

CURRICULUM VITAE/ DAN HEIMS

Brief Bio:

For 33 years, Dan Heims has been deeply involved in all facets of horticulture. He is currently the president of Terra Nova Nurseries, Inc., a company noted for its new introductions to horticulture. Dan's articles and photography have been featured in a number of magazines. He has taught horticulture courses, wholesaled exotic plants, and run his own design and build landscape business. He has hosted a weekly gardening show on radio (KKSJ) and has appeared on U.S. (HGTV) and British television (BBC). Dan's garden and work has been featured in USA Today, Forbes, Better Homes and Gardens, Sunset Magazine, and Organic Gardening.

His job description dictates that he must "travel the world and seek the newest perennials". Terra Nova's breeding programs have produced many international gold and silver medal winners and an astounding 600 new plants to horticulture. Dan uses his unique blend of knowledge and humor as he speaks around the United States, in Japan, England, New Zealand, Costa Rica, Germany, Holland, Denmark, Sweden, Switzerland, Tasmania, Australia, and Canada.

Dan has written a book of horticultural humor called The Garden Clerk's Dictionary (www.hortmedia.com) and Heucheras and Heucherellas with Grahame Ware of British Columbia, now out by Timber Press (www.timberpress.com).

Education: B.S. University of Oregon (Communications, Botany, Psychology)

Current Lectures: All PowerPoint except SEMINAR

(New Lecture) "Garden Gems"

Dan has been exposed to more plants, in more places "than your average bear". This talk is a fun compilation of some of the newest, most exciting perennials, tropicals, and woodies seen today. Dan pulls together these plants from world-wide trips, botanical gardens, plant shows, and nurseries. Satisfy the nerd within!

(New lecture) "Right Plant- Right Place" Plant Solutions for Problem Areas

Individual gardens can have deserts, swamps, and shady refuges. This is a talk on how to make good choices for problem spaces. Drawing from his life experience with thousands of plants, Dan not only presents plants as problem solvers, but offers good advice on how to keep them thriving.

(New lecture) "How Dry I Am" – Dryscaping for the Consumer

As water sources dwindle in many areas, changes need to be made in plant selection, and watering techniques. Global warming has placed hose bans in some areas, stopped lawn watering, and has definitely impacted sales. Most of Dan's talk will be on plants for "water wise" landscaping as well as touching on water storage and distribution. His handout will list resources (books and websites) for the consumer to help them deal with this "side-effect" of Global warming.

(New lecture) "Container Crazy (and plants for Small-Space Gardens)": Dan's trips around the world have exposed him to an amazing array of wild containers planted with the most unusual plants. Dan will cover these as well as a wide assortment of unusual plant materials that give new life to containers. Tips on how design containers and small garden spaces as well as helpful information on maintaining soil fertility and plant health are provided.

(New lecture) "Creating Color (or How Terra Nova Turns Ordinary Plants into Superstars)

Nature deals a reasonable hand. It is human intervention that shuffles the deck and redeals the gifts of nature then combines them in such a way that they become a spectacular creation. Terra Nova has been at the forefront of the "Wow" in horticulture. Join Dan Heims in his journey . . .

(New lecture) "Perennials for Containers": Many perennials not only adapt well to containers, they truly *shine!* Come explore an array of awesome, colorful perennials and learn how to care for them. Tips on maintaining fertility and winterizing pots will be discussed. Walk away with some great "recipes" to use in your own garden or Garden Center.

(Updated) "New Perennials from Around the World": How new plants are found. Join Dan on a whirlwind tour of ten horticultural countries (Japan, China, Germany, Tasmania, Australia, US, Holland, England, Ireland & New Zealand) Meet the shakers and movers in each country, and the plants they love. Focus will be primarily on hardy perennials but exceptional "temperennials" will also be shown. Tips will be given on how to get plants into the US legally. (Our most popular presentation.)

(New lecture) "Bonkers for Begonias": Dan presents an entirely new program covering the varieties and uses of this fascinating (and huge) family. Rare species will be shown and discussed; from 2" tall yellow blooming terrarium plants from

Africa to 7' tall giants from Brazil. Care, culture, and propagation will be revealed. A new element has been added to Dan's talk – that of Hardy Begonias! You'll be amazed to see what might grow in your home garden!

(New lecture) “These are a few of my favorite things”: Come see Dan's world, a world of fascinating plants, both temperate and tropical. See the breeding operation that puts out the coolest plants. Visit a few stops around the world where plant collectors thrive and meet a few of the world's best plantsmen. (PP) First presented at Heronswood's “Horthead's Holiday.”

(New lecture) “Crazy about Coral Bells! ” (and their Allies): A brief history of this group of plants (The Saxifragaceae) is followed by slides of native populations and the breeding programs that have transformed this quiet woodland group to some of the most sought-after perennials today. Learn from the man who “wrote the book!”

“Shade Gardening with New Perennials” - Methods of dealing with different types of shade are discussed as well as solving the problems of root and light competition. Gorgeous plant combinations are shown with an overview of new perennials and old favorites.

(Updated) “Flash and Splash- building the Color Story” - One of the most comprehensive slide presentations of variegated and colored-leaved plants in the world, including surprises from New Zealand, Japan, and Europe. Topics include: how variegated plants are discovered, chimera vs. virus, and classification of variegation. Use of the color in design is shown, featuring color echoes, repetition, contrast, and harmony.

“To market, to market- to launch a new plant” - The process of selection, “sport fishing”, trials and the intricacies of market, patenting, and trade marking. Our current trials of perennials are featured as are many of our introductions, several patented. The basics of media launches in print and via the internet are explored.

“Asian Fascination”: a program covering the marvels of Japan, how to collect plants and bring them home (legally!), and an overview of Japanese nurseries and wacky collectors. Slides will be presented of incredible Japanese plants in cultivation and in the wild..

“Plant Marketing Around the World” – Dan has visited 21 countries taking a keen interest in how plants are promoted, presented and sold. See the best of the best and the worst of the worst in our field will be seen. Dan will also discuss his unique perspective on marketing and how his attendees can better “put themselves and their products forward”.

“Everything you wanted to know about how to create a catalog” (SEMINAR) – Terra Nova produces one of the finest color catalogs in the US. (Boy, are we modest!) Learn how to “pull out” of the humdrum, text-only format and spice up what represents YOU and your nursery. We will touch on computers, software, digital cameras, film cameras, and how they all come together. Real examples of catalogues from “Napkin Sketch” to the final negative will be shared by all. Bring an example of a catalog that “stands out” for group discussion. Seminar format 1.5 hrs. Limited group size. (PP) +OH projector.

“Everything you wanted to know about how to create a catalog in 60 minutes or less” (Lecture) – Learn the fascinating creative process of how to put your plants to paper. We will touch on computers, software, digital cameras, film cameras, and the process of how they all come together. Real examples of catalogues from “Napkin Sketch” to the shipped catalog will be shared by all. (PP) +OH projector.

“Four Fabulous Genera” - A brief history of *Pulmonaria*, *Tiarella*, *Heuchera*, and *Heucherella* is followed by slides of native populations and the breeding programs that have transformed these quiet woodlanders into some of the most sought-after perennials today.

Recommendations of Dan's talks:

“Dan, Your presentation last Friday was great! You have a unique ability to give a presentation full of useful information and yet make it entertaining at the same time.

- Mike Darcy – Host of “In the Garden” re: Plant Nerd Night 3/09

Self- confessed “Hortiholic” Dan Heims recently spoke at the University of Illinois Extension's annual Master Gardener conference. It is clearly evident that Dan's knowledge of plant material is outstanding but more important is his passion for sharing that expertise. Dan taught the basics of shade gardening to our Master Gardeners and then delved into the specifics on genera such as *Heuchera* and *Heucherella*, stressing new plant introductions as well as old favorites. The attendees

specifically loved his beautiful slides. Dan's humor and easy-going yet informative style made him one of our most popular speakers. Dan was a great addition to our conference and we hope to have him back in future years.

- Monica David - Director Illinois Master Gardeners 9/08

"I wanted you to know how grateful we are to you for your wonderful program! You were the perfect addition to an educational, explorational type of agenda. ... Thank you, thank you, thank you! "

- Cheryl Lenart – SW Director – American Begonia Society National Convention 5/08

"On behalf of the Michigan Green Industry Association, I would like to sincerely thank you for speaking at MGIA's trade show and Convention. ...the trade show and attendance at the educational programs exceeded our expectations. Your contribution as an outstanding speaker is a direct reflection on the success of this year's conference!"

- Karla J. Trosen – MGIA Director of Education and membership 3/08

"Thanks for speaking at the 79th Annual OSU Short Course and making it an overwhelming success...Thank you for your part in delivering a quality educational program to our industry...we hope you will consider returning as a speaker in years to come."

- Hannah Mathers Ph.D./Pam Bennett OSU Nursery Course Co-chair 2/08

"On behalf of the CanWest Committee, I would like to thank you for being part of the CanWest seminar program. And, as results indicate – you were a HIT!"

- Karen DeJong CanWest Nursery Show/BCNLA Marketing Director 1/08

"All of us at the CGGA and CNLA are so grateful for your personal and professional effort and time speaking at our meeting. Many compliments were heard about your presentation. . We salute you for all the energy and effort you put into making your talk so informative. It says volumes about your good personal character that you would want to share your personal knowledge to help improve the businesses of your colleagues. THANK YOU!"

- Robert V. Heffernan - Executive Director- CT Nursery and Landscape Association 1/07

"On behalf of the Perennial Plant Association and the Master Gardeners of Ohio, I want to thank you for providing a most educational and entertaining lecture. The day was very special and our attendees were most pleased with your program! Your books sold well and I appreciate the notes you wrote for each of our kids."

- Steven M. Still – Executive Director of the Perennial Plant Association 1/07

"Huge thanks for sharing the insights you've gathered around the globe . . .A rare treat to see the new and exciting.... "

- Anne Van Nest – Garden Writers of America Convention 10/07

"Dan , Thank you so much for helping to make the 2006 Perennial Conference the success it was! "

- Kathy Wooton - Grower Talks 9/06

"Like the perfect blend of ingredients that make up a delicious meal, your contribution to the 2006 Farwest Show made it a success. Thank you for your time, enthusiasm, and experience!"

- Aimee McAuliffe – Farwest Nursery Show Education Director 8/06

"Thank you so much for your participation in this year's SNA conference in Mobile. Speakers such as you made this an "Over the Top" conference. It was a great presentation and received many good comments from our guests. We appreciate bring a bit of the West coast to the South! I hope to see you again at one of the nursery events!"

- Marion Drummond – Executive Director of the Mobile Botanical Gardens 9/07

"Thanks for being part of the INLA convention. You are as knowledgeable and entertaining as your reputation suggests! I have gotten many chuckles from your book as well!"

- Chuck Porto -Iowa Nursery and Landscape Assn. 3/06

"Thank you very much for speaking at our "Garden Party." The images were great and your love and knowledge of plants came through!" - Kate Royston – Temple speaker organizer 5/07

-Please feel free to contact any organization in the CV for further recommendations.

Proposed Programs: 1- 2 hours

Air, room, and meals, transfers from airport + Lecture fee of \$1500 <Negotiable> (local appearances are less)

Additional talks, \$300

CV 2009-1974

2009

Awarded “Hybrid of Distinction” by American Begonia Society for Begonia ‘Silver Splendor’
“Hardy Begonias” article (12 pg.) published in American Begonia Society Bulletin
“Get Your Piece of the Container Market” written by Dan and published in Garden Center Magazine
Dan presents to the Circle at Meredith Publishing in Des Moines
Dan’s article in Garden Center Magazine is published (Container Market)
Dan speaks to the Garden Clubs of America in Des Moines, IA
Dan presents “California Dreamin’ ” talk to the American Begonia Society Convention in West Palm Beach, FL.
Dan presents new plants from Terra Nova with Chuck Pavlich at the 2009 Perennial Plant Association Convention.
Article on Dan and Terra Nova in Forbes Magazine (May 25th Issue)
Nerd Night Presentation
Article on “Flash and Splash” published in Michigan Green Industry Magazine
Photos and promotion in Birds and Blooms Magazine
Dan is featured in Garden Design Magazine Mar/Apr issue “Stylish Science”
Spoke in Grand Rapids, MI - Michigan Nursery and Landscape Association
Spoke to the Master Gardener’s Association (Summit County)
Spoke 2/27/09 to the Yard Garden and Patio Show in Portland.
Feb. 2009 Nursery Management and Production Magazine 2 page article: Dan Heims/Hardy Perennial Breeder

2008

Statesman Journal – cover and 4 pages on Dan and Terra Nova
Speaking engagements in Vancouver BC
Spoke to the Wisconsin Hardy Plant Society “New Perennials”
Spoke at My Garden Nursery “Heucheras and their Allies”
3 Radio interviews
TV appearance with Arlena (HGTV)
Trip to Houston and Dallas, TX for plant finding
3 talks at Ohio Short Course on “Container Gardening” and “Perennials for Containers”
Spoke to Michigan Green Industry
Spoke to ProGreen Nursery Show in Denver, CO on “Marketing New Plants”
Spoke in Beaulieu, England for Aline-Fairweather’s Nursery on Heuchera
10% of the 50 Way Hot Plants from Garden Design Magazine were Terra Nova’s – Go Team!
Begonia ‘Metallic Mist’ wins “Best Commercial Introduction” by the American Begonia Society at their convention
Spoke on “Hardy Begonias” to the American Begonia Society in Texas

2007

Dan is featured in *Oregon Business* magazine in a 2 page article, “The Passionate Propagator” on the success of Terra Nova Nurseries
Spoke on Container Gardening with Perennials and Tropicals at the Mid Am Show in Chicago
Spoke on new plants at Brooklyn Botanic Garden
Spoke to CT Nursery and Landscape Association
Talks given in Saitama, Japan, at St. Louis Botanical Garden, for Michigan Master Gardeners, and to Aldridge Botanical Garden, Portland Nursery, Fritz Garden Design, SNA Southern Plant Conference, Mobile, AL, Garden Writer’s Conference in OKC, and Vancouver Hardy Plant Society.
Collecting trips to Japan and England completed.
Dan’s Garden makes front cover and story in The Oregonian Homes and Gardens section.
3 TV Shoots for Garden Time KPTV FOX 12
Spoke at Linden Hill in PA
Presented New Plants at the Perennial Plant Association Meeting
Begonia ‘Metallic Mist’ wins ‘Best New Plant’ award at the Farwest Nursery Show.

2006

Featured Speaker at Ball Flora’s Perennial Production Conference
Speaker at IPPS Eastern Region Conference
Winner of Best Plant in Show for x Heucherella ‘Stoplight’ at the Four Oaks Trade Show in England

Spoke at Farwest Nursery Show- Catalog Creation
Iowa Nurserymen talk.
Indiana Nursery and Landscape Association Talk.
New England Grows.
USA Today (Living Section) 4/28 3 page article by Craig Wilson on Dan and his work with Terra Nova. Highlight on Terra Nova's Plants. http://www.usatoday.com/life/lifestyle/2006-04-27-perennial-at-home_x.htm
Collecting trip to Northern and Southern California
2006 California Pack trials
Collecting trip to Southern Florida/ Tropical Plant International Exhibition
Spoke to Indiana Nursery and Landscape Association
Spoke to Gardens on the Prairie as guest lecturer
Spoke at Yard, Garden, and Patio Show in Oregon
Talked at LANTA, Grower Talks Perennial Symposium. Alberta, CAN
Trip to Boston/ North Shore/ CT White Flower Farm
Washington State Collecting Trip
Spoke at Perennial Plant Association on "The Value of New Plants"
Presented 9 New Varieties at Perennial Plant Symposium in Montreal
Toured botanical sites in Montreal and Quebec City (Quatre Vents)
Oregonian coverage on New Plant introductions
2 Feature articles in the OAN Digger covered our plants
2 Sedums selected for Award of Garden Merit at the Royal Horticultural Societies Trials at Wisley
(3 total were selected in a field of 102 cultivars!)
Visit to Barrera Marin Botanical Garden in Yucatán Peninsula in Mexico

2005

Horticultural investigatory trip to China
Mid-Am Trade Show
New England Grows
University of Connecticut Perennial Program
Collecting trip to UK. Stops at Malvern, Wisley, Rosemoor, and of course, Chelsea.
Meetings with English nursery heads for improved distribution in the UK.
Hortheads Holiday (Heronswood)
Pt. Defiance Zoo, Tacoma WA
Molbak's Presentation
Portland Farmer's Market – Spring kick-off
Nerd Night in Lake Oswego
PPA Presentation in TN on "Tiarella"
Farwest Show
Master Gardeners regional keynote speaker.
TV Shoots with Mike Darcy and Anne Jaeger
Collecting and viewing trip to RHS Gardens, Chelsea, Malvern in the UK
Release of 2 new books! Heucheras and Heucherellas by Timber Press and The Garden Clerk's Dictionary by Hortmedia
Production of the world's first catalog/DVD with movies and everything!

2004

Mid-Am Trade Show
Keynote speaker at Michigan Landscape and Nurserymen Show
Attended the IPM trade show at Messe in Essen, Germany to establish new trade contacts.
Traveled through France, Germany, Luxemburg, Belgium and England in search of the early perennials.
Spoke to the Hardy Plant Society of Dortmund, Germany and to the group "Perenne" in Lauffen, Germany- the home of the nursery of Countess Von Zeppelin.
Participant in the International Stauden Union Congress in Baden, Austria with preceding trips to Czech Republic (Prague and Brno) visiting Botanical Gardens and Nurseries, and Berlin and Dresden in Germany. 2 trips to the Alps.
Awarded AGM by the Royal Horticultural Society for Echinacea 'Ruby Giant'
Presentation to Ball Seed in West Chicago, Illinois.
Portland Home and Garden Show, Northwest Horticultural Society, University of Idaho, Pennsylvania Allied Nursery Trades Show, PPA in NYC, New England Greenhouse Conference, Indiana Hosta Society, Indianapolis Museum of Art.
TV Shoot with Mike Darcy. Far West Show presentations on Plants and Marketing.

2003

Costa Rica Trip w/Ken visiting Florexpo, Tropica, and of course the rainforest

Speaker at the Southern Plant Conference, visiting many SE Nurseries
Dan botanizes the Columbia Gorge with Christopher Lloyd and Fergus Garrett - with “gorge-master” Maurice Horn.
Tricyrtis Article by Dan printed in Pacific Horticulture
Winner of 2 Awards in France for two Terra Nova Plants
TV Shoot and tours with Peter Gaunitz, commentator for Sveriges Television (Swedish TV)
Full page in The English Garden on TN Plants by Noel Kingsbury
UK Magazine article on Corydalis by Dan in Dirk Vander Werff's PLANTS
HGTV *Gardening by the Yard: Heuchera* shot at Terra Nova w/ Dan
Dan is quoted in the Wall St. Journal, The New York Times, and the Chicago Tribune on new plants.
Photography and article on *Corydalis* (including cover) for American Nurseryman
Numerous articles on TN plants have appeared in magazines this year including Garden Design.
TV shoots by 3 Portland TV Stations at the Nursery (6 shows)
Presented at the Oklahoma Garden Festival and Yard Garden and Patio Show in Oregon.
Spoke on KTOK 1000 from the Festival Floor
Presented new plants to the OAN Retail Chapter.
Met with grower/collectors in PA, NJ, and NY
WHPA The Jane Pepper Gardening Hour interview w/Dan
Met w/ ABC's garden person, Rebecca Cole at her studio in NYC
OAN Retail Chapter Feb 13th
Hardy Plant Society of Oregon March 9
Mid-Atlantic Hardy Plant Society @ Swarthmore April 8th
Frelinghuysen Arboretum NJ April 10th- Keynote speaker
The Civic Garden Centre – Toronto April 23rd
CABC AM740 Toronto, The Art Drysdale Show interview w/Dan
OAN Greenhouse Grower's Chapter April 29th At the Oregon Garden
Coming Up:
Perennial Plant Association- Jul 29th
Yew Dell Speaking Engagement (KY) September 5th

2002

Collecting and presentations in Southern California, meetings with local breeders, cut flower growers, and nurseries. Spoke at Yard, Garden and Patio Show in Portland, Oregon in February. Spoke at Home and Garden Show. Spoke at “Plant Nerd Night” sponsored by KXL-950, we are settled into our “dream” stock house, 90'x140'. Laying out of several acres of trial beds and display gardens. Booked for talks in Alaska, Seattle, California, and Switzerland at the University of applied sciences in Wädenswil, Switzerland, at an international conference on urban horticulture (2nd to 6th of September 02, www.urbanhorticulture.ch "The Reinvention of 2 Genera – Heuchera and Pulmonaria". Trip to Floriade and ISU congress with visits to nurseries in Belgium. Met with numerous nurseries in Holland. Presentation of 3 new plants at PPA and ISU in Holland.. Multiple TV appearances on Local TV and BBC (with a tie-in to the RHS Chelsea Flower Show). Terra Nova has been awarded 9 Awards of Garden Merit for their Heuchera by the RHS. This is the highest Award the Society bestows upon a plant after several years of trial. Plants were judged against 201 Heuchera and x Heucherella varieties. Reginald Cory Memorial Cup presented to Dan Heims by the Royal Horticultural society for advancements in the genus Heuchera. Articles and pictures published in “The Epic Gardener”. PPA –presented new plants. New plants featured in The Digger and Landscape Trades Magazine. Our staff won first prize at the Ohio Short Course for our innovative booth. Dan joined Massachusetts Horticultural Society as a horticultural consultant in November for a 2 week tour of the Gardens of Kyoto. Our Painted fern selections win prizes at Ellersbie, the “Chelsea Show” of New Zealand.

2001

Jan 25 “Shade Gardening with New Perennials” “New Plants from Around the World”- Mid Am tradeshow
Awarded the Theodore Klein Plant Award in Kentucky. Tiarella article written by Dan was published in April *Fine Gardening* Magazine. Article published in the book “Variegated Plants in Color” Vol. 2 on Variegated Heuchera.
Trade and speaking trip to Germany and Holland. Speaking on “Plant sourcing and Marketing” and “Colorful Companions” in Tasmania and New South Wales, Australia. Civic Garden Centre in Toronto, Ontario. HGTV appearance at the Royal Botanic Gardens with Kathy Renwahl. Radio interview on HGTV. Local appearance at Poppybox Gardens. Plants featured in Landscape Trades Magazine. Speaking at the International Daylily convention in Camp Hill, Pennsylvania in October. Just purchased 2 new pieces of property for development, quadrupling our space. Nursery expansion continues. PPA presentation. Ohio Short Course. Garden Writers of America trade show. Winner of a Gold Medal at Keukenhof 2001 in Holland. Winner of a Gold Certificate at Coursonne in France for Heuchera ‘Can Can’. Winner of ‘Best of Show’ with Heuchera ‘Amber Waves’ at the UK's largest nursery show- Four Oaks. Winner of 9 Awards of Garden Merit at the Royal Botanical Garden at Wisley. Winner of “Best New Product” at the Scotgrow show in Scotland. Presented at the Southern Plant Conference (a SNA sponsored biennial event). Spoke at Lilyhemmer regional Daylily conference.
Completed a horticultural/Agricultural tour of Chile and Argentina including a jaunt into the Andes to botanize with Patricio Ramirez at Volcan Chillan. Other time was spent visiting nurseries, farms, food processing plants, and wineries.

2000

 August 13-18 International Stauden Union Copenhagen, Denmark
 August 19 "4 Fabulous Genera" Gøthenborg, Sweden
 October 10-13 Lecture and class (Four Fabulous Genera) at Chicago Botanic Garden
 October 15 New England Greenhouse Growers Presentation on 'New Vegetative Perennials' - Boston
 November - Chicago Botanic Garden "Shade Gardening" and taught "Heuchera, Tiarella, and Pulmonaria"
 Collecting trip to Japan completed. Photography and plant collection (Fukushima, Kowaguchi, Nagoya, Maibara, Kobe) Visits with many small specialty nurseries.
 Martha Stewart Article on Heuchera featured our nursery and plants.
 Hosted several groups of Japanese nurserymen and the Proven Winners North America and European affiliates.
 Start of tetraploidy projects with Dr. Harini Koripala at the helm.
 Photoshoots by Martha Stewart and Floragraphics.
 Collecting and research trip to deep south w/Chuck Pavlich. Visits to trials in Ga. (Alan Armitage) and numerous nurseries.
 TV appearances in Illinois, Tennessee, and Oregon. Special slideshow presentation in Mjuebjerg, Denmark at the ISU.
 Visited a number of fascinating nurseries in Denmark, one does tissue culture on water plants! Spoke in Sweden and was a guest of Director Henrik Zetterlund for a behind the scenes tour of Gøthenborg (pronounced 'yo-te-bor-ie')- one of the top 10 European botanical gardens. Finished article on Foamflowers for Fine Gardening Magazine. Special Tricyrtis article written and published in Plants Magazine. Tiarella 'Iron Butterfly' featured at Hardy's Gold Medal winning booth at RHS Chelsea show. Tiarella 'IB' won a medal at Plantarium in Holland and was featured in the RHS publication, 'The Garden' 2 other medals won with Terra Nova Plants at Plantarium. Hosted Japanese nurserymen at the nursery in conjunction with the Farwest Show. Thierry Delabroye submitted our Tiarella 'Ninja' at Courson - France's largest Horticultural Exposition - to win a coveted Silver Medal.

1999

Speaking engagements completed in Alaska (Alaska Rock Garden Society and Homer Garden Club), Arkansas Flower and Garden Show, Shady Oaks Hosta Society- Nebraska, New York Botanic Garden (2 courses taught), Horticultural Alliance of the Hamptons, N. American Rock Garden Society- Willamette Chapter, NW Hosta and Shade Garden Society. 2 articles w/photography published in *American Nurseryman* magazine. Article printed in *Fine Gardening* on Tissue Culture. Greenhouse expansion and stock bed expansion completed. '99 breeding program begun. Trip to UK completed see RHS-Chelsea and do a collection run to Devon. RHS Wisley undergoing trials for 200 Heuchera, many of which were contributed by Terra Nova.

1998

Spoke, as a primary speaker at Landscape Ontario, Canada's largest commercial trade show in January 1998 on 'New Perennials from Around the World'. Plants featured in GM Pro, NM Pro, Garden Gate, Greenhouse Grower, Greenhouse Product News, OAN Digger and other trade magazines. Tiarella article written to be published in New and Rare Plants, a rare plant magazine in England. Spoke to the Puget Sound Flower Grower's Association on "New Perennials". Photography and support published in Country Living Gardener. Beginning of polyploidy research at Terra Nova Nurseries, Inc. Our Ph.D., Bruce Stermer will be leading the research with my direction on varieties. Preliminary research begun on additional genera for hybridization programs. Have been approved for several photoshoots for my home garden by Better Homes and Gardens Magazine. Had a record turnout for Pulmonaria Trials at the end of February. PPA open house at the nursery. Sylvia Cooperman (for a book on Pulmonaria) photographs and records our trials. We have signed one plant with Blooms of Bressingham and a number with Van Bloem. Our website: (www.terranovanurseries.com) has been given its own domain and is being updated with improved format, pictures, and wholesale areas. Produced a new catalog, unique in the industry, each with its own CDROM containing our website and slide shows of our nursery and our research programs. Trials in Tennessee in 1997 at the University of Tennessee list our Heuchera as "Highly desirable for the Southeastern Landscape". Positive results also reported from Alan Armitage's trials at the University of Georgia. 13 patents have been written and submitted at this point. Spoke on 3 new introductions at the PPA convention in Boston and did extended trips to Maine and New Hampshire. Presented an informal talk and slide-show in Hodenhagen, Germany for the International Stauden Union (like a PPA for the EU) Spent 2 weeks in Germany collecting plants and visiting nurseries behind the old 'iron curtain'. Brought back 125 plants from Germany, many new to the US. Terra Nova Nurseries has completed greenhouse expansion, and has built a cooler facility in September '98. This will double our capacity. Spoke to the Northwest Hosta and Shade Gardening Society on "Japanese Shade Plants" in their membership opener. My garden is featured in a frontispiece for the Time-Life Book "Pick the Right Plant" (1998), with another shot inside. Research and collecting trip to Southern California at misc. botanical gardens completed in March. Commissioned to speak on 'New Perennials' at the Far West Nursery Show

in August. Winner of 2 Silver awards at Plantarium '98. 2 Articles published in the Farwest Nursery Show Magazine. Produced a new and expanded color catalog with a CD-ROM, a first for a nursery our size. Two Gold medals and 4 Silvers won at VKC Nieuw, a large Dutch tradeshow. Showed at the American Society of Landscape Architect's meeting in Portland in October. Articles written for American Nurseryman. My Heuchera Picture is the cover shot for American Nurseryman on Oct. 1. Nursery/botanizing/Speaking trip to Costa Rica completed in Early December. Hawaiian trip completed late December.

1997- Horticultural trips to California, Michigan, Israel, Japan, UK, and Holland completed. Spoke to the Portland Garden Club on variegated plants. Collecting trip to Japan completed in May. Spoke to a group of Japanese nurserymen in Chiba on "Variegated plants from around the world". Invited to speak to the IPSS in Sussex speaking on New Varieties and to tour Four Oaks in September. My garden is featured on the cover of Organic Gardening. Articles and photographs appear in newspapers and magazines. Website launched in February: (www.terranovanurseries.com) Conducting massive trials on Pulmonaria (1100 different) and Tiarella (3000 different) Began a program of Thalictrum hybridizing. Completed our 2nd expansion in Canby, Oregon, essentially doubling our lab's size and adding 9000 additional square footage in the greenhouses. (3000-sq. ft. completed in March) Continued modernization of offices and computer networks. Farwest Show appearance. Presented three new varieties to the Perennial Plant Association forum on New Perennials in Raleigh, NC. Spoke to the International Plant Propagators in Arundel, West Sussex, UK on launching new varieties. Did research on the new book while in England. Met with Alan Bloom in Bressingham to discuss Heuchera history. Article and Photography published in New and Rare Plants, a rare plant magazine in England. Helped man the Just Must perennials booth at the Four Oaks Nursery Show near Manchester, England. Trip to Holland for search for new plant introductions and meet with nursery professionals. Rec'd 2 Gold and 3 Silver medals from VKC Nieuw Plant exposition in Holland. Plants to Wisley in UK for Heuchera trials 1998.

1996- Second lab construction complete, additional greenhouse built. Spoke to PPA in Denver for national show. Participated in the National Convention of the American Hosta Society. At the Hosta convention my Hosta (Jade Cascade) wins the Pauline Banyai Award (Best New Seedling) the David Van Fleet Award (Best green Seedling) and Best of Section. Sunset magazine runs 'Garden Masters' series featuring my garden and techniques. Traveled to New York, Connecticut, and Pennsylvania collecting, presenting, and acquiring photos and information for an upcoming book. Breeding program continues with breakthroughs in Pulmonaria, Tiarella, and Heuchera, especially in flowering types. 5 additional medals from Keukenhof show in Holland. Several more presented at VKC Nieuw show in Holland. Spoke to the American Association of Nurserymen at their convention on new introductions. Sold landscape Construction Company after 18 years. Have made marketing bonds with Oosterwijk JR in Holland and Just Must Perennials in England.

1995- Produced our new 20-page color catalog and we have released a CD-ROM of photographs of our plants. Garden photographed by Sunset Magazine and by Alan Mandell, international hort photographer. Several Heuchera featured in *SUNSET* magazine. Fine gardening article written and completed to run in November (5 page spread on Heuchera). Featured speaker at California Horticultural society at the Academy of Sciences. Trip to Holland, Germany, Ireland and England (Hampton Court Show) in June. PPA presentation in Minneapolis. Far West Show exhibition. IPSS regional meeting (Introduction of New Plants) Botanical and horticultural collecting trip to New Zealand completed at year's end, spoke to 'InPlants' group in New Zealand. Presented with multiple gold medals and 'Best New Perennial of 1995 at Plantarium '95 in Holland and at shows in Belgium. Breeding work continues with improved flower and foliage forms and for the first time, the combination of the two. Photo shoots for Fine Gardening and Sunset for a feature article on Garden Masters. We have sold our 20,000th plant in New Zealand and are exploring the international market further (inroads to Germany, Holland, and England have been made). Terra Nova Nurseries, Inc. bought Macksburg Greenhouses adding 12000 sq. feet of production to our line. Have begun 2nd lab construction in Canby and have begun planting fields with trial plants and stock.

1994- Have been promoting in earnest, the plants of others through Terra Nova Nurseries, Inc. We will have paid out nearly \$5000 in royalties by the end of the shipping season. Collecting trip to North Carolina and West Virginia for plant collecting. Lecture to horticultural group in Vancouver, BC, Canada. PPA presentation of new perennials. Approached by Timber Press to do a book on Heuchera and their allies. Ken Druse shoots garden for "The Collector's Garden". Invested in STAGE IV in Mt. Vernon, Washington State, and a nursery venture by B&B plantsman Monte Gorman. Erected greenhouse and tunnels in Washington.

1993- Tissue culture lab has been built in Tigard. Production continues. 2nd Educational /collecting trip to England. Meeting with Beth Chatto, Graham Stuart Thomas and Brian Matthew at respective gardens. Went to Chelsea and helped with garden construction and labeling. Manned the Goldbrook Plants booth. Displayed our product with B&B Labs at the SNA nursery convention in Atlanta, Georgia. Farwest Nursery Show presentation. Attended and spoke to PPA on several new introductions in Beautiful British Columbia.

1992- Entered a partnership with Ken Brown in addition to running Terra Green Landscape. Terra Nova Nurseries, Inc. We purchased a "used" tissue culture lab and we were in the process of upgrading equipment, purchasing chemicals, built a lab

building and have erected a modest 10'x30' greenhouse on my property to house stock plants and allow controlled breeding. I am currently working with B & B Laboratories on mass-production of my new plants and am marketing my new introductions through a video to be shown at the FARWEST Nursery show and a slide to show are shown at the PPA convention in Cleveland.

1991- Began Terra-Nova Nursery cooperating with Paul Iwasaki of Riverview Greenhouses (for greenhouse use) in an effort to bring new and unusual plants from Japan, England, and our own back yard, to the wholesale market. Began an intensive breeding effort in several relatively minor genera. My first 'discovery' in 1988 was a variegated coral-bells, *Heuchera sanguinea* 'Snowstorm' of which over 1,000,000 plants have already been sold in England, France and Holland. Traveled to England on a collecting mission in May. Covered 1400 miles of English soil and attended Chelsea Flower Show.

1981-to date has been active in the Begonia Society, Bromeliad Society, Hardy Plant Society, Landscape Professionals chapter of the OAN, Rock Garden Society, and started the Northwest Hosta Society (Now the NW Hosta and Shade Gardening Society). Served as president of the Landscape Professionals and designed and built the Yard, Garden and Patio Show-front yard and back yard displays for several years. Formed "Anything But Green" a variegated plant group in 1994. Member of RHS, HPS, PPA, ISU, IPPS.

1978-1981 Started Terra Green Landscape as the 'plant boom' dwindled. Produced and narrated 'Garden Notes' on KKSJ radio. Became a licensed Landscape Contractor. Terra Green Landscape activities in the past 18 years have included design, maintenance, construction and irrigation.

1977- Taught several plant courses at OMSI (Oregon Museum of Science and Industry). Went on 2 collecting/botanical missions to Hawaii. 2nd TV feature on Exotic Plants Unlimited. (KPTV)

1976- Began Exotic Plants Unlimited- selling wholesale and retail exotic plants with greenhouses in Portland and eventually Beaverton. Television appearance on KPTV (12).

1975- University of Oregon- Taught Advanced Interior Plants - Commissioned by Dr. Wallace M. Ruff to receive and propagate seeds and cuttings from unexplored mountains of Papua New Guinea. Graduated in communications with minors in landscape, psychology, and botany. TV direction and production experience in Eugene-National Educational Television.

1974- University of Oregon - Placed in charge of university landscape architecture greenhouse (2nd year) Taught an accredited course on Organic Gardening.

AWARDS
