

Growing Recipe

ATHYRIUM 'ENCOURAGE'

Approximate Finish Time From Liner

☐ = Minimum ☐ = Maximum

pH: 5.5 - 6.5

Fertilization Recommendations: 50 - 75 PPM

EC: 0.5 - 0.7

Light Levels: Shade to part shade

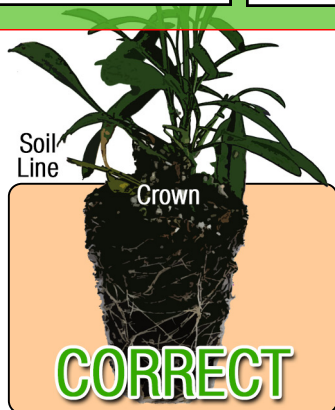

Water Requirements: Keep evenly moist. Drought can force plants into dormancy. Like humidity.

Hardiness Zones: 4 - 9

Possible Problems: Insect: Slugs might sample it
Diseases: Crown and root rot with poor drainage

Habit: Clumping

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

This is a very elegant selection of the Victorian fern. It is apple green-colored, crested and tasseled. Wonderful vigor. Great for shady, damp areas and woodland gardens. Prefers moist, fertile, humus rich soil. Deciduous.
