# New introductions: Tempt your customers in 2008

COMPILED BY SARAH WILLIS, HORTICULTURAL CONSULTANT TREVOR COLE

Everybody always wants to see the hot, new thing. From cars to movies, it's all the same. And, it's no different in the plant world. For the 11th year *Landscape Trades* is publishing a selected list of the latest cultivars and plant introductions. This provides you with a great opportunity to make important decisions on what plants to stock next season in the competitive world of attracting consumers. Over the years, this new plants issue has proved a useful tool to Canadian buyers planning for next season.

The next step in the process of is *Garden Inspiration*. Published in the spring, this special free-distribution consumer magazine features these new plant listings, in a glossy, gardener-friendly package.

Take a look now to see what your customers will request come the start of the new 2008 gardening season. The pages from six through to 31 feature all that is new, along with sources.

## new plants perennials

### *Acanthus mollis* Tasmanian Angel™ Variegated bear's breeches

The first variegated acanthus. Found in Tasmania, this gem offers striking, bold leaves with white margins and mottling. This plant forms a large clump of 90-120 cm (3-4 ft.) tall ornamental flower stalks of pink and cream in late summer. Tolerant of most soils, it thrives in deep, fertile, moist and well-drained conditions. **Terra Nova Nurseries**

### *Agastache* 'Raspberry Summer' 'Raspberry Summer' hyssop

Large, dark raspberry pink blooms adorn this plant all summer and into fall. Flowers float above attractive, bright green fragrant foliage. Full sun. Easy to grow with good drainage. **Terra Nova Nurseries**

*Agastache* 'Summer Love'  
**'Summer Love' hyssop**

Large purple-pink flowers in dense clusters bloom continuously all summer and into fall. It forms attractive upright mounds of bright green, fragrant foliage. Easy to grow with good drainage. Full sun. **Terra Nova Nurseries**

*Ajuga reptans* 'Toffee Chip'  
**'Toffee Chip' carpet bugleweed**

This small-leaved groundcover is a fun departure from *Ajuga* 'Chocolate Chip'. Mature leaves have creamy gold margins around shades of gray green in the centre. New leaves display brown and khaki shades. Blue flowers bloom from 12.5 cm (5 in.) spikes. Grows 30 cm (12 in.) wide and 5 cm (2 in.) tall in full sun to part shade. **Terra Nova Nurseries**

*Amsonia montana* 'Short Stack'  
**Dwarf bluestar**

Even more dwarf than 'Blue Ice'. Forms a perfect mound of clean, dark green foliage, with medium sky-blue flowers in early spring. Well suited for smaller gardens and the border's edge. Sun to partial shade. Grows 25-30 cm (10-12 in.) tall. **Valleybrook Gardens**

*Aquilegia* 'White Barlow'  
**'White Barlow' double columbine**

Dahlia-like double white flowers. Grows 50-63.5 cm (20-25 in.) tall. **Vanhof & Blokker**

*Asclepias tuberosa* 'Hello Yellow'  
**'Hello Yellow' butterfly milkweed**

Golden-yellow blooms. Drought tolerant. Provides food for monarch butterfly caterpillars and nectar for adults. Grows 37.5-50 cm (15-20 in.) tall. **Vanhof & Blokker**

*Athyrium* 'Ocean's Fury'  
**'Ocean's Fury' painted fern**

Dan Heims named this plant because the habit and colouring reminded him of ocean waves crashing on the shore. This upright and crested fern from Thurman Maness is a wonderful addition to lighten up shady

areas, or in the woodland garden. It prefers fertile, moist soils and full to partial shade. **Terra Nova Nurseries**

*Baptisa* 'Carolina Moonlight'  
**'Carolina Moonlight' false indigo**

Elegant spikes of creamy yellow blooms grace tidy blue green foliage in early summer. Long-blooming and tough, this plant is a dazzling addition to the native plant palette. Drought tolerant. A hybrid of *B. sphaerocarpa* and *B. alba*, found by Rob Gardener of North Carolina Botanical Garden. Grows to 90 cm (3 ft.) tall in full sun to partial shade. Photo courtesy North Creek Nurseries. **Valleybrook**

*Begonia* 'Black Taffeta'  
**'Black Taffeta' begonia**

# perennials

Large, crested obsidian-black leaves up to 20 cm (8 in.) wide have a burgundy red reverse. It was bred with sturdy rhizomatous roots to make it stronger than any rex begonia. Great in the shade garden. Pink flowers. Grows 45-60 cm (18-24 in.) tall and wide. A tender perennial. **Terra Nova Nurseries**

## *Begonia* 'Metallic Mist' 'Metallic Mist' begonia

Heavily silvered maple-like leaves grow to form a striking 45 cm (18 in.) tall specimen. Pink flowers in late summer extend the show. Best in shade. A tender perennial. **Terra Nova Nurseries**

## *Begonia* 'Phoe's Cleo' 'Phoe's Cleo' begonia

Vivid chartreuse leaves sport mahogany-red splashes. This plant thrives in containers and shade gardens. A tender perennial. **Terra Nova Nurseries**

## *Bergenia* 'Solar Flare' 'Solar Flare' variegated bergenia

A new twist on a classic garden perennial, this plant has bold evergreen leaves with a cream edged border which turns brilliant shrimp pink during winter. It's an excellent winter container plant topped with pink flowers in the spring. Colour appears on new growth in spring, fading to green in late summer. Part shade to full sun. **Terra Nova Nurseries**

## *Brunnera macrophylla* 'Mr. Morse' 'Mr. Morse' Siberian bugloss

Frosty, silver foliage with light green veins and edging combine perfectly with creamy white flowers. Grows 25-37.5 cm (10-15 in.) tall. **Vanhof & Blokker**

## *Brunnera macrophylla* 'Spring Yellow' 'Spring Yellow' Siberian bugloss

Unusual yellow foliage with contrasting blue flowers. Grows 25-37.5 cm (10-15 in.) tall. **Vanhof & Blokker**

## *Campanula persicifolia* 'Blue-Eyed Blonde' Golden peachleaf bellflower

Brilliant yellow foliage gives rise to large 2.5 cm (1 in.) bells of deep-blue flowers. Larger and stronger than *C.* 'Kelly's Gold'. **Terra Nova Nurseries**

## *Campanula* 'Summertime Blues' 'Summertime Blues' everblooming campanula

Here's the 'cure' for the summertime blues. It's the longest blooming campanula the staff at Terra Nova Nurseries has seen. Masses of large, silvery blue bells on 60 cm (2 ft.) upright stems – bloom all spring, summer and fall. It has a clumping habit that doesn't spread or re-seed. Full sun. **Terra Nova Nurseries**

## *Cordyline terminalis* 'Chocolate Queen' 'Chocolate Queen' ti plant

Creamy-white variegated foliage maturing to chocolate. Perfect for borders and patio pots. Grows 50-63.5 cm (20-25 in.) tall. A tender perennial that will add a tropical flare to any garden. **Vanhof & Blokker**

## *Coreopsis tripteris* 'Lightning Flash' Tall tickseed

'Lightning Flash' is a new bold tickseed with striking gold foliage that stays gold all summer. It's perfect for the perennial border, reaching over 90 cm (3 ft.). It thrives in heat and humidity. The yellow flowers are a bonus in late summer. Full sun. **Terra Nova Nurseries**

## *Coreopsis* 'Gold Nugget' 'Gold Nugget' tickseed

This amazing bloomer will produce over 200 warm gold flowers on a first year plant, each with a blazing red eye. It blooms continuously for three to four months. Flowers are 3.5 cm (1.5 in.) wide. 'Gold

# perennials

Nugget' has a superb mounding form that thrives in heat and humidity. **Terra Nova Nurseries**

## *Corydalis* 'Chocolate Stars' 'Chocolate Stars' corydalis

A gorgeous low growing woodland plant with chocolate brown foliage in spring, reminiscent of coleus. Small white starry flowers in summer senescing to green as the season progresses. Unlike most other corydalis, 'Chocolate Stars' will tolerate dry shade. A good groundcover choice and an excellent companion to other woodland plants such as hostas, ferns, and primulas. Grows 30 cm (12 in.) tall in partial to full shade. Photo courtesy of Vitro Westland. **Valleybrook Gardens**

## *Delphinium grandiflorum* 'Summer Morning' 'Summer Morning' delphinium

The Summer delphinium series brings the first pink flowering *grandiflorum* to the market with the breeding breakthrough of 'Summer Morning'. Like the pink skies of an early summer sunrise, *Delphinium* 'Summer Morning' paints the landscape with its delicate, light pink flowers over lacy green leaves. 'Summer Morning' is more heat tolerant and better branched than other delphiniums of this type. Early flowering, coupled with a strong, basal branching habit ensures that 'Summer Morning' will provide a multitude of flowers throughout the summer. **Benary**

## *Echinacea purpurea* 'Coconut Lime' 'Coconut Lime' coneflower

The first white double flowering *Echinacea* has a compact habit that sports over 20 blooms per plant. Well branched, sturdy flower stems are perfect for cutting. The plant blooms for two to three months. It thrives in intense heat and humidity. Full sun. Grows 50 cm (20 in.) tall and spreads 60cm (24 in.). **Terra Nova Nurseries**

## *Echinacea* 'Katie Saul' Summer Sky™ coneflower

The warm orange and bright pink combine perfectly to make this a very unusual flower. It has excellent bi-colour appearance. Grows 75-89 cm (30-35 in.) tall. **Vanhof & Blokker**

## *Echinacea* 'Purity' 'Purity' coneflower

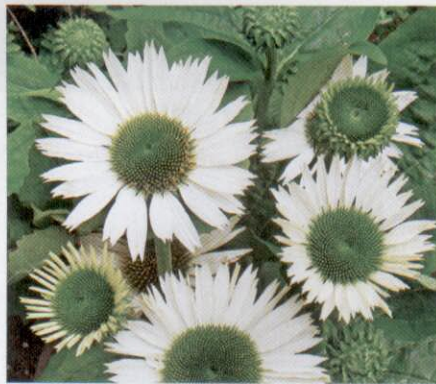

Terra Nova says 'Purity' is the new gold standard for *Echinacea* flower and form with over 25 11.5 cm (4.5 in.) blooms on a one-year-old plant. Remarkably strong, well-branched 45-60 cm (18-24 in.) tall plants produce pristine white flowers of superb quality with bright orange cones. This plant is wonderful for the border or cutting gardens. Blooms all summer and into fall. Full sun. **Terra Nova Nurseries**

## *Echinacea* 'Tiki Torch' 'Tiki Torch' coneflower

The darkest orange coneflower explodes with massive 11.5 cm (4.5 in.) flowers with wide petals. 'Tiki Torch' retains its intense colour for weeks rather than days. The spicy-scented blooms sit atop strong and upright 90 cm (36 in.) stems. Full sun. **Terra Nova Nurseries**

## *Echinacea purpurea* 'Virgin' 'Virgin' coneflower

This variety of coneflower truly has a superior flowering performance. Large, full flowers are pure white with a green cone and a double row of petals. It has a strong upright habit that requires no staking. Enjoy its sweet fragrance from mid-summer to early fall. It prefers full sun to partial shade and will grow to a height of 60 cm (24 in.). This is also a wonderful cut flower, fresh or dried, is deer resistant and attracts butterflies. **Sheridan Nurseries**

# perennials

*Ensete* 'Tandarra Red'

## Tandarra Red ornamental banana

This is a dramatic foliage plant with huge, waxy fronds of reddish-purple tones superimposed over deep green. Use to give an exotic tropical look. A tender perennial. **Terra Nova Nurseries**

*Erysimum* 'Jenny Brook'

## 'Jenny Brook' wallflower

Striking multi-coloured flowers top this tender, shrubby perennial. Purple buds open to peach flowers. It matures through rose and then back to purple, giving a full range of simultaneous colours. It grows 50-60 cm (20-24 in.) tall by 60 cm (24 in.) wide in full sun. This is eye-catching near the front of a border, or in containers. Shear if necessary to enhance plant shape after flowering stops. A tender perennial.

**Blooms of Bressingham NA**

*Eryngium* 'Amazing Jackpot'

## 'Amazing Jackpot' sea holly

Bluish flowers with steel-blue bracts are tightly clustered together. Due to its sterile nature, this plant blooms forever and does not brown. Grows 50-63.5 cm (20-25 in.) tall. **Vanhof & Blokker**

*Eryngium* 'Sunny Jackpot'

## 'Sunny Jackpot' sea holly

Blue flowers sit atop variegated foliage, making this variety very unique. Grows 50-63.5 cm (20-25 in.) tall. **Vanhof & Blokker**

*Geranium* 'Starman'

## 'Starman' perennial geranium

Striking, lilac-pink flowers flame out from the centre with an ever-darker pink. It provides a continuous blooming period from June through September. Grows 37.5-50 cm (15-20 in.) tall. **Vanhof & Blokker**

*Geranium wallichianum*

## 'Sylvia's Surprise' hardy geranium

Vivid pink flowers 2.5-3.8 cm (1 to 1 1/2 in.) with pale centres appear in early summer. It blooms sporadically in hot weather, then resumes late summer until frost. This plant is great for sunny border or rock garden. Dead-heading encourages

more flowering. Grows 30-40 cm (12-16-in.) tall by 65-75 cm (25-30 in.) wide. **Blooms of Bressingham NA**

*Geum* 'Fireball'

## Avens

Profuse, huge, sterile orange-yellow, semi-double flowers continue from spring to fall. The 3.5cm (1.5 in.) blooms are picoteed with a red edge. **Terra Nova Nurseries**

*Hakonechloa macra* 'Stripe It Rich'

## Variegated gold Japanese forest grass

White-striped golden leaves put a new spin on the shade tolerant *Hakonechloa*. 'Stripe It Rich' grows vigorously in full to partial sun. It is spectacular as a woodland accent in containers, along pathways or entrances, and adds an Asian look to the garden. **Terra Nova Nurseries**

# perennials

## *Hedychium* 'Tahitian Flame' **Tahitian Flame** variegated ginger

Make a Hawaiian splash with this boldly variegated hybrid ginger. Highly fragrant apricot flowers emerge in midsummer and continue through fall. The upright habit of Tahitian Flame creates a striking architectural accent for both containers and gardens. A tender perennial. **Terra Nova Nurseries**

## *Helianthemum nummularium* 'Hartwood Ruby' **Hartwood Ruby** rockrose

True red is a precious pigment for the perennial garden palette. Hartwood Ruby provides it on low-growing, easy-care plants. Saucer-shaped, 2.5 cm (1 in.) flowers of velvety true red with bright golden stamens persist from May into July - a month longer than other *Helianthemum* varieties. Shear in very early spring, cutting away dead foliage. Cut back hard every two to three years. Grows 35 cm (14 in.) tall by 55 cm (22 in.) wide first year. The plant thrives in well-drained, neutral to alkaline soil in full sun. **Blooms of Bressingham NA**

## *Helianthus* 'Low Down' **'Low Down'** sunflower

The shortest of all perennial sunflowers, this is a terrific plant for adding a splash of bright colour to the front of a sunny

autumn border. It forms a low mound of narrow green leaves, bearing sprays of bright golden-yellow single daisies with a brown eye in fall. Great in containers too. Height 15 cm (6 in.) in full sun to partial shade. Photo courtesy of Vitro Westland. **Valleybrook Gardens**

## *Helichrysum* 'Pink Sapphire' **'Pink Sapphire'** strawflower

An intriguing novelty tender perennial or annual, provides cute spherical flower buds that form pleasing clusters over silvery, woolly leaves. Buds open to small, stiff papery flowers that persist into summer. Its soft silver foliage begs to be touched. Grows to 15 cm (6 in.) tall by 30 cm (12 in.) wide in full sun. Unlike most garden plants, flowers are more interesting in the bud stage. **Blooms of Bressingham NA**

## *Helleborus* Splashdown strain **Splashdown** centre rose

This is one in a new series of Hellebores by world-renowned hybridizer Marietta O'Byrne. Splashdown features bold strokes of burgundy, red and purple painted on white to ivory backgrounds. Best in full sun to part shade. Grows 30 cm (12 in.) tall and spreads 60 cm (24 in.). **Terra Nova Nurseries**

## *Hemerocallis* 'Hush Little Baby' **'Hush Little Baby'** daylily

A heavily ruffled daylily, the romantic rose, pink flowers display a narrow, lighter pink eye and mid-ribs, along with a glowing yellow-green throat. The flowers have a strikingly perfect form. It has a very long bloom time. Performs best in full sun and grows to 55 cm (22 in.). **Sheridan Nurseries**

## *Hemerocallis* 'Spacecoast Scrambled' **'Spacecoast Scrambled'** daylily

This plant produces 15 cm (6 in.) creamy flowers with a solid golden edge from early to mid-season. It's a semi-evergreen, tetraploid re-bloomer. Grows 50-65 cm (20-25 in.) tall. **Vanhof & Blokker**

## *Heuchera* Dolce® Blackcurrant **Dolce® Blackcurrant** coral bells

Dolce® Blackcurrant rounds out Proven Winners line of *Heucheras*. It boasts a two-toned leaf of bold purple and sterling silver accents that make a dramatic statement in beds or in containers. Vigorous and cold-hardy, colour deepens as the weather cools. It does best in full to partial shade and reaches a height of 30-40 cm (12-16 in.). **Proven Winners**

## *Heuchera* 'Georgia Peach' **'Georgia Peach'** coral bells

This is a first in Terra Nova's new Southern Bell series of *villosa* hybrids that were bred for heat and humidity tolerance. In spring,

it produces 20 cm (8 in.) peach coloured leaves with a showy silver overlay that creates a large, lush plant. The foliage colour intensifies to rose purple with a decorative frosted veil in fall and winter. Best in full to partial shade. Grows 35 cm (14 in.) tall and spreads 60 cm (24 in.).  
**Terra Nova Nurseries**

## *Heuchera* 'Mahogany' 'Mahogany' coral bells

The ruffled, mahogany red leaves look like shiny rich leather with dense, shiny colour year-round. The foliage changes from spring purple tones to summer red tones. It's fabulous in combination containers. Best in sun to partial shade. Grows 20 cm (8 in.) tall and 40 cm (16 in.) wide.  
**Terra Nova Nurseries**

## *Heucherella* 'Alabama Sunrise' 'Alabama Sunrise' foamy bells

A spectacular variety that changes colour with the seasons. In the late summer, the leaves turn green with red veins. In the fall, the older foliage turns orange/pink.

It produces small white flowers in the summer. Prefers full sun to partial shade and will grow to 30 cm (12 in.) and spreads the same distance.  
**Sheridan Nurseries**

## *Hosta* 'June Fever' 'June Fever' hosta

A nearly all-gold form of 'June' with very narrow blue-green margins and glossy golden foliage. Superb spring colour. Good substance and slug resistance. An extremely hardy hosta. Grows 40-60 cm (16-24 in.) high and wide in shade or partial shade. Photos courtesy of Vitro Westland.  
**Valleybrook Gardens**

## *Iris* 'Enchanted One' Tall bearded Iris

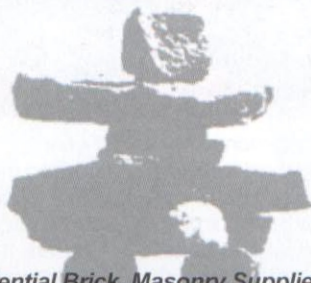

No garden would be complete without the tall bearded iris. It is a wonderful accent plant for the late spring garden. Sunny yellow standards stand tall above the amber rimmed falls with lavender centres. These sweetly fragrant blooms grow to 90 cm (36 in.) and bloom from late spring to early summer. In the late summer there is a dependable re-bloom that makes this variety a must-have for the garden. Plant in full sun to partial shade.  
**Sheridan Nurseries**

## *Lavandula angustifolia* 'Vicenza Blue' 'Vicenza Blue' lavender

Fragrant and free flowering, 'Vicenza' lavender evokes the scents and appeal of a Mediterranean summer. Native to the Mediterranean region, 'Vicenza' is heat and drought tolerant. Flowering the first year from seed without vernalization,

**Call us or visit our website: [www.grandriverstone.com](http://www.grandriverstone.com)**

# perennials

'Vicenza' is a summer-long performer. An attractive addition to fragrant gardens and patio pots, it adds a pleasing scent to a sunny setting. Large, lavender blue flower spikes form an abundant crown of flowers over fragrant, gray-green foliage. **Benary**

## *Lilium* 'Fata Morgana' 'Fata Morgana' Asiatic double lily

Soft lemon-yellow flowers in June and July. 120 cm (48 in.) tall. **Vanhof & Blokker**

## *Lilium* 'Centerfold' 'Centerfold' Asiatic lily

White petals with maroon stripes and spots in June and July. Grows 60-90 cm (24-36 in.) tall. **Vanhof & Blokker**

## *Musa* 'Hi Color Mini' 'Hi Color Mini' banana

A dwarf version of the increasingly popular banana tree, only reaching 76-106 cm (2.5 to 3.5 ft.) in height, but produces enormous exotic green foliage with large burgundy blotches. Excellent dessert-quality fruit. It's a tender perennial that

does best in full sun to partial shade. Photo courtesy Agri-starts Inc. **Valleybrook Gardens**

## *Musa sumatrana* 'Zebrina' 'Zebrina' ornamental banana

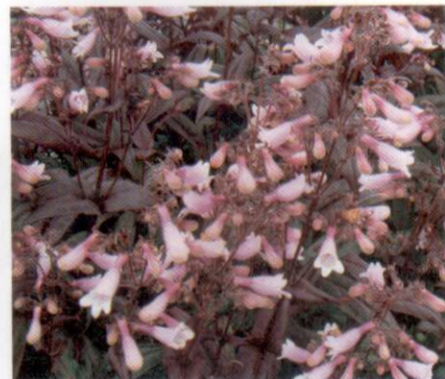

Grown for its attractive foliage only, the fruit is seeded and inedible. The slender plant grows 150-210 cm (5-7 ft.) tall and is wind and cold resistant. It is well adapted to container growing, however, when grown this way will only reach 90-150 cm (3-5 ft.) unless grown in a very large container. The stem is completely red. The leaves are narrow with green and red mottling on the top and solid maroon colouring on the bottom. A tender perennial, it does best in full sun-part shade. Photo courtesy of Agri-starts Inc. **Valleybrook Gardens**

## *Penstemon barbatus* Pinacolada series Pinacolada penstemon series

This penstemon series is first-year flowering, and is uniformly early and free flowering across all colours. Pinacolada has great branching ability as well, for more colour and better shelf appeal. It's an excellent impulse item for early summer sales. Available in Deep Rose, Red and Violet. Blooms in May and June, it's best in full sun. Photo courtesy S&G Flowers. **Valleybrook Gardens**

## *Penstemon* 'Dark Towers' 'Dark Towers' penstemon

Glossy bronze-red foliage is topped with masses of pink flowers in July and August. A tough and carefree plant, it tolerates high heat and humidity. It's a perfect dark background plant for the border. Full sun. Grows 83 cm (33 in.) tall and spreads to 75 cm (30 in.) **Terra Nova Nurseries**

## *Paeonia Hybrid* 'Singing In The Rain' 'Singing In The Rain' Itoh peony

Itoh peonies are rare and unusual hybrids, between garden peonies and tree peonies. Highly sought by collectors, they are easy to grow and very hardy. This selection forms an upright bush of lush green leaves. The very large semi-double blooms have creamy yellow petals, flushed with peachy salmon as they age. They have good long stems excellent for cutting. Bred by Don Smith. Full sun. 90-120 cm (36-48 in.) height/spread. More correctly referred to as Intersectional Peony - Itoh Group. Photo courtesy Plantek Biotechnologies **Valleybrook Gardens**

## *Philodendron* 'Pink Princess' 'Pink Princess' philodendron

This is an unusual black leaf philodendron with hot pink variegation. Good light is needed for the maximum variegation/pink shades. This tender perennial requires no

# perennials

special care except moderate light and home conditions. **Terra Nova Nurseries**

## *Rudbeckia fulgida* 'City Garden' 'City Garden' coneflower

Flowers and blooming habit are similar to *R. 'Goldsturm'*, but 'City Garden' is significantly shorter. Grows 37.5-50 cm (15-20 in.) tall. **Vanhof & Blokker**

## *Rudbeckia submentosa* 'Henry Eilers' 'Henry Eilers' quilled coneflower

Charming blooms of unusual gold-quilled petals are highlighted by chocolate brown button centres. Good for cut flowers. A narrow upright growth habit makes this a great specimen for the back of the border. Full sun. Grows 120 cm (48 in.) tall and spreads 60 cm (24 in.) wide. **Terra Nova Nurseries**

## *Scabiosa* 'Vivid Violet' 'Vivid Violet' pincushion flower

Large vivid violet pincushion flowers are atop low mounds of frilly foliage. It has very heavy flowering and will bloom continuously from late spring to frost. This is a vigorous grower. Full sun. 28.5 cm (11 in.) tall and 45 cm (18 in.) wide. **Terra Nova Nurseries**

## *Sedum* 'Picolette' 'Picolette' sedum

Pinkish flowers combine with darker foliage for a dramatic look. Compact growing habit creates excellent container plants. Grows 37.5-50 cm (15-20 in.) tall. **Vanhof & Blokker**

## *Thalictrum delavayi* 'Splendide' 'Splendide' meadow rue

These unusual single pinkish-red flowers produce huge sprays of terminal umbels above the somewhat glaucous and lobed foliage. Full sun, grows 100-125 cm (40-50 in.) tall. **Vanhof & Blokker**

## *Bidens Mexican Gold*<sup>™</sup> Mexican Gold<sup>™</sup> bidens

With large, eight-petal golden-yellow flowers, Mexican Gold<sup>™</sup> Bidens features a dense, mounding/semi-trailing habit. It is a fantastic complementary plant for combination planters and mixed baskets. Grows 35-45 cm (14-18 in.) tall and wide. **Fischer USA**

## *Bracteantha StrawBurst*<sup>™</sup> 'Yellow' StrawBurst<sup>™</sup> 'Yellow' strawflower

StrawBurst<sup>™</sup> has outstanding flower colour and a well-branched habit that makes it stand out on the bench. With excellent heat tolerance and frost hardiness, this cultivar will perform all season long. StrawBurst<sup>™</sup> 'Yellow' has the largest flowers in its class. Grows 30-40 cm (12-14 in.) tall and wide. **Fischer USA**

## *Calibrachoa Aloha series* Aloha calibrachoa

The Aloha calibrachoa series was bred for use in combination planters. Semi-upright plants are covered with large flowers in bold tropical colours. Flowers with the Tiki designation display a dark red centre. New this year are Red Fox<sup>™</sup> Aloha Ticki Salmon, Gold, Pink, Strawberry and Orange. **Dummen**

## *Calibrachoa Callie*<sup>®</sup> 'White with Rose Vein' Callie<sup>®</sup> 'White with Rose Vein' calibrachoa

Callie<sup>®</sup> calibrachoa is a top selling series with many exciting colours. The new

Callie<sup>®</sup> 'White with Rose Vein' has a unique bloom with large white flowers, accented by a dark rose eye and veins. It is a very eye-catching cultivar. With pH tolerance, it is also a grower-friendly choice. Grows 10-20 cm (4-8 in.) tall and 30-40 cm (12-16 in.) wide. **Fischer USA**

## *Calibrachoa Spring Fling*<sup>™</sup> 'Pure Yellow' Spring Fling<sup>™</sup> 'Pure Yellow' calibrachoa

The new Spring Fling<sup>™</sup> 'Pure Yellow' offers growers a pure, super bright, yellow colour that will stand out in any combination or basket. 'Pure Yellow' also exhibits a nicely mounding habit. **Bodger Botanicals**

## *Catharanthus roseus Cora*<sup>™</sup> series Cora<sup>™</sup> annual vinca

A new series of annual vinca from Goldsmith has large show flowers – 5 cm (2 in.) and larger. Contains a patented gene for aerial *Phytophthora* resistance and has been field tested and proven resistant to disease pressure in hot climates. Grows 35-40 cm (14-16 in.) tall and spreads 55-62 cm (22-25 in.) Available in burgundy, lavender, deep lavender, apricot, white, violet and mixture. Goldsmith says the burgundy is the deepest of its class. **Goldsmith**
