| pH: 5.5 - 6.5 | Fertilization Recommendations: 100 - 150 PPM | EC: 1.5 - 2.0 |

Light Levels: Full sun

Water Requirements: Dry moderately between waterings

Hardiness Zones: 5 - 10

Possible Problems: Insect: Spider mites and white fly are possible

Diseases: None seen. Naturally resistant to downy mildew.

Habit: Upright, clumping

Day Length for Flowering: Long day

Description

Amazingly huge, dense inflorescences of deep burgundy rose that bloom from spring through fall. Showy, dark foliage in cool temperatures extend the beauty. 'Morello' has a strongly upright habit that forms multiple crowns quickly. Good mildew tolerance. Loved by bees and hummingbirds.

Do NOT bury the crown of the plug
