SPRING TRIALS

12 Trendspotting at Spring Trials

Check out some of the highlights from this year's California Spring Trials.

By Jasmina Dolce

WATER MANAGEMENT

22 Making Sense of Greenhouse Irrigation

Sensor-controlled irrigation can reduce plant losses; lower fungicide, fertilizer and watering costs; and decrease a grower's environmental impact.

By David Kuack

GROWER 101

30 How to Implement an Integrated Crop Management Strategy for Pest Prevention

New advancements have made it easier than ever to develop a pest prevention program for aphids, leafminers and mites.

By Marla Faver

PRODUCTION

36 Preventative Maintenance for Greenhouse Equipment

Follow these guidelines to ensure efficient and cost-effective production.

By Paul Whiting

2013 OFA SHORT COURSE

38 PRODUCT PREVIEW

With the 2013 OFA Short Course quickly approaching, GPN has compiled a sneak peek into some of the new and exciting products that will be on display on the show floor.

CULTURE CONNECTION

44 Perennial Solutions: Kniphofia uvaria Echo Series

This new series offers cultivars with the heaviest and longest lasting flowering ever introduced.

By Paul Pilon

48 Crop Culture Report: Lavender 'Sweet Romance'

New for spring 2014, 'Sweet Romance' requires little to no vernalization and brings fragrance and easy production to another traditionally perennial crop.

By Rick Schoellhorn

53 New Varieties

Lantana, dianthus, sedum, portulaca

54 Variety Spotlight

Petunia, bacopa, campanula

ON THE COVER

Bicolored petunias were a big hit at this year's California Spring Trials. 'Cha Ching Cherry' is a stunning variety boasting deep cherry-red flowers with a light yellow star. To learn more about Spring Trials highlights, turn to Page 12. (Photo: Ball FloraPlant)

lantana

'Luscious Berry Blend' features puffs of small pink and yellow bicolored flowers on top of dark foliage. It is heat and drought tolerant. Great in both containers and landscapes, this variety will grow 24 to 36 inches tall.

dianthus

Extra early flowering, 'Chiba Cherry Picotee' has a compact, basal branching habit. Flowers are 1¼ inches in diameter. The short and strong flower stems show clusters of well-rounded flowers. Chiba varieties require less growth regulators and are heat, rain and cold resistant.

sedum

Sedum 'Marina' features oblong blue-grey leaves that tint purple in the summer and produces rose-pink flowers in late summer. This plant has a low-spreading mound with vigorously forming crowns, making it perfect for containers.

portulaca

'Happy Trails Deep Red' boasts intense red blooms and fantastic spreading in the garden. Happy Trails varieties have a short photoperiod — 10 hours — which means sowing up to two weeks earlier than other trailing portulaca.
