a crowded flat of 4" pots. After they have stretched, lay the pots on their sides and they will turn "upright" and grow a bend in the stem. After several days of this treatment, place then back upright and clean them up to look like Bonsai! Once bent, the stems will not straighten out again. These Bonsais take weeks not years to grow and don't cost an arm and a leg to purchase.

Coleus scutellarioides **WILDFIRE™ 'Blaze'**

- Lacy, flaming-red, leaves are surrounded by a yellow edge
- Dense, compact habit is spreading
- Branches well with no pinching
- Use in hanging baskets, container, and in summer borders
- Z 10-11 ◗ ○ 8/22/--

COLEUS WILDFIRE™ 'BLAZE'

Coleus scutellarioides **NOVA® 'Roly-Poly'**

- Produces a round mound of brightly colored leaves
- Great for mixed containers, summer borders and mass plantings
- No pinch, no PGRs
- Slow to flower
- Z 10-11 ◗ ○ 12/12/--

COLEUS NOVA® 'ROLY-POLY'

Coleus TERRA NOVA® Collection

The TERRA NOVA® series is a collection of unique, multipurpose plants that will capture the imagination of the most jaded gardener.

- Amazing, not to be missed colors and habits
- Self-branching - No pinching required, use no PGRs
- Shorter internodes than regular Coleus makes for tighter, better-branched plants
- Z 10-11 ● ◗ ○

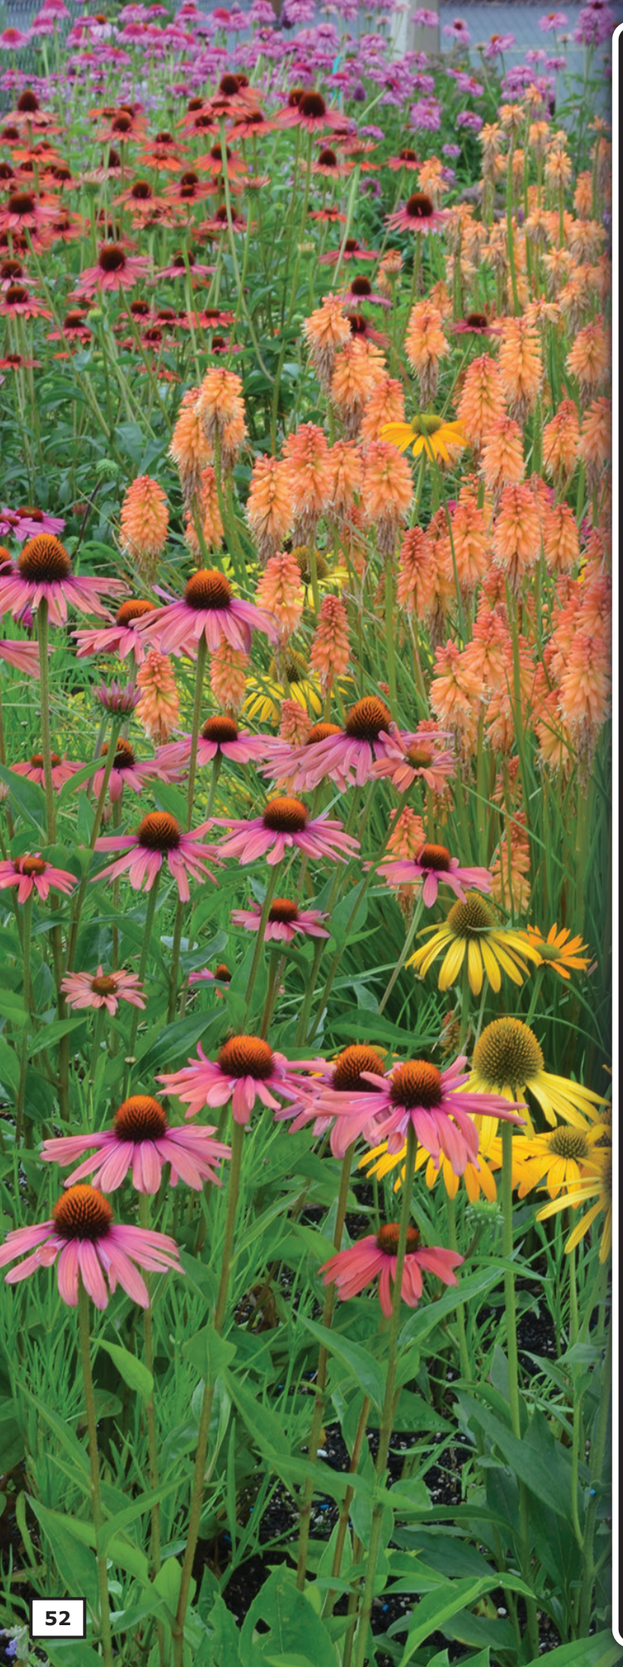
- Gold foliage Dicentra spectabilis with true red flowers
- Beautiful red tones from the flower to the foliage
- Fantastic contrast provides a focal point in shade gardens
- Z 4-8 ◗ ○ 🐝 Ⓓ 26/36/32



Why TERRA NOVA® Echinacea?

TERRA NOVA® is one of the foremost breeders of Echinacea. Initially, we were famous for our long-lasting colors, beautiful flower forms and broad range of habits and flower types. Recently we've come to be known for unique flower types, great performance and award-winning trial results nationally.

Classifications of Echinacea

Upright Types

Some of our most popular Echinacea varieties add depth and grace to gardens by adding outstanding color on tall, upright plants. A few of these favorites include 'Aloha', 'Big Kahuna', and 'Flame Thrower'. We also must mention two of our long-term most popular plants; 'Tomato Soup' and 'Tiki Torch'. Look for our REVELATION® 'Coral' to join this classic garden plant club.

Full Double Cone Types

The gene for double cones was an elusive one originally but TERRA NOVA® captured it in breeding work and brought it to a new level. The CARA MIA™ Collection launched to great fanfare, bred to be landscape staples with improved habit and unique colors. The recent SUNNY DAYS™ Series additions are the heaviest flowering and sturdy plants that look great in the ground but also in gallons at retail. Brand new this year is the SUNDIAL™ Series with far and away the largest individual double cones on tight compact plants, perfect for cut flowers, container gardening and landscaping!

Medium Mounding Types

Among the favorite offerings at TERRA NOVA® are the mid height plants that look great at retail and in the landscape of any sized garden. The DREAM™ Series are full, upright mounds that explode with color in the summer each year. 'Tangerine Dream' is a robust orange color with fabulous color retention. 'Glowing Dream' is an electric watermelon red color – nothing else is like this one! The multiple award-winning KISMET® Series fills in the central elements of the landscape bed with the perfect knee height and an explosion of color. These are some of the most outstanding varieties in gallon containers at retail and great garden performers.

Ideal shipping window for Echinacea is January thru May. After May 31st, ALL Echinacea should be pre-booked 6 months in advance for best availability.

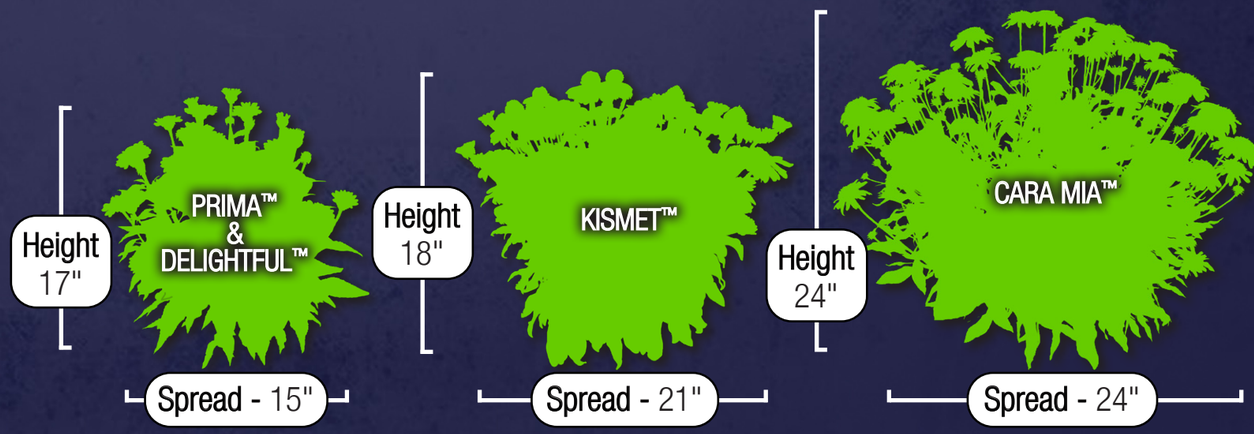
Echinacea are American Natives & Pollinator Magnets

Echinacea Grower Tips

- Echinaceas tolerate a wide range of soil-types, but all soils must have good porosity and a pH over 5.0. Liquid-feed regimens of 50 to 100 ppm are good for growing plants.
- Echinaceas start to flower at 13 hours of light, and dormancy is not required for flowering.
- Plants started in the fall (September or October) from a 72 cell size would need to be bulked up for overwintering in a 2.5"-3.0" container size or equivalent cell pack. These can be quickly finished when potted up after growth starts in the spring. This step will significantly cut losses due to over potting in the fall. **This is not recommended for Northern growers without heated (overwintering) facilities.**

Echinacea Series Sizing



***Echinacea* 'Aloha'** PP23525 EU38273
- Wide, soft-yellow petals surround orange
- Perfect landscape habit
- Z 4-9 ● 22/28/32

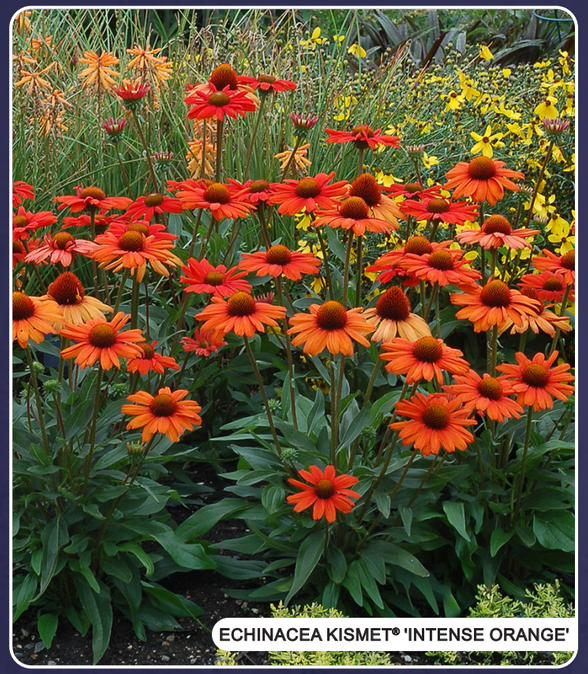
- Blooms early summer until frost
- Upright and compact habit
- A great crown count and numerous strong stems
- Excellent vigor
- First year blooming
- The perfect container plant
- Long lasting, showy flowers
- Top trial performance
- Low maintenance

How Are They Better?

As one of the longest standing breeders of Echinacea, TERRA NOVA® has a thoroughbred's pedigree for its coneflowers. We started from scratch with species selections and hand-built our hybrids. With fantastic performance at plant trials coast to coast, the KISMET® Series, beat out many big-name varieties. They have consistently won the "Top Performer" and best of species awards in numerous test locations. After nearly 25 generations of Echinacea; the outcome of this effort led to the KISMET® Series. Kismet, the Turkish/Arabic word for fate was chosen to represent this series. What sets the series apart from every other Echinacea is the incredible mounding habit, created by a profuse number of large, fragrant flowers. Add in long lasting color, vigor and outstanding overall performance to make this group of perennials fated for your greenhouse, nursery and home garden!



Echinacea **KISMET® 'Intense Orange'** ('TNECHKIO') PP28769 EU57843

● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower = Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant = Winter Color

The Evolution of TERRA NOVA® Echinacea

Back in the 1990s, Echinacea was a sturdy prairie native, reliable, purple, and not exactly the life of the garden party. But we saw its potential and set out to shake things up. Through creative breeding and a whole lot of plant passion, they took this wildflower and gave it a total glow-up. By the early 2000s, Echinacea started turning heads with bold new colors, fiery oranges, golden yellows, and watermelon pinks, along with compact habits and longer bloom times that made them stars in both gardens and containers.

Fast forward to today, and our Echinacea lineup is practically a fireworks show of form and color. From the ruffled, petal-packed blooms of 'Fringe Festival' to the powerhouse performance of the KISMET® Series, these plants bring nonstop excitement from spring to frost. Over the decades, we have turned Echinacea into a symbol of garden innovation, pushing boundaries, setting trends, and proving that even a 1990s wildflower can evolve into a 21st-century icon.

Echinacea PRIMA™ Collection

- Compact, free-flowering habit for pots or borders
- Long flowering season
- Numerous blooms the first year
- Extremely short, mounding habit, excellent for containers
- Forms multiple crowns

- Brilliant, two-toned flowers of salmon-rose
- Z 4-9 ● 12/10/18

***Echinacea* PRIMA™ 'Tiger'**
- Compact plant with large bicolor orange-gold flowers
- Z 4-9 ● 10/10/16

ECHINACEA PRIMA™ 'RUBY'

● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower = Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant = Winter Color

***Echinacea* PRINCESS™ 'Bride'**
- Strong, naturally mounding habit
- An abundance of cheery white flowers
- Vigorous and upright habit
- Z 4-9 ● 12/16/16

NEW *Echinacea* PRINCESS™ 'Citrus'
- Lime and yellow flowers cover this tidy plant
- Naturally compact habit won't out grow a container
- Interesting blue-green foliage shows off the flowers very well
- Z 4-9 ● 10/16/17

NEW *Echinacea* PRINCESS™ 'Honey'
- Excellent pollinator attractor
- Rich honey colored flowers
- Sweet honey scent
- Z 4-9 ● 10/12/15

***Echinacea* PUFF® 'Vanilla'** ('TNECHPV') PP28788
- Early blooming, double, vanilla-colored daisies
- Reblooms all summer until frost
- A great crown count and a low, mounding habit
- First year blooming!
- Z 4-9 ● 18/24/22

***Echinacea* REVELATION® 'Coral'**
- Huge, long lasting flowers
- Big, bold landscape type plant
- Excellent pollinator attractor
- Z 4-9 ● 24/30/30

***Echinacea purpurea* 'Ruby Giant'**
- Boasts huge, 5" wide fragrant blooms
- Very strong stems
- Blooms all summer into fall
- Z 4-9 ● 20/26/36

● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower
= Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant = Winter Color

Echinacea SUNDIAL™ Collection

- Extra-large double flowers up to 5” across
- Bright central green eye
- Compact, tight plants with strong, upright habit
- Excellent vigor and loads of long-lasting flowers
- Perfect for container use, heavy flowering without flop

ECHINACEA SUNDIAL™ 'PINK'

ECHINACEA SUNDIAL™ 'PINK'

***Echinacea* SUNDIAL™ 'Pink'**
- Enormous bright pink flowers, the largest yet!
- Z 4-9 ● 16/22/24

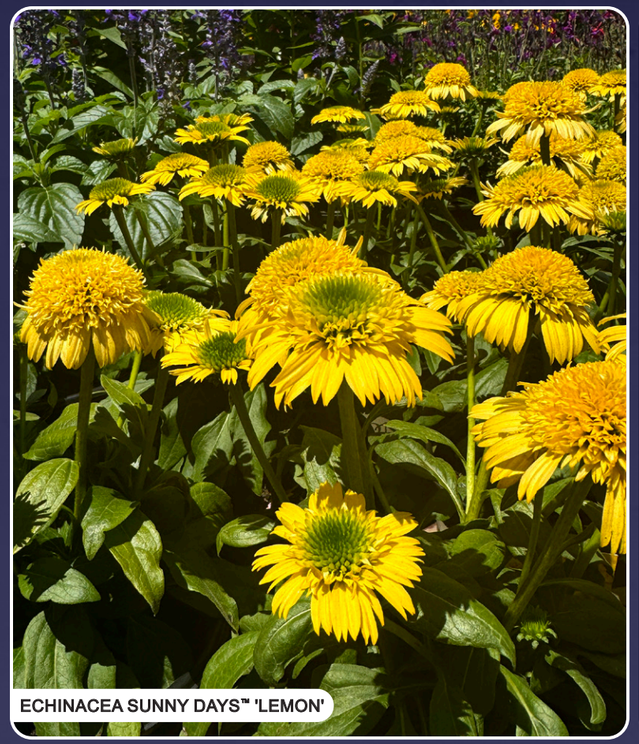
***Echinacea* SUNDIAL™ 'Zenith'** PPAF PBRAF
- Unusual semi-quilled petals surrounding a primrose-yellow cone
- Long lasting color, resembles a florist Chrysanthemum
- Z 4-9 ● 14/18/16

ECHINACEA SUNDIAL™ 'ZENITH'

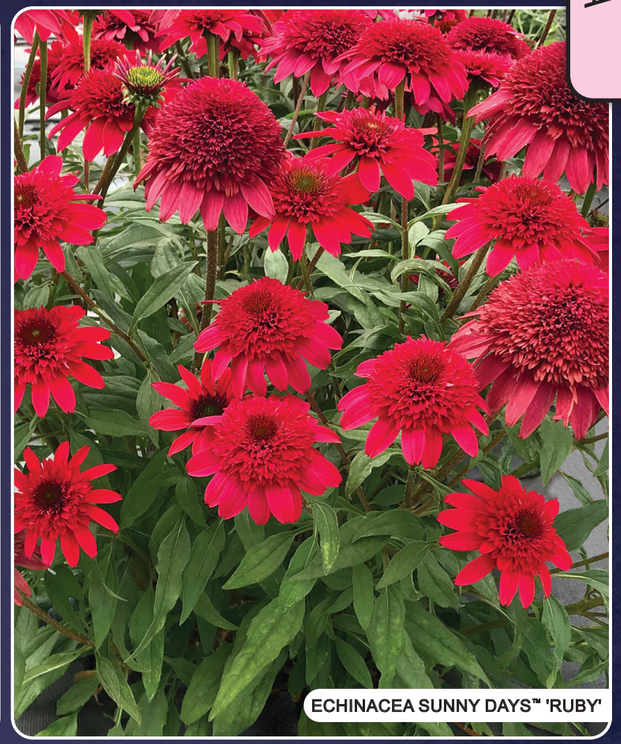
ECHINACEA SUNDIAL™ 'ZENITH'

Echinacea SUNNY DAYS™ Collection

- Heavy crown count provides support for profuse flowering without flopping
- Strong, compact, upright habit
- Excellent foliage cover for full containers
- Vigorous in the garden



ECHINACEA SUNNY DAYS™ 'LEMON'



ECHINACEA SUNNY DAYS™ 'RUBY'

***Echinacea* SUNNY DAYS™ 'Lemon'** ('TNECHSDL') PP33471 PBRAF
- Electric yellow double flowers
- Z 4-9 ● 22/30/30

***Echinacea* SUNNY DAYS™ 'Ruby'** PP33437 ('TNECHSDR') PBRAF
- Large, ruby colored double flowers
- Z 4-9 ● 18/24/24

ECHINACEA SUNNY DAYS™ 'LEMON'

EUCOMIS 'DARK STAR'

EUCOMIS 'FRECKLES'

EUCOMIS 'FRECKLES'

***Eucomis* 'Dark Star'**
- Very dark, red-black foliage
- Great clumping habit
- Doesn't need flowers to sell, cute in a pot
- Cute pineapple leaf topped rose pink flowers
- Z 6-9 ● 9/14/10

***Eucomis* 'Freckles'** PP22769
- Spotted leaves, wavy margins, and attractive rose red flowers
- An amazing, vigorous clumping habit
- A dramatic breakthrough for those that want to grow something different, yet easy to grow
- Great in a container, border, or mixed bed
- Z 6-9 ● 9/14/10

EUCOMIS 'OAKHURST'

***Eucomis comosa* 'Oakhurst'**
- Strapping, upright brilliant burgundy foliage and purple, pineapple-like flowers
- Surprisingly hardy, with success in Zone 6, despite its tropical look
- Bulbs can be lifted in colder zones after frost
- Z 6-9 ● 24/20/32

***Eucomis* TERRA NOVA® 'Zulu Flame'**
- Pineapple-like spikes of light-purple flowers
- Dark burgundy leaves hold their color through the summer
- A great bold accent
- Broader leaves and wider habit than 'Oakhurst'
- Z 6-9 ● 9/14/10

Our Largest Eucomis

EUCOMIS TERRA NOVA® 'ZULU FLAME'

FATSIA 'SPIDER'S WEB'

FATSIA 'SPIDER'S WEB'

Watch our Video Featuring: Fatsia 'Spider's Web'

***Fatsia japonica* 'Spider's Web'**
- Bold, evergreen leaves with brilliant white splashing and dotting
- Wild variegation changes with the seasons and as the plant ages
- Works great as a houseplant or summer patio foliage
- Z 7-9 ◗ ○ 60/48/65

***Gaura* CONFETTI™ 'Pink'**
- Neat habit without pinching or use of PGRs
- Clear pink flowers on stout stems
- Nice solid bun in spring
- Red foliage that gets greener through the season
- Z 5-9 ● ◗ 9/18/14

Geum

- Loved by pollinators!
- Massive bloom count
- Dense, compact habit with high crown count
- Attractive, clean foliage all summer
- Early blooming

As with most breeding projects at TERRA NOVA®, our first thought is always "how do we improve on what exists?" First, we look at common issue's growers and gardeners face. With Geum, we felt that there was an abundance of potential to expand the color range, extend bloom time and improve overall habit and foliage health. By combining rarely used species we have new bold colors, improved the foliage (even through summer months!) and most importantly gave this genus an improved and in some cases reblooming floral display in the garden. No longer a one-shot wonder with a sad flopping habit; TERRA NOVA® Game Changing Geum are taking the market by storm and for good reasons.

GEUM 'FIRE STORM'

GEUM 'FIRE STORM'

***Geum* 'Fire Storm'** PP23179
- Semi-double, orange flowers
- Compact habit
- Blooms from early spring to late summer!
- Z 5-9 ● ◗ 🦋 Ⓜ 13/18/20

GEUM PRETTICOATS™ 'PEACH'

***Geum* RETTICOATS™ 'Peach'** ('TNGEUPP') PP31208 EU59992
- Semi-double, large peach-colored flowers
- Short flowering stems
- Compact, dense habit
- Z 4-9 ● ◗ 🦋 Ⓜ 10/20/12

GEUM PRETTICOATS™ 'PEACH'

GEUM 'SUNKISSED LIME'

GEUM 'SUNKISSED LIME'

Geum TEMPO™ Series - Reblooms!

- Heavy blooming, semi-double flowers always look neat
- Vigorous, fast growing mounds smother weeds
- Contrasting deep colored stems
- Improved foliage looks lush late into season

A HUGE improvement in the world of Geum! This series has fixed many of the issues that may have allowed past varieties to be overlooked. Finally! Improved foliage that does not burn and dry out with flowers held neatly above the foliage in a sea of color instead of a wild and wispy tangle. Long blooming and easy to grow, these will make you not just rethink but fall in love with Geum.

Watch our Video Featuring: Geum TEMPO™ Series

NEW *Geum* TEMPO™ 'Fiesta' PPAF PBRAF
- Bright yellow and orange flowers
- Long blooming from early spring until summer, good fall rebloom too!

***Helleborus x nigercors* 'Honeyhill Joy'** (Metcalfe)
- Outfacing, cream-centered flowers over vigorous, shiny, blue tinged foliage
- Weather and deer-resistant foliage is exceptional
- An early and profuse bloomer of Helleborus x nigercors heritage
- Z 4-9 ◗ 18/24/28

HELLEBORUS 'HONEYHILL JOY'

HELLEBORUS 'HONEYHILL JOY'

Helleborus NORTH STAR™ Collection

TERRA NOVA®'s NORTH STAR™ Series is the culmination of years of breeding and careful selection to ensure that these quick-to-flower beauties could be reliably produced as clonal plants, rather than variable seed strains. **Produced from tissue culture and can be programmed to have multiple crowns and bloom the first year.**

HELLEBORUS NORTH STAR™ 'CRYSTALLINE'

HELLEBORUS NORTH STAR™ 'GARNET FRILLS'

HELLEBORUS NORTH STAR™ 'PINK'

HELLEBORUS NORTH STAR™ 'RUBY HEART'

HELLEBORUS NORTH STAR™ 'PLUM'

Helleborus NORTH STAR™ Collection

Ideal shipping window for Helleborus is September thru April.
Must pre-book 6 months in advance for best availability.

- Bred for reliable tissue culture production planning
- Plant in spring for flowering the following winter
- Excellent hardiness
- Easy to grow
- Makes a nice wintertime cut flower
- Grows well full sun to full shade
- Thick, pine green foliage contrasts nicely
- Resistant to pests and diseases
- Great for borders and tree understories

Decades of Innovation: The Evolution of TERRA NOVA® Nurseries

Since its founding in 1992, TERRA NOVA® Nurseries has reshaped the horticultural landscape with bold breeding breakthroughs and a relentless commitment to innovation. What began as a small team of passionate plant enthusiasts quickly blossomed into a global powerhouse of perennial plant development. From introducing groundbreaking Heuchera varieties in the '90s to launching futuristic breeding programs that have transformed Echinacea, Coreopsis and beyond, TERRA NOVA® has continually pushed the boundaries of color, form, and performance. Each decade marks a chapter of experimentation, creativity, and influence, rooted in tradition, yet always blooming toward the future.

The Early Roots (1992–1999)

Planting the Seeds of Innovation

The 1990s marked the beginning of something extraordinary for us. Between 1992 and 1999, we were laying the foundation, planting the literal and figurative seeds of innovation that would grow into a revolution in perennial plant breeding.

During this pioneering decade, our vision was clear: reimagine the garden by creating plants that were not only beautiful, but bold, resilient, and groundbreaking. We began by challenging convention, experimenting with interspecific crosses and exploring untapped potential in under-appreciated genera. It was in these early years that we introduced our first Heuchera hybrids with vibrant foliage colors and unique patterns, plants that would soon become industry icons.

Our small but passionate team worked tirelessly, armed with microscopes, greenhouses, and a fearless drive to do things differently. These years were about discovery, trial and error, and the joy of watching a concept become a commercial success.

Bold Colors, Bigger Impact (2000–2009)

A Decade of Discovery

During these ten years, we embarked on an extraordinary journey, exploring the vast possibilities within plant genetics, design, and performance. A "Decade of Discovery" celebrated ten years of groundbreaking breeding, bold experimentation, and transformative introductions that have reshaped modern horticulture.

Each year brought new challenges, new ideas, and exciting breakthroughs. From reinventing classic genera to unveiling brand-new hybrids, our discoveries have not only pushed the boundaries of what plants can do, but also what gardeners can imagine.

Modern Classics (2010–2019)

Refining the Future

By the time the 2010s arrived, we had already made our mark, but the next chapter would be about sharpening that impact and taking it global. "Refining the Future" during this decade meant elevating our breeding work to new heights through data-driven decisions, cutting-edge techniques, and an unwavering commitment to performance and beauty.

This was the decade when our vision became a well-oiled engine of innovation. Our breeding programs expanded into more complex intergeneric crosses, introducing plants with never-before-seen traits: longer bloom times, more compact habits, vibrant coloration, and improved disease resistance. We brought high-performance genetics into genera like Agastache, Kniphofia, Sedum, and Echinacea, redefining them for modern gardens.

Global trials became a cornerstone of this refinement process. With partners across North America, Europe, and Asia, our varieties were tested and proven in a wide range of climates and conditions, ensuring reliability for growers and gardeners worldwide. Our plants weren't just beautiful, they were durable, adaptable, and ready for a changing world.

On the business front, we refined our intellectual property protections, broadened our reach with licensed growers, and strengthened our brand reputation as leaders in perennial innovation. We embraced design, sustainability, and digital media to better tell the stories behind each introduction.

A Future in Bloom (2020–2025)

Twisting the Past into a Future in Bloom

In a world reshaped by rapid change and renewed appreciation for nature, we entered the 2020s with a bold vision: to take the best of our past and twist it into something entirely new. "Twisting the Past into a Future in Bloom" is more than a phrase, it's a reflection of how we've honored our legacy while daring to reinvent what's next.

This era has been defined by creative reimagination. We've revisited beloved genera and long-standing favorites, infusing them with next-generation traits, like extended seasonality, new colors, and improved garden performance. Whether it's rethinking the structure of Heuchera, pushing the palette of Echinacea, or reinventing form in Geum and Kniphofia, we've blended nostalgia with innovation to meet the needs of tomorrow's gardeners.

We've also embraced the unexpected, leaning into bold aesthetics, plant forms that challenge convention, and foliage-first design. The influence of changing climate patterns, consumer trends, and global gardening movements has only fueled our determination to be not just relevant, but visionary.

Digital storytelling, immersive branding, and stronger grower relationships have allowed us to share this evolving story in vivid new ways. The result? A portfolio of plants that feel both familiar and futuristic, timeless, yet tailored for what's ahead.

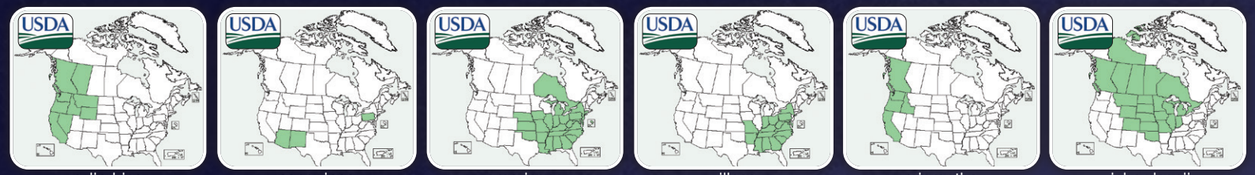
Heuchera are North American Natives

Native Species Locations



cylindrica | sanguinea | americana | villosa | micrantha | richardsonii

- **H. americana** - Takes extremes of heat and cold. A durable beauty forms a great habit and fascinating leaf patterns.
- **H. villosa** - Loves heat. Grows in a wide variety of climates. Takes humidity very well.
- **H. micrantha** - The source of ruffled and curled foliage that maintains its form into the winter. This fantastic winter foliage helps to protect the crown from freezing winds. Native to the west coast, this species also imparts the best tolerance to heavy wet soil.
- **H. cylindrica** - Compact wand flowers and habit. Imparts ability to survive harsh temperature extremes and drying winds.
- **H. sanguinea** - Drought and heat tolerant beyond belief. We owe our superb flower color range to this New Mexican native.
- **H. richardsonii** - Leaves resembling a Pelargonium hortorum. Grows in a wide variety of climates, including the prairies of Canada.

TERRA NOVA® Heuchera

The Pros:

- Exciting, bright, clear colored foliage
- World's broadest selection
- Plugs finish fast for container planting
- Shapely mounding habit
- Great flowering habit, many reblooming types
- House plant varieties
- Months of color
- Good profit
- American native
- Clear guidelines for culture

The Low Down:

- Low water usage
- Low fertilizer needs
- Low pesticide use
- Low growth habit

Our customers asked us to end the confusion of what Heuchera are best for their climate and region. To meet this challenge we developed the following "key to your success with Heuchera."

- (FC) - Front & Center - Rebloomers with a smaller, tighter habit that is great for smaller pot sizes or the front of the border
- (AS) - All Star - Medium stature, multipurpose, can be used in all situations
- (FL) - Flowering - Plants with exceptional flowering
- (L) - Landscape - Largest plants that are more spreading and suitable for landscape applications
- (NL) - Northern Landscape - Large landscape plant good for the northern climates, mostly ruffled
- (SL) - Southern Landscape - Large landscape plant, most with villosa breeding, good in heat and humidity

The order of the codes indicates the species' stronger influence.

- (A) - americana
- (V) - villosa
- (M) - micrantha
- (C) - cylindrica
- (S) - sanguinea
- (R) - richardsonii

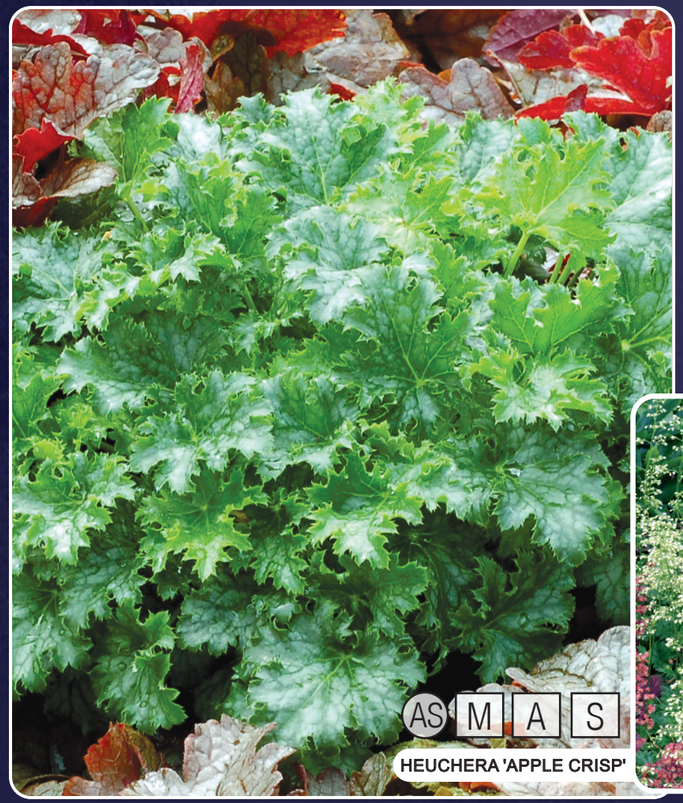
***Heuchera* 'Apple Crisp'** PP23576 EU37047
- A tight, compact habit with sharply crisped ruffles
- Green leaves with sharply crisped ruffles
- White flowers on short flowering stems
- Z 4-9 ● ◗ 6/11/11

***Heuchera* 'Autumn Leaves'** PP22103 EU32334
- Mid-sized leaves are red in the spring, burnt orange in summer, and ruby red in the fall
- Beautiful in fall containers with mums and kale
- Z 4-9 ◗ 8/15/18

***Heuchera* 'Berry Marmalade'** PP23285 EU37275 ('TNHEUBM')
- Shiny purple-black, ruffled leaves
- Large habit, great for the landscape
- Extra thick leaves stand up to intense heat and cold
- Z 4-9 ● ◗ 12/28/18



● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower = Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant = Winter Color

***Heuchera* 'Berry Smoothie'** PP21871 EU29052
- Huge leaves of amazing metallic rose purple!
- Excellent year-round glowing bright color
- Heat and humidity tolerance
- Z 4-9 ◗ ○ 18/20/28

***Heuchera* 'Black Beauty'** PP13288 EU11507 ('Dark Beauty')
- Very black-red and GLOSSY, ruffled leaves
- Stands up to the sun
- From any angle, this plant is strikingly backlit in ruby red
- Z 4-9 ● ◗ 10/16/24

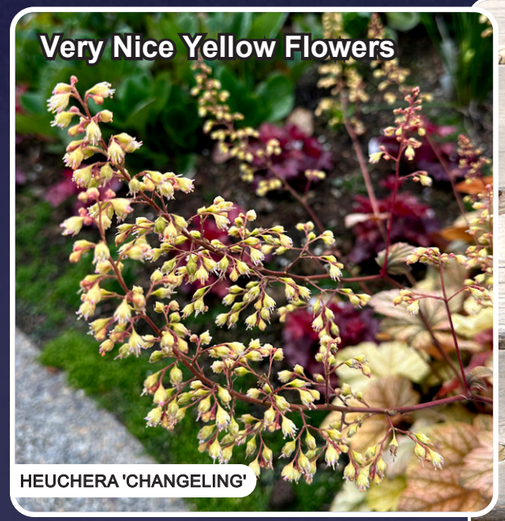
***Heuchera* 'Black Forest Cake'** PP33532 PBRAF
- Smooth, dark chocolatey foliage topped with bright cherry-red flowers
- Excellent habit and showy flowers are a great addition to any perennial foliage lineup
- Medium sized plant that is great in containers and garden beds
- Z 4-9 ● ◗ 6/12/12

***Heuchera* 'Black Taffeta'** PP26162 EU39498
- Chic-ly ruffled, shiny black foliage
- Large leaf ruffle with heat and humidity tolerance
- Great vigor
- Z 4-9 ● ◗ 🌵 ❄ 12/15/21

***Heuchera* 'Cajun Fire'** PP24150 EU37049
- Foliage is red in spring, deepening to dark maroon in fall
- Attractive, clean foliage on rounded mounds
- White flowers on dark stems just above the foliage
- Z 4-9 ● ◗ 🦋 🐝 🌵 ❄ 9/14/18

***Heuchera* 'Champagne'** ('TNHEUCHA') PP27567 EU46650
- Foliage color change from fresh red to gold shades, always with a clean white veil
- Short dark burgundy flowering stems with light peach-colored flowers
- Light, bright color for adding pop to a shady spot
- Z 4-9 ◗ ○ 🦋 🐝 11/14/14

● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower
= Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant ❄ = Winter Color



***Heuchera* 'Changeling'** PPAF PBRAF
- Unusual color shifting ability
- Neat, compact habit looks great in a container
- Hardy and easy to grow
- Z 4-9 ● ◗ 🦋 🐝 ❄ 9/14/16

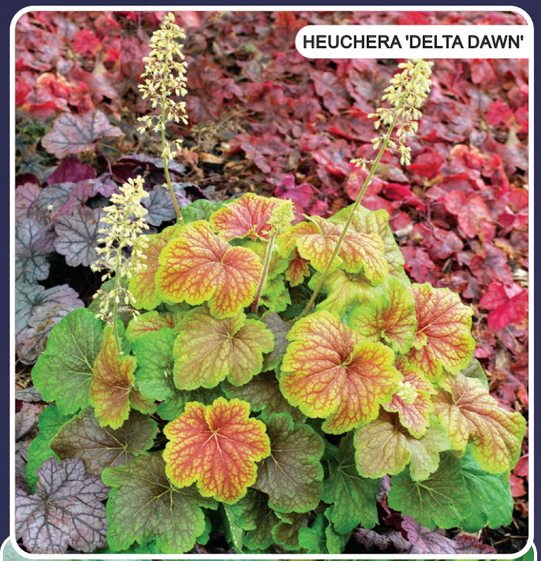
***Heuchera* 'Cherry Cola'** PP22967 EU35419 ('TNHEUCC')
- Front of the border charmer with lovely red-brown leaves and cherry red flowers
- Foliage colors change with the season
- Part of the SODA™ Series with 'Ginger Ale' and 'Root Beer'
- Z 4-9 ● ◗ ✂ 🦋 🐝 🌵 ❄ 6/14/18

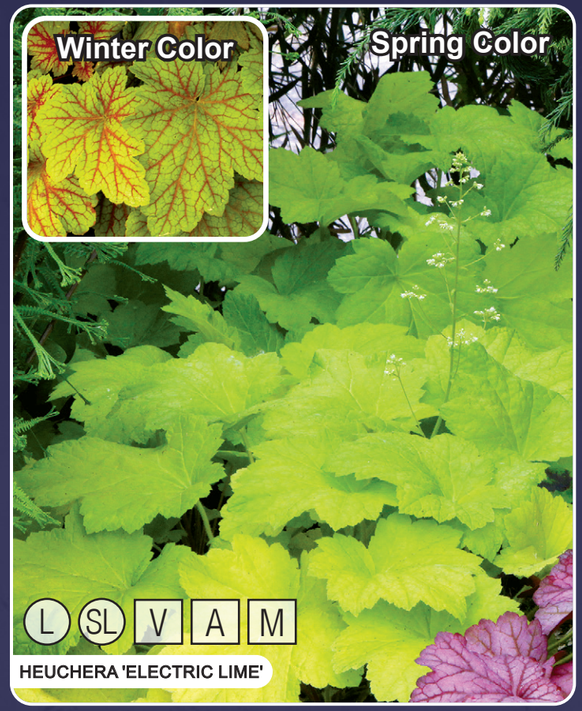
***Heuchera* 'Chocolate Ruffles'** EU3954
- Heavily ruffled leaves of rich chocolate on top and deep burgundy on the bottom
- Thousands of petite purple flowers on strong purple spikes
- Heat and humidity tolerant Heuchera landscaper's staple
- Z 4-9 ● ◗ 🌵 ❄ 12/24/30

***Heuchera* 'Crème Brule'** PP16774 ('TNHEU041') EU20617 ('TNHEUCB')
- Peachy-orange spring leaves to amber in the summer
- Superior landscape plant that grows well in the shade garden
- Does well in southern gardens
- Z 4-9 ● ◗ 🦋 🐦 12/14/22

***Heuchera* 'Delta Dawn'** PP23545 EU35492
- Brilliant red-centered with chartreuse edged leaves in spring and fall
- Prominent red-veined lime leaves in summer
- Strong, vigorous habit
- Z 4-9 ◗ ○ 🦋 🐦 ❄ 8/12/14

***Heuchera* 'Electra'** PP21856 EU29064
- Shocking, blood-red veins electrify the golden leaves
- Bears short, dense cones of white flowers
- Excellent in containers or in the border
- Z 4-9 ○ 🦋 🐦 ❄ 8/14/12

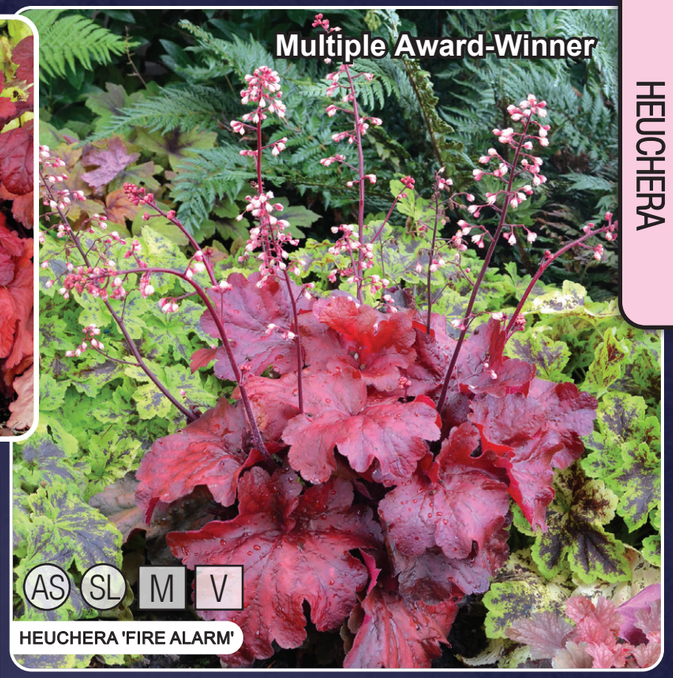




***Heuchera* 'Electric Lime'** PP21872 EU32308 ('Electric')
- Red veins in cool temperature over huge lime leaves
- Refreshing chartreuse color in summer
- Excellent in containers or in the shady border
- Z 4-9 ○ 🦋 🐦 ❄ 12/28/16

***Heuchera* 'Fire Alarm'** PP24525 EU37063
- Large, landscape favorite
- Leathery bright, red leaves in a low spreading habit
- Foliage color changes throughout the seasons; dark maroon in summer
- Z 4-9 ● ◗ ○ 🦋 🐦 🌵 ❄ 9/14/13

***Heuchera* 'Fire Chief'** PP21880 EU29053
- Glowing wine red leaves make a gorgeous medium sized mound
- Bicolored pink and white flowers on dark red stems
- Changes color in the winter to a rich brown
- Z 4-9 ● ◗ ○ 🦋 🐦 🌵 ❄ 9/15/18



● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches 🌸 = Fragrant ✂ = Cut Flower

Heuchera 'Lime Marmalade'
2012

Heuchera FOREVER® 'Red'
2017

Heuchera 'Changeling'
2023

This is a colorful revolution that began in the 1990s and never looked back. What was once a modest native foliage plant became the canvas for some of the most dynamic breeding in modern horticulture. We introduced bold new colors such as lime green, black, peach, silver, and even electric pink, turning Heuchera into a foliage-forward focal point for gardens and containers. These weren't just pretty leaves; they brought compact habits, improved vigor, and a longer season of color, proving that foliage could be just as exciting as flowers.

As the years progressed, we pushed the boundaries even further by developing improved root systems, better heat and humidity tolerance, and eye-catching leaf patterns. Series like FOREVER® Series and standout cultivars like 'Obsidian' and 'Lime Marmalade' have become staples in landscapes across the globe. Today's Heuchera that we have bred are not only for style but for substance, combining stunning looks with hardiness and garden performance. From woodland groundcovers to bold border stars, we have redefined what Heuchera can be and we're still raising the bar.

Trailing Heucherellas & Tiarellas

Heucherellas (see page 122) are a unique bi-generic cross between Heucheras and **Tiarellas** (see page 160), combining the best traits of both parents. Clumping varieties tend to be taller with denser blooms, while trailing types excel as groundcovers, spreading across landscapes with ease.

This hybrid offers a range of impressive benefits, enhanced heat tolerance, vigorous growth, and most notably, **no rust**. Wherever a running Tiarella or Heucherella touches the ground, it often roots at the leaf nodes, making it easy to establish and expand. With sufficient water and loose, well-drained soil, designers now have the exciting opportunity to use bold groundcover colors, like orange, purple, yellow, and red, in ways never before possible. These trailing forms also shine in hanging baskets and mixed perennial containers, offering your nursery team vibrant and versatile design options.

● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower = Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant = Winter Color = ThinkPlants® (page 6)

NEW ***Plectranthus*** **NOVA® 'Brilliant'**

- Self branching, very vigorous
- Simply brilliant variegated foliage
- Thick foliage handle dry air better
- Z 9-11 ◗ ○ 9/24/12

Plectranthus VELVET™ Series

- Use is mass plantings or containers outside in summer
- Very dark green leaves in a compact habit
- Compared to 'Mona Lavender', VELVET™ Series has larger, deeper colored flowers on longer inflorescences, a more compact habit, and deeper green leaves
- Natural semi-dwarf habit, that does not require pinching and PGRs
- Trusses of tubular flowers are held perfectly above the foliage and never look stretchy

Plectranthus **'Velvet Elvis'** PP25020 EU40446 ('Velvat Elvis')

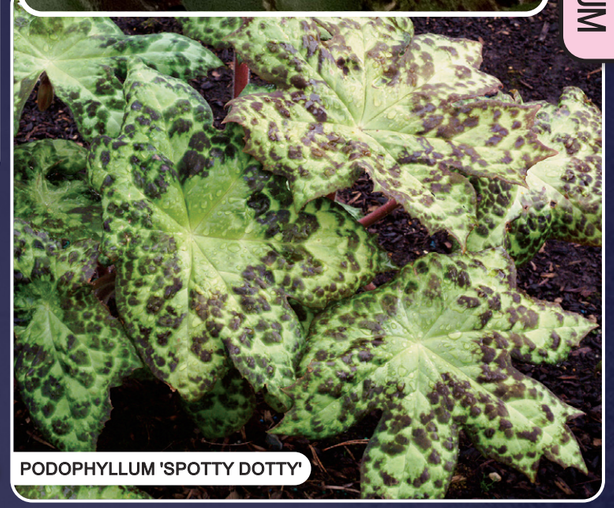
- Large lavender blue flowers in large inflorescences
- Z 9-11 ◗ ○ 28/31/32

Plectranthus **VELVET™ 'Diva'**

- Large purple flowers in large inflorescences
- Z 9-11 ◗ ○ 19/21/21

Plectranthus **VELVET™ 'Starlet'**

- Hot fuchsia pink flowers in large inflorescences
- Z 9-11 ◗ ○ 14/16/18



Podophyllum **'Kaleidoscope'** PP14460

- Amazingly beautiful leaves are octagonal with a strong pattern of markings in silver and bronze
- Leaves can grow to 18" across
- Clusters of 7-10 burgundy colored flowers are under the leaves
- Z 6-9 ◗ ○ 18/24/17

Podophyllum **'Spotty Dotty'** PP17361

- Leaves are chartreuse with dramatic chocolate-brown spotting in the spring
- A brilliant hybrid of several Asian Mayapples
- Large, vigorous, lobed umbrella shaped leaves
- Selected for frost-tolerance, garnet-colored flowers, and gently spreading nature
- Z 6-9 ◗ ○ 18/24/17

Polemonium **'Hurricane Ridge'** PP35878 PBRAF

- Cut, crisp foliage with attractive tight geometric look
- Bright lavender blue flowers top deep green foliage
- Vigorous, tough, and hardy perennial that takes sun and shade
- Great for containers and landscape
- Z 4-9 ● ◗ ○ 9/18/14

● = Full Sun ◗ = Partial Shade ○ = Shade x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches = Fragrant = Cut Flower = Butterfly = Hummingbird = House Plant = Deer Resistant = Drought Tolerant = Winter Color = ThinkPlants® (page 6)

Pulmonaria

- Great foliage and flower forms
- High contrast, mildew resistant foliage
- First nectar source for pollinators
- Flowers that look at you
- Great performance in East Coast high humidity perennial trials

PULMONARIA 'HIGH CONTRAST'

Vigorous

PULMONARIA 'DARK VADER'

PULMONARIA 'MOONSHINE'

PULMONARIA 'DARK VADER'

***Pulmonaria* 'Dark Vader'**
- Dark green punctuated by silver spotting
- Flowers change color from pink to dark blue
- Z 4-9 ◗ 🦋 Ⓓ ❄ 10/19/11

***Pulmonaria* 'High Contrast'**
- Wavy, spear-shaped dark green leaves with contrasting silver center
- Large pink flowers shift to blue
- Performs in hot summers of the Midwest and South
- Z 4-9 ◗ 🦋 Ⓓ ❄ 9/18/9

***Pulmonaria* 'Moonshine'** PP13686
- Shimmering silver-white leaves with a thin edge of darkest green
- Our flashiest Pulmonaria brightens up a dark shady bed
- Small, pale-blue flowers add to the clean look
- Z 4-9 ◗ ○ 🦋 Ⓓ ❄ 15/20/10

PULMONARIA NOVA® 'COBALT'

***Pulmonaria* NOVA® 'Cobalt'**
- Deep, pine green foliage
- Deep cobalt blue flowers in huge numbers
- One of the earliest to bloom
- Z 4-9 ● ◗ 🦋 Ⓓ 12/18/14

***Pulmonaria* 'Raspberry Frost'** PP35154 ('TNPULRASFRO') PBRAF
- Best foliage Pulmonaria! Cream-silver edge gives added interest
- Coral-red flowers attract Hummingbirds early in the spring
- Clean, compact habit looks great at retail all year long
- Easy to grow in containers and in ground
- Z 4-9 ● ◗ ○ 🦋 Ⓓ ❄ 10/18/8

***Pulmonaria* 'Raspberry Splash'** EU11545
- Abundant dusky raspberry-coral flowers
- Strongly silver-marked, sharply pointed, very upright foliage
- Very profuse flowering on this sun tolerant hybrid
- Z 4-9 ● ◗ 🦋 Ⓓ ❄ 12/25/13

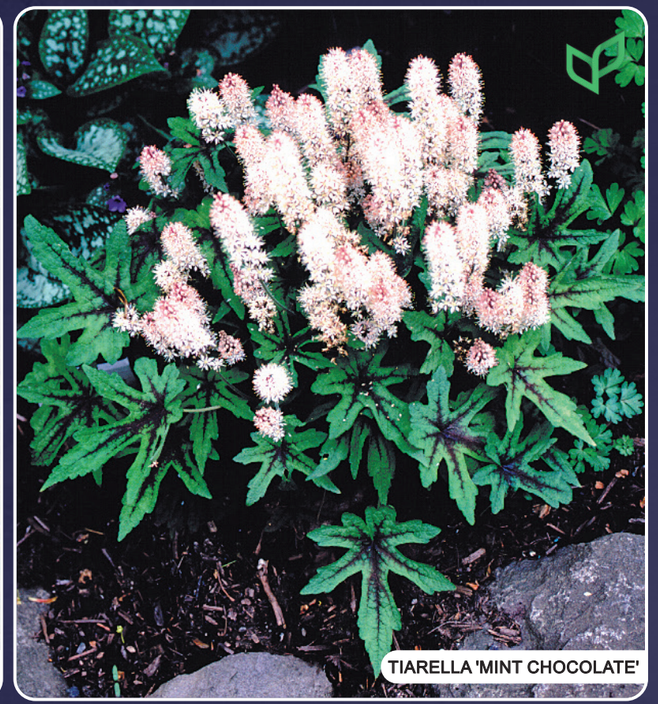
Tiarella are North American Natives

Once considered a modest woodland bloomer, Tiarella has undergone a stunning transformation thanks to TERRA NOVA®. By crossing eastern and western species, we've developed an outstanding series of vigorous varieties in both clumping and trailing forms. The clumpers now feature dramatically improved, intricately cut foliage with bold markings, paired with a burst of lightly fragrant flowers that delight pollinators. Ideal for woodland gardens, these plants make exceptional ground covers and pair beautifully with Heuchera, Phlox, Hostas, and ferns to create a serene, color-rich glade.

Breeders Goals

- Unique leaf characteristics including shapes, textures and patterns
- Compact flowers that rebloom
- Multiseasonal interest - attractive in spring, summer, fall and winter
- Mildew-resistance
- Perfect for perennial containers - 1st up in the spring and DO NOT mind being covered in the winter

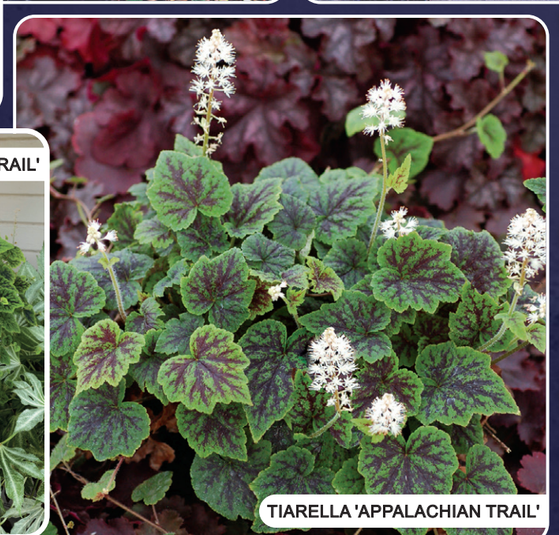
TIARELLA 'HAPPY TRAILS'



TIARELLA 'MINT CHOCOLATE'

TIARELLA 'HAPPY TRAILS'

TIARELLA 'APPALACHIAN TRAIL'



TIARELLA 'APPALACHIAN TRAIL'

***Tiarella* 'Appalachian Trail'** PP22675

- Well-marked leaves have a large splatter pattern of black splashes
- A lovely groundcover (or mixer in a pot) with numerous branches, is a rapid trailer
- Try in a hanging basket for a different effect, you'll be rewarded with the short white flowers
- Z 4-9 ◗ ○ Ⓜ ❄ 4/36/6

***Tiarella* 'Happy Trails'** PP21933

- Profusion of runners and charming small rounded leaves that are marked with a thick black band on the veins
- It's a vigorous trailer with short white flowers
- Z 4-9 ◗ ○ Ⓜ ❄ 4/36/9

***Tiarella* 'Mint Chocolate'**

- Unusually long maple-shaped leaves are mint green with a chocolate overlay
- Toffee-tinted flowers in early spring
- Deer resistant
- Z 4-9 ◗ ○ Ⓜ ❄ 8/11/15

Fall Color

TIARELLA 'PINK SKYROCKET'

Beautiful Pink Flowering Tiarella

TIARELLA 'PINK SKYROCKET'

Eye-Catching Tags That Educate, Inspire, and Guide

Tags are required for all patented plant material.
They can be purchased for $0.12 each and are a great value.

- A picture says it all—let your tags do the talking
- The ultimate silent salesperson, packed with essential cultural information
- Elevate your presentation with our premium, fade-resistant tags
- Enhance national brand recognition with trusted TERRA NOVA® branding
- Designed with a tag/pot lock system for secure display
- Each tag includes English and Spanish descriptions

Labeling Policy: Ensuring Accuracy, Consistency and Brand Integrity

Formerly, our tags were required for all patented varieties as part of unrooted cutting and rooted liner sales transactions, unless a grower-customer had been designated, "Tag Exempt." A customer could become tag exempt by submitting his custom label to us for approval. This was true for growers purchasing product from TERRA NOVA® Nurseries directly or via TERRA NOVA® Nurseries' North American licensees.

The new policy is a highly streamlined version of the prior requirements. Growers who desire to refrain from using TERRA NOVA® Nurseries' tags simply need to notify their TERRA NOVA® Nurseries' sales representative (503-263-3150) or licensee they are using branded labels for their production and retail sales.

Please visit http://www.terranovanurseries.com/resources/patent-list/ for a complete and updated list of patented plants.

Making a Difference One Sustainable Step at a Time

In an ongoing effort to reduce waste and plastic consumption along with improving the environment and the planet, we are moving away from our large plastic labels in every tray during the winter months. Each tray will have either a "blue" or "yellow" adhesive label on the end of the flat identifying it as coming from a cold or warm greenhouse.

Trays with "blue" labels:

- The young plants you just received with a blue label on the tray will tolerate less cold than established plants.
- Plants received late fall through winter in dormant state should be maintained in frost free environment between 35˚-45˚ F
- Plant should be kept moist but never wet
- Fertilizer should be withheld until new growth begins to appear as temperatures warm.

Trays with "yellow" labels:

- Trays marked with a yellow label are coming from a warm greenhouse and should be maintained at temperatures above 55˚ F and gradually cooled over approximately three weeks to the 35˚-45˚ F range (when appropriate).
- It is important that young plants coming from a warm greenhouse be kept growing, and not allow to go to dormant due to cold temperatures.

Stay Connected with TERRA NOVA® All Year Long!

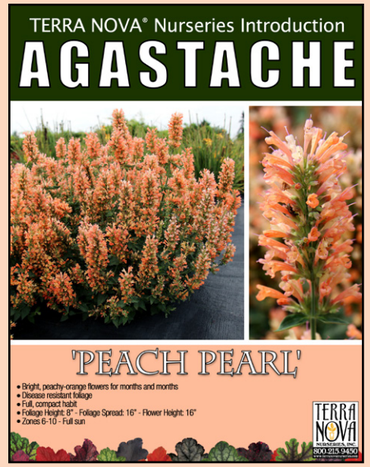
Grower Resources

Product Profiles: These profiles present the following in a graphically clean display:

- Sharp photography in close-ups, landscape use, flower shots and seasonal interest shots
- Bullet points that cover the plant's top selling points and cultural information
- Available in Adobe Photoshop® format so you can customize content and logos

From farmer's market to large nursery, these signs can be silent salespeople, saving your staff valuable time. They can be printed as flyers to promote a specific plant or be presented in a Power Point format to augment talks given at the nursery.



Grower Recipes: We want all growers to be successful, and to do so, we put together a succinct page for each plant we offer.

Each page contains the following information:

- Finish times and recommended pot sizes
- Detailed growing information
- Close up, landscape, and gallon container photography

These pages will be available on our website, www.terranovanurseries.com and will be in a format that can be easily converted to Power Point files to keep on hand or train other growers.

Culture Sheet

Names in a bold font are NEW for 2025/2026.

Page #	Plant Name	Approximate Finish Time for 4" (Weeks)	Approximate Finish Time for Gallon (Weeks)	pH	EC	Hardiness Zones	Greenhouse Water Requirements	Day Length for Flowering	Size = Foliage Height/Foliage Spread/ Flowering Height	Habit
19	Acanthus 'Whitewater' PP23342	6 - 8	10 - 12	5.5 - 6.5	0.75 - 1.0	7 - 10	Dry moderately between waterings	Long Day	36" / 36" / 48"	Clumping
19	Actaea 'Black Negligee'	8 - 10	12 - 16	5.5 - 6.5	0.5 - 0.7	5 - 9	Keep moist	Facultative Long Day	48" / 24" / 60"	Upright
20	Agastache 'Blue Boa' PP24050 EU38274	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	6 - 10	Dry moderately between waterings	Facultative Long Day	30" / 24" / 36"	Upright
22	Agastache 'Kudos Ambrosia' PP25614 EU41116	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	17" / 16" / 22"	Upright
22	Agastache 'Kudos Coral' PP25613 EU41117	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	20" / 16" / 24"	Upright
22	Agastache 'Kudos Gold' PP26410 EU43297	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	16" / 20" / 22"	Upright
22	Agastache 'Kudos Mandarin' PP25381 EU41118	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	17" / 16" / 22"	Upright
23	Agastache 'Kudos Red' ('TNAGAKR') PP30375 EU54373	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	12" / 25" / 20"	Upright
23	Agastache 'Kudos Silver Blue' PP25344 EU43266 ('Kudos SB')	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	18" / 24" / 24"	Upright
23	Agastache 'Kudos Yellow' PP26563 EU46413	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	20" / 22" / 27"	Upright
20	Agastache 'Morello' PP29527 EU51349	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	27" / 22" / 33"	Upright
21	**Agastache 'Peach Pearl' PPAF PBRAF**	**6 - 8**	**10 - 12**	**5.8 - 6.2**	**2.0 - 3.0**	**6 - 10**	**Dry moderately between waterings**	**Facultative Long Day**	**8" / 16" / 16"**	**Upright**
21	Agastache 'Pink Pearl' PP36637 PBRAF	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	6 - 10	Dry moderately between waterings	Facultative Long Day	8" / 16" / 16"	Upright
24	Agastache POQUITO® 'Butter Yellow' ('TNAGAPBY') PP30403 EU54370	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	10" / 15" / 13"	Upright
24	Agastache POQUITO® 'Dark Blue' ('TNAGAPDB') PP28950 EU51332	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	10" / 14" / 14"	Upright
24	Agastache POQUITO® 'Lavender' ('TNAGAPL') PP30530 EU54371	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	11" / 15" / 14"	Upright
24	Agastache POQUITO® 'Orange' ('TNAGAPO') PP30506 EU54378	6 - 8	10 - 12	5.8 - 6.2	2.0 - 3.0	5 - 10	Dry moderately between waterings	Facultative Long Day	12" / 15" / 15"	Upright
21	**Agastache 'Prince's Plume'**	**6 - 8**	**10 - 12**	**5.8 - 6.2**	**2.0 - 3.0**	**5 - 10**	**Dry moderately between waterings**	**Facultative Long Day**	**30" / 30" / 36"**	**Upright**
25	Ajuga 'Blueberry Muffin' PP22092	4 - 6	8 - 10	5.8 - 6.2	1.8 - 2.2	5 - 9	Dry slightly between waterings	Day Neutral	6" / 18" / 10"	Mounding
25	**Ajuga NOVA® 'White'**	**4 - 6**	**8 - 10**	**5.8 - 6.2**	**1.8 - 2.2**	**5 - 9**	**Dry slightly between waterings**	**Facultative Long Day**	**6" / 17" / 8"**	**Spreading**
26	Anemone HARLEQUIN™ 'Cameo'	6 - 8	10 - 12	5.8 - 6.4	1.5 - 2.4	4 - 9	Keep evenly moist in growing season	Facultative Long Day	14" / 18" / 26"	Clumping
26	Anemone HARLEQUIN™ 'Pastel'	6 - 8	10 - 12	5.8 - 6.4	1.5 - 2.4	4 - 9	Keep evenly moist in growing season	Facultative Long Day	10 " / 12" / 18"	Clumping
26	Anemone PUFF® 'Pink'	6 - 8	10 - 12	5.8 - 6.4	1.5 - 2.4	4 - 9	Keep evenly moist in growing season	Facultative Long Day	12" / 12" / 24"	Clumping
27	Anemone SATIN DOLL™ 'Glow'	6 - 8	10 - 12	5.8 - 6.4	1.5 - 2.4	4 - 9	Keep evenly moist in growing season	Facultative Long Day	12" / 13" / 14"	Clumping
27	Anemone SATIN DOLL™ 'Rosé'	6 - 8	10 - 12	5.8 - 6.4	1.5 - 2.4	4 - 9	Keep evenly moist in growing season	Facultative Long Day	10" / 16" / 14"	Clumping

Key to Symbols

PPAF = US Plant Patent applied for or pending
PP# = US plant patent number
PBRAF = European plant variety rights pending
EU# = European plant variety rights number
○ = Full sun (no shade cloth required)
○ / ◗ = Full sun to part or morning shade (30%)
◗ / ● = Part to full shade or morning sun (30%)
◗ = Part shade or morning sun (30%)
● = Shade or filtered light required (50%)
x/x/x = Foliage Height/Foliage Spread/Flowering Height in inches

= Deer resistant
= Drought tolerant
= Fragrant
= Winter color
= Cut Flower
= Hummingbird
= Butterfly

- **Zone:** Minimum USDA zone for mature, established plants
- **Exposure:** For acclimated, mature, established plants
- **Deer resistant:** They fare better than others (no plant is deer-proof)
- **Bloom time:** Month of bloom for mature, vernalized plants in Oregon
- **Drought tolerant:** Tolerate summer low water use

Habit

Clump Forming / Tight / Cluster: Forming a tight grouping of foliage, can originate from other groupings nearby. Common for many perennials, can be used in the front to middle of beds or containers.

Mounding: Wide based plants, usually have a rounded appearance. Fills in space well, great for front or middle of beds depending on overall height.

Groundcover / Spreading / Mat Forming: Sprawling plants that hug closely to the ground, sometimes rooting along the way as they radiate outward. These are often great for groundcovers and can help suppress weeds.

Trailing: Plants that branch and flow along the ground or over the edge of a container. Great for hanging baskets or cascading over edges.

Upright: Tall, vertical plants that usually have an upward appearance. Adds height and draws the eye, great for middle or back of beds depending on overall height.

Shrub / Shrubby: Larger plant that takes up more substantial space in a garden, often woody. Can be both evergreen or deciduous depending on zone.

Shipping

We take pride in delivering top-quality plants with care and efficiency. Our shipping team works closely with trusted carriers to ensure that your plants arrive healthy, secure, and on time. Whether it's unrooted cuttings, liners, or finished material, we carefully package each order to withstand transit and maintain plant quality. We offer flexible shipping options to meet your scheduling needs and provide tracking details to keep you informed every step of the way. **Please note our minimum order requirement is 3 trays.** Your success starts with healthy plants and we're committed to getting them to you in the best condition possible.

TERRA NOVA®'s Broker Program

TERRA NOVA® is continually evolving, expanding our offerings into new markets where customers expect the high level of service that broker networks provide. We're proud to partner with a trusted group of brokers to deliver a wide range of ordering and financial options. Whether you order directly or through a broker, you'll still have full access to TERRA NOVA®'s comprehensive support network including culture sheets, high-quality photography, and proven grower solutions. If your broker representative is unable to assist with specific questions, our Sales Team is always here to help.

Sales Team

At TERRA NOVA®, our Sales Team is more than just a group of experts they're the friendly faces behind your favorite plants. With decades of combined experience in horticulture, customer service, marketing, and logistics, this passionate crew works hard to make sure you get the plants, tools, and support you need to succeed. From crafting stunning catalogs to coordinating smooth shipments and answering your toughest growing questions, our team is dedicated to helping your business bloom. Whether you're meeting us in person at a trade show or chatting from across the country, you'll always be greeted with knowledge, professionalism and a smile.

Larry Finley
larry@terranovanurseries.com

Larry, our Sales Manager, has been part of the TERRA NOVA® family for over 22 years and he knows plants like few others can! With his grower roots and a big, friendly smile, Larry brings a perfect mix of expertise and warmth, whether he's helping out at the nursery or spreading the TERRA NOVA® magic at national trade shows.

Libby Smith
libby@terranovanurseries.com

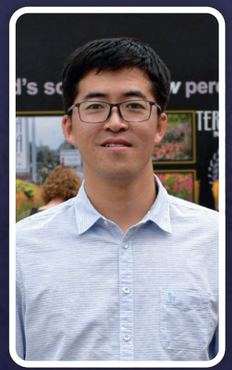
Libby, our Sales Office Manager, hopped on board the TERRA NOVA® team in the spring of 2016 and we've been running like clockwork ever since! With 24+ years of customer service know-how, she keeps the Sales Office humming and makes sure everything stays on track, whether Larry's in the office or out dazzling the crowds at trade shows. Libby's calm, can-do attitude keeps the team grounded and the good vibes flowing!

Courtney Thompson
courtney@terranovanurseries.com

Courtney rolled into the TERRA NOVA® sales team in 2021 with over 18 years of industry know-how and a knack for getting plants where they need to go thanks to her background in nursery stock shipping. She brings a calm, friendly vibe to every conversation and has a true passion for helping customers. Whether it's answering questions or solving shipping puzzles, Courtney keeps things moving with a smile!

Josh Blair
josh@terranovanurseries.com

Josh became part of the TERRA NOVA® sales team in 2004 after graduating from the University of Oregon (GO DUCKS) with a degree in Journalism. He's the creative force behind our website and catalog, and he brings TERRA NOVA®'s marketing vision to life with fresh ideas, bold designs, and a whole lot of color.



Cheng Chen (Kevin)
kevin@terranovanurseries.com

Kevin is our go-to guy in Asia, proudly representing TERRA NOVA® from his home base in Beijing, China. He wears many hats managing everything from customer coordination and marketing to licensee relations, production support, PBR, and exhibitions across the Chinese market. With a background in both the nursery industry and the Department of Agriculture, Kevin brings expertise, energy, and a passion for plants to everything he does!

Ordering Information

ORDERING:

- Place your orders by phone or e-mail (sales@terranovanurseries.com).
- 3 flat minimum per order (half flat customers welcome).
- We are wholesale only and do not have the ability to accommodate orders that do not meet our minimums.
- Please allow at least a 9-month lead-time on custom and/or large orders.
- Large orders may require a 30% down payment and an additional 30% payment 30 days prior to shipping; the remaining balance due within the terms on the invoice.
- Our goal is to ship the majority of your order(s) at the same time; however, not all plants are created equal and do not grow at the same rate, therefore, orders may have multiple ship dates.
- It is our policy to back order all material that is unavailable at the time of shipment; each shipment will incur individual freight and boxing charges. Please let us know at time of ordering if you do not wish to have items back ordered.
- Tags will be automatically added to plant orders unless informed differently. Customers can request that no tags be sent with their plant order if they are utilizing a branded plant label that contains the pertinent plant information. i.e. plant name, plant patent.

CUSTOM ORDERS: of 720 plants (10 flats) per variety are considered a custom grow and all cancellations terms listed below apply.

- Custom orders cancellation/changes: Changes to custom orders must be made one week prior to the initiation of production for your order. This timing will vary depending on the size of the order and production process, tissue culture or cutting production.
- All cancellations are subject to approval.

PRICES: We reserve the right to change our prices at any time. Catalog pricing is valid from July 1st, 2025 until June 30th, 2026. Pricing is based upon ship date of product.

DISCOUNTS: Early order discount available for orders booked 6 months prior to ship date.

TERMS:

- All accounts will be cash in advance until credit is approved.
- All major credit cards are accepted. Please phone this information.
- Open accounts are payable within the terms stated upon each invoice. A finance charge of 1.5% per month is charged to all account balances not paid within the terms.
- We reserve the right to change account terms and delay any and all shipments if conditions of the account are not met.
- Accounts with a balance of over 90 days will become cash only unconditionally.
- Returned checks are subject to a $25 fee.
- All wire transfer payments must include any wires fees charged by the participating financial institutions.
- All orders must be paid in U.S. dollars.

RESTOCK/CANCELLATION POLICY:

- Customers canceling within three weeks prior to ship date will be required to pay a cancellation fee of 50% of the cancelled order.
- Custom orders cancellation/changes: Changes to custom orders must be made one week prior to the initiation of production for your order. This timing will vary depending on the size of the order and production process, tissue culture or cutting production.
- Will Call orders not picked up within the designated time frame will ship at buyers' expense.

CURRENT AVAILABILITY: This information is updated daily on our website at www.terranovanurseries.com. If you don't have access to a computer, call your sales representative for an updated listing.

GUIDED TOURS: Contact the Sales Department to arrange tours.

BOXING INFORMATION:

Plants In box:

- Liner 72: 3 flats or 216 plugs

Flats per pallet:

- 31 flats (minimum) to 80 flats (maximum) per pallet (to be cost effective, increments of 16 flats recommended)

DORMANT PLANTS: If you are receiving plants between September and April you may receive dormant plant material. These flats will (have white label with blue tab identification label with the special instruction printed on the box). More information about the care and handling of dormant material can be found on our website www.terranovanurseries.com or by calling our Sales Department at 800-215-9450.

DOMESTIC SHIPPING:

Boxed orders:

- Method: FedEx / UPS
- Summer boxing charge: $10.00 per box
- Winter boxing charge: $11.50 per box

Pallet orders:

- Pallets: FedEx Freight/UPS Freight/ Temperature controlled freight services
- Pallet shipper: $3.00 per flat

We ship F.O.B. Canby, OR. Should your order be damaged in transit, TERRA NOVA® Nurseries is not to be held responsible. All plants requiring special care will be marked with a "GROWER ALERT" label, corresponding to instructions enclosed in the box.

GOVERNMENT SURCHARGE: Unexpected fees, tariffs, and taxes may apply.

WILL CALL: Hours are Wednesday - Thursday from 9:00am - 2:30pm PST and we are closed Saturdays and Sundays. Any changes to pick-up date or cancellations must be made at least 5 days prior to the scheduled pick-up. All Will Call orders not picked up within the designated time frame will be placed on the ground and scheduled as shipments the following Monday at buyer's expense if sales department is not contacted prior to Monday to reschedule a pickup time.

CANADIAN SHIPPING: A customs broker must be selected and the contact information provided at the time an order is placed. All orders must consist of full flats of plant material. We ship F.O.B. Canby, OR. Should your order be damaged in transit or held at a border, TERRA NOVA® Nurseries is not to be held responsible. Additional fees incurred in shipping:

- Shipping methods: FedEx International, UPS, DHL & Forwarding Agent
- Summer boxing charge: $10.00 per box
- Winter boxing charge: $11.50 per box
- Pallet shipper: $3.00 per flat
- Oregon Phytosanitary Certificate fee: $20.00
- Chemical application fee (if required): $45.00

All Canada GST, Customs Duty and other Canadian Government agency fees are the responsibility of the customer. U.S.-Canada Greenhouse-Grown Plant Certification Program (GCP) certified.

If an import permit is required, it is the responsibility of the customer to obtain one and provide a copy before an order ships.

INTERNATIONAL SHIPPING: We no longer ship outside of North America. As an alternative to ordering direct from TERRA NOVA® Nurseries, please visit our website for a list of brokers or distributors near you.

PATENTS: Unauthorized propagation of varieties that are patented is strictly prohibited. These varieties are identified by PP or PBRAF (European Patent).

PLANT CLAIMS: TERRA NOVA® Nurseries is committed to shipping the very best quality plants by the most efficient methods available. Our goal is to meet this objective with every order. All claims must be phoned in within 72 hours of receipt of shipment followed by a written notification of concerns and specific details for our records. Providing photographs with your request for a credit will help speed the process and may ultimately be necessary to finalize the claim.

CARRIER CLAIMS: We must receive notification within 24 hours including pictures of all damaged packaging and contents. TERRA NOVA® must process the claim for any shipment shipped on our account number. We cannot honor any carrier claim in which we do not receive all the information and photographs required by the carriers.

GROWER CULTURE SHEETS: Culture sheets are posted on our website and our sales and production teams are available to assist with growing questions. Your success is our future.
