Welcome
to our
2008
Catalog!

SCABIOSA 'VIVID VIOLET' (Page 48)

“Food for Thought”

People have always joked with me about my naming plants with food names, so why not a whole catalog? Food is a passion, plants are a passion, and boy, am I a spokesmodel for both! All kidding aside, we at Terra Nova have a mission to introduce the coolest new plants to horticulture. These plants don't just happen. Our Heuchera and Heucherella selections begin as hundreds of crosses. These in turn are sown as tens of thousands of seedlings from which only a few plants make the final grade—that of a visually stunning, good garden plant. Because our plants are so delicious, demand is always an issue. Our café has a limited number of “tables” but we are working hard on expanding not only our facilities, but our suppliers worldwide, to generate more of what our customers crave.

Ken Brown (my business partner) accompanied me to Japan for several weeks on a speaking and collecting trip that yielded some wonderful treasures. Ken and Chris Hansen traveled to Poland, Germany, and Holland the following month seeing what was new, and in May, Chris and I went to England for the Chelsea Flower Show and more collecting. Tough work, but somebody has to do it!

Meanwhile, back at the home front, Rob Jansen and his team are working on stunning coleus for the annual market. Janet Egger and Harini Korlipara blow us away every year as they and their support teams produce the latest in Heuchera, Heucherella, Coreopsis, Echinacea, ferns, and other tasty treats. I have been personally involved with Begonia breeding, using some of the hardiest new forms from China to create a new look in this fascinating group.

We are very proud this year to introduce new Heuchera and Heucherella crosses with H. villosa (which I saw wild in Alabama). This is the new “Southern Bells” series, providing the American South with plants that grow and even prosper with heat and humidity!

I look forward to inviting you into our “burgeoning bistro” as we “plate out” some wonderful new introductions! Watch them sell like hotcakes!

Some of This
Year's Tasty
Treats

- Blooms for 3+ months
- Takes Heat & Humidity
- Over 150 flowers per plant

COREOPSIS 'MOONLIGHT' (Page 14)

HEUCHERA 'GEORGIA PEACH' (Page 30)

- Villosa hybrid with heat & humidity tolerance
- Giant 8” strawberry colored leaves
- Color intensifies through summer

- Changes color with the seasons
- Spring foliage is gold with red veins
- A villosa hybrid with heat & humidity tolerance

HEUCHERELLA 'ALABAMA SUNRISE' (Page 43)

BEGONIA 'METALLIC MIST' (Page 5)

- A breeding breakthrough
- Metallic silver & hardy to zone 8
- A cross between two hardy Chinese Begonias

ECHINACEA 'TIKI TORCH' (pg. 21)

BEGONIA 'RIVER NILE' BEGONIA 'PHOE'S CLEO'

BEGONIA 'BLACK TAFFETA'

BEGONIA 'FIREWORKS'

Begonia

Begonia 'Benitochiba'

(ben-ee-toe-chee-ba)
Palmate leaves, sheathed in metallic rose-red! Self-branching and shrubby, this plant defies classification, having the appeal of a Rex, but the shape and toughness of a shrub-type begonia. It was great in our gardens during the summer. Exotic pink flowers.

Z 10-11 ● ∞ ☞ ' 18/24/24

NEW Begonia 'Black Taffeta' (Kartuz)

Large, crested, obsidian-black leaves to 8" wide have a lovely burgundy red reverse. Its sturdy rhizomatous heritage makes it stronger than any Rex Begonia. Great in the house or in the shade garden. Vigorous grower to 18-24" tall and wide. Kartuz describes it as: "Very large black star shaped textured leaves. Pink flowers. Most impressive."

Z 10-11 ● ∞ ☞ 24/18/20

Begonia 'Fireworks' (Kartuz)

A showstopper in our trade show booth! Deep metallic, paisley purple bands encircle an iridescent silver-white center that is undeniably striking. Great pink flowers add to the appeal. This plant did especially well in our display gardens in amended

garden soil. Not as picky as a Rex and shows great vigor. Upright habit. AGM (Award of Garden Merit).

Z 10-11 ● ∞ ☞ 12/12/14

Begonia 'Cathedral'

(sometimes called 'Cathedral Windows')

Ruffled foliage with windows of red and green are featured on this unusual, but tough plant for house or summer containers. The undersides of these fascinating leaves have erupted veins allowing cathedral windows of light to shine through. Ivory-pink flowers adorn 12" spikes. An easy plant in the home and in outdoor containers.

Z 10-11 ● ∞ ☞ 12/12/14

NEW Begonia 'Phoe's Cleo' (Anderson)

Vivid chartreuse leaves sport mahogany-red splashes! Tough rhizomatous heritage makes it stronger than any Rex Begonia. 'Phoe's Cleo' thrives in containers, shade gardens, and windowsills.

Z 10-11 ● ∞ ☞ 12/12/14

Begonia 'River Nile' (Thompson)

More tolerant of cold than most begonias, this one sports bright chartreuse leaves that are heavily edged in dark red. The borders are also ruffled and the leaf bases swirl like a ram's horn

BEGONIA 'BENITOCHIBA'

BEGONIA 'CATHEDRAL'

toward the leaf center. White flowers. Great as a patio plant or as a houseplant, easier to grow than a Rex. This plant did especially well in our display gardens in amended garden soil.

Z 10-11 ● ∞ ☞ 24/20/27

NEW Begonia 'Metallic Mist' PPAF PVR

(Hardy Begonia) 'Metallic Mist' displays heavily silvered, maple-like leaves on a ZONE 8 HARDY begonia. Vigorously grows to form a striking 18" tall specimen. Pink flowers in late summer extend the show. From a cross between two hardy Chinese begonias - a breeding breakthrough!

Z 8-10 ● ∞ 24/12/10

Brugmansia 'Snowbank' PP14847 EU16251

(Variegated Angel's Trumpet) Here's our first Angel's Trumpet introduction with fragrant, peach colored blooms of immense proportions, which emerge from some of the most brilliant and broadly margined foliage you have ever seen! Our first tetraploid Brugmansia is awesome in containers (3 gallon is best). Spring and summer sales only.

Z 8-13 ☼ ► ☞ ∞ 36/60/60

NEW Hedychium 'Tahitian Flame' PPAF PVR

(Variegated ginger) Make a Hawaiian splash with this boldly variegated hybrid ginger! Intoxicatingly fragrant apricot flowers emerge in midsummer and continue thru fall. The upright habit of 'Tahitian Flame' creates a wonderful architectural accent for both containers and gardens.

Z 8-11 ☼ ► ● ∞ 24/60/68 (mature plant)

NEW Philodendron 'Pink Princess'

(Philodendron) An unusual black leaf Philodendron with hot pink variegation! We believe this wonderful foliage plant is an Australian hybrid. Good light is needed for the maximum variegation/ pink shades. No special care is needed except moderate light and home conditions.

Z 10-13 ► ● ☞ ∞ 24/48/48

HEDYCHIUM 'TAHITIAN FLAME'

Colorful Zone 8
Hardy Begonia!

BEGONIA 'METALLIC MIST'

PHILODENDRON 'PINK PRINCESS'

BRUGMANSIA 'SNOWBANK'

ENSETE 'TANDARRA RED'

XANTHOSOMA 'LIME ZINGER'

Colocasia esculenta 'Black Magic'
(Black Elephant Ears) One of the "Top Black Plants." Tropical in appearance and moisture loving, 'Black Magic' thrives in full sun gardens and containers everywhere! Needs warmth to "kick into gear."

Z 9-13 🌞 ♾ 30/30/12

NEW Ensete 'Tandarra Red'
(Ornamental Banana) Can you say, "BOLD?" This is one dramatic foliage plant with huge, waxy fronds of reddish-purple tones superimposed over deep green. Similar to Ensete 'Maurellii', but with more contrasting leaf and vein color. Use for an exotic tropical look.

6 Z 10-13 🌞 ♾ 36/72/NA

EUCOMIS 'OAKHURST'

COLOCASIA 'BLACK MAGIC'

ZANTEDESCHIA 'EDGE OF NIGHT'

Eucomis comosa 'Oakhurst'

(Purple Pineapple Lily) Strapping, upright brilliant burgundy foliage and purple pineapple-like flowers adorn the plant. Originally found in a San Diego Nursery, this deep-purple leafed novelty has loved blazing sun there for nearly 20 years. We were totally amazed to see plants in an Indianapolis garden not only thriving, but actually reseeding! Wow! It has a stately and exotic look and it combines well in mixed containers. Also lasts an amazing 21 days as a cut flower!

Z 7-10 🌞 🌱 ✂ 20/24/32

Xanthosoma mafaffa 'Lime Zinger'
(Golden Elephant Ears) Wow! These leaves are stunning! Imagine huge lime green-colored elephant ears held

'Edge of Night' has a multitude of uses including mixed containers and garden plantings. In colder regions of the country, 'Edge of Night' can also be moved indoors for winter-long enjoyment. One of Europe's most popular cut flowers comes to American gardeners via Terra Nova Nurseries!

Z 7-10 🌞 ♾ ✂ 12/28/30

NEW Acanthus mollis 'Tasmanian Angel'™
(Variegated Bear's Breeches) The first variegated Acanthus! This gem, found in Tasmania, offers striking, bold leaves with white margins and mottling. It forms a large clump with 3 to 4' tall ornamental flower stalks of pink and cream in late summer. A. mollis is tolerant of most soils but thrives in deep, fertile, moist, and well-drained conditions.

Grower Note: Requires a good root stock before transplanting into the ground.

Z 7-10 🌞 🌱 ✂ 36/36/60 for a 3 year old plant

Actaea simplex 'Black Negligee' (syn. Cimicifuga) (O'Byrne)
(Bugbane) Our customers report that 'Black Negligee' has much more vigor than the other dark varieties. Lacy black foliage just shrouds the lovely dark stems. Beautiful purple-tinted, white flowers project 2' upward and carry an exotic perfume of grape and jasmine. Give it lots of water with full sun in most states for the darkest foliage.

Z 5-9 🌞 🌱 🌱 ✂ 24/48/60

NEW Agastache 'Raspberry Summer' PPAF PVR
(Hummingbird mint) Awesome, large, dark raspberry pink blooms adorn this plant all summer and into fall. Flowers float above attractive, bright green, fragrant foliage. 'Raspberry Summer' is easy to grow as long it has good drainage.

Z 6-9 🌞 🌱 🌱 ✂ 20/30/32

NEW Agastache 'Summer Love' PPAF PVR
(Hummingbird mint) Yummy, large purple-pink flowers in dense clusters bloom continuously all summer and into fall. Chris thinks it looks like a summer Liatris or Gay Feather. Forms attractive upright mounds of bright green, fragrant foliage. Easy to grow with good drainage.

Z 6-9 🌞 🌱 🌱 ✂ 24/34/36

AGASTACHE 'RASPBERRY SUMMER'

AGASTACHE 'SUMMER LOVE'

ACANTHUS 'TASMANIAN ANGEL'™

ACTAEA 'BLACK NEGLIGEE'

Agave ‘Spot’ (syn. Manfreda) (Cistus)
The darkest spotted hybrid from Sean Hogan of Cistus Nursery. Big clumps sport shiny, blue green leaves with prominent dark purple spots. It tosses up 4’ tall spikes terminating with fragrant, 1” long flowers in summer. ‘Spot’ grows well in heat and humidity, but it must have good drainage. This wild, deciduous succulent looks like it traveled off the set of Star Trek!

Z 6-9 ☼ 16/16/48 for a 3 year old plant
Grower Note: Plants may not show their spots until they are one year old from a tissue culture plug.

NEW Ajuga reptans ‘Toffee Chip’ PPAF PVR (O’Byrne)
(Variegated Carpet Bugle) Way cool! This small-leaved groundcover is a fun departure from Ajuga ‘Chocolate Chip’. Mature leaves are adorned with creamy gold margins around shades of gray green in the center. New leaves display brown and khaki shades. Blue flowers emerge from 5” spikes.

Z 5-9 ☼ 12/2/5
Astrantia major ‘Hadspen Blood’ (Pope)
(Barrenwort) Still considered one of the best reds on the market! Excellent rebloom and dense foliage that has purple black accents when grown in full sun. Plants

ATHYRIUM ‘URSULA’S RED’
AJUGA ‘TOFFEE CHIP’

**A Variegated
A. ‘Chocolate Chip’**

8

show great vigor and free-flowering traits. Excellent as a long-lasting cut-flower. Nori Pope, the brilliant ex-curator at Hadspen House offered us this splendid form of Masterwort. Likes moist soils and must have sun for flowers to color up.

Z 5-9 ☼ 12/18/24
Hardy Ferns

All our ferns are clonally propagated. Thus, all are true to type. The Athyrium as a group are very heat and humidity tolerant, but young plants need to have their roots kept cool. Plants do not push new growth (roots or tops) during winter months and need a longer dormancy period than most ferns.

Grower Note: It is not unusual for the final coloration not to show during its juvenile stage. Best color is seen after vernalization.

Athyrium niponicum var. pictum ‘Ursula’s Red’ (Herz)
(Japanese Painted Fern) This fern heralds the spring with broad silver leaves traced and flushed with wine red down the center. This dynamite seller at Wayside Gardens has color that softens in summer heat. Plantswoman Ursula Herz had a little secret in South Carolina.

Z 4-9 12/16/NA

ATHYRIUM ‘PEWTER LACE’
ASTRANTIA ‘HADSPEN BLOOD’

AGAVE ‘SPOT’

ATHYRIUM ‘SILVER FALLS’

ATHYRIUM ‘DRE’S DAGGER’

ATHYRIUM ‘OCEAN’S FURY’

ATHYRIUM ‘BURGUNDY LACE’

Athyrium filix-femina ‘Cruciato-cristatum’ Dre’s Dagger
(Randaci)

(Victorian Lady Fern) A more compact form of the sought after Victoria fern. The thin, deep green fronds are unusually crisscrossed and come to a narrow point that terminates with a small crest that grows through the season. It brings elegance to any shaded or morning sun location in rich soils. Multi-season interest.

Z 4-9 18/18/NA

Athyrium niponicum var. pictum ‘Burgundy Lace’ PP15072 EU17711

(Japanese Painted Fern) Our #1 selling hardy fern! Bar none, the best red in the marketplace. With one look at its gorgeous metallic burgundy leaves (brightest in spring), you’re sure to fall in love! Great vigor in containers as well as in the garden.

Z 4-9 12/15/NA

NEW Athyrium ‘Ocean’s Fury’ PPAF PVR (Maness)

(Painted Fern Hybrid) A silvered salute, this fern was named ‘Ocean’s Fury’ because the habit and coloring remind Dan of ocean waves crashing on the

shore. This upright and crested fern from Thurman Maness is a wonderful addition to lighten up your shady areas or in the woodland garden. It prefers fertile, moist soils.

Z 5-9 24/36/NA

Athyrium niponicum var. pictum ‘Pewter Lace’ PP15721 PVR

(Japanese Painted Fern) Gardeners everywhere are falling for the arresting metallic pewter foliage. Color is deep rich grey, and less metallic than A. ‘Silver Falls’. Silversmith Paul Revere would have succumbed to the charms of this new designer color in Japanese painted ferns. Customers are impressed with this vigorous selection which combines nicely with Hakonechloa or Tiarella.

Z 4-9 12/15/NA

Athyrium niponicum var. pictum ‘Silver Falls’ PP12803 (Ballantyne)

(Japanese Painted Fern) Unlike any other painted fern, this one intensifies its silvering as the season progresses! Winner of the 2002 “Stars of Spring” awards in New Zealand, this is a salute to “silvertude” with stunning, lustrous fronds that shimmer with its contrasting red veins. Named after a set of famous Oregon waterfalls. Later to appear in the spring than the other Japanese painted ferns.

Z 4-9 12/15/NA

BERGENIA 'SOLAR FLARE'
BRUNNERA 'JACK FROST'

The Best Foliage
Perennial of
the Decade!

BRUNNERA 'LOOKING GLASS'

BERGENIA 'PINK DRAGONFLY'

Bergenia 'Pink Dragonfly' (Eskuche)
(Pig squeak) Narrow leaves, with brilliant purple winter color, erupt in luscious bright pink flowers in proportion to its foliage on this petite beauty. Truly the Bergenia for people who are looking for multi-seasons of interest.

Z 4-9 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 12/12/15

NEW Bergenia 'Solar Flare' PPAF (Van Noort)

(Variegated Bergenia) A new twist on a classic garden perennial! Bold, evergreen leaves have a cream-edged border which turns brilliant shrimp-pink during the winter months. Excellent winter container plant topped with pink flowers in the spring. Color appears on new growth in spring fading to green in late summer.

Z 4-9 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 12/10/15

Brunnera

Brunnera macrophylla 'Jack Frost' PP13859 EU9772 (Walter's Gardens)

(Silver Siberian bugloss) Winner of the Plantarium in Holland "Best New Plant Award in 2001." Sky blue, forget-me-not flowers and a netted silver overlay on each leaf. Absolutely stunning in the garden from early spring to fall. One of the showiest and most garden worthy plants to come along in a decade. A significant, world-class perennial.

Z 4-9 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 15/12/17

Brunnera macrophylla 'Looking Glass' PPAF PVR (Walter's Gardens)

(Looking glass Siberian bugloss) Shimmering silver 5" heart-shaped leaves bedeck this sport of Brunnera 'Jack Frost'. The mound gives rise to masses of blue, forget-me-not flowers appearing in spring. Provide evenly moist, rich soils for the best growth. Glows in the garden.

Z 4-9 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 15/12/17

CAMPANULA 'PLUM WINE'
CAMPANULA 'SAMANTHA'

CAMPANULA 'SAMANTHA'

Campanula (Bellflower)

From groundcovers to massive specimens, this large genus provides a diverse mix of both flower color and form, which tolerate a wide range of garden conditions. Those marked with an asterisk (*) beside the name do especially well in the South.

Campanula cochleariifolia 'Elizabeth Oliver'

English nurseries launched this charming dwarf spreader with fully double sky-blue flowers. This heavy flowering cascader is excellent for rockeries or edging a path. Does well in containers. Tolerates limey conditions and needs good drainage.

Z 4-8 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 GC/2/3

Campanula punctata 'Pantaloons'* PP13282

'Pantaloons' surprises us with huge 2" light purple flowers that are shaped in a double "hose-in-hose" like we've never seen before. Looks like an elaborate 1890's undergarment. (The plant will occasionally throw up single flowers). This plant is vigorous and reaches standard C. punctata height.

Z 5-9 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 15/12/28

CAMPANULA 'ELIZABETH OLIVER'
CAMPANULA 'SARASTRO'

CAMPANULA 'SARASTRO'

Campanula 'Plum Wine'*

Huge light pink blooms, striped with pigment, are accented by the silver gray-blue foliage in summer, which deepens to a dark purple-red in winter. This eye-catching combination of both flower and foliage provides extended seasons of interest for the sunny border.

Z 5-9 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 GC/5/15

Campanula 'Samantha' (Reeck)

This award winning plant forms lovely mats of foliage displaying unusual and charming blue-violet, 1" wide, very fragrant flowers which face upwards. Re-blooms sporadically with deadheading. A slow spreader that is great for well-drained border in partial shade to full sun. Excellent for container production.

Z 5-9 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 14/9/11

Campanula 'Sarastro'* (Kress)

A C. punctata hybrid only 18" tall with HUGE, 2 ½" violet-blue bells and a well-branched habit! Not a runner, but a moderate spreader. From wild and wonderful Christian Kress of Austria's Sarastro Nursery. Great for container sales, and re-blooms well when cut back.

Z 4-9 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 24/22/26

CAMPANULA 'PANTALOONS'

NEW Campanula persicifolia 'Blue-Eyed Blonde'* PPAF PVR

(Golden Peachleaf Bellflower) This sweetie is HOT! Brilliant yellow foliage gives rise to large 1" bells of deep-blue flowers. This variation of C. persicifolia is a refined and well mannered hardy evergreen perennial. This vigorous form with deep blue flowers is another breeding breakthrough from Terra Nova Nurseries. Larger and stronger than C. 'Kelly's Gold'.

Z 4-9 ☀️ 🌑 🌒 🌔 🌕 🌖 🌗 🌘 🌙 🌚 🌛 🌜 🌝 🌞 12/8/15

CAMPANULA 'PANTALOONS'

Large 2" Double
Flowers!

50 + Blooms
per Stem!

CAMPANULA 'PINK OCTOPUS'

Campanula 'Pink Octopus'* PPAF PVR

Japanese lantern buds open to striking pink, octopus-like flowers. Over 50 blooms flutter down from the nicely upright flowering branches above strong, deeply cut foliage. Unique and interesting! Long bloom time and easy to grow. Tolerant of most soils. Wrap your arms around this one!

Z 5-9 ☀ 🌿 🌱 18/10/15

A Non-Spreading
Rebloomer!

CAMPANULA 'SUMMERTIME BLUES'

NEW Campanula 'Summertime Blues'* PPAF PVR

(Everblooming Campanula) Here's the "cure" for the summertime blues! The longest blooming Campanula we've ever seen. 'Summertime Blues' has masses of large, silvery blue bells on 2 foot, upright stems... all spring, summer and fall! A clumping habit that doesn't spread or reseed.

Z 4-9 ☀ 🌿 17/10/24

Carex siderosticha 'Lemon Zest' PP14463

The only gold C. siderosticha on the market that holds its gold all summer! Its bright lemon swords will illuminate the garden! These golden clumps glow in moderate shade with even moisture. Striking in borders and containers. This clumping, deciduous sedge combines well with Hosta and Heuchera.

Z 6-9 🌿 🌱 GC/9/12

See me on page 6

COLOCASIA
'BLACK MAGIC'

Are you "cooking up" a NEW PLANT?

Have you got a unique plant in your garden or greenhouse that evokes a "WOW!" from all who see it? You might have something special! While most of our plants come from our own breeding, we have introduced some super discoveries found by people such as you.

A variegated sport, a color break, or a double flower on a normally single-flowered plant could give you an economic return as well as the pride of seeing YOUR plant distributed in gardens around the world!

What Terra Nova can do for you:

- We will trial your plant against others in the market
- We will virus check and test the plant's ability to reproduce
- We will patent your plant IN YOUR NAME at no initial expense to you
- We will increase your royalty stream, by using our extensive worldwide network
- We will showcase your plant at national and international trade shows
- We will feature your plant in our full-color catalog, press releases, and advertisements

Let's work together!

Dan *Chris*

Send pictures or requests to:

Chris Hansen: chris@terravanurseries.com (971-212-3532)

New Plants Department (Dan or Chris)

10051 S. Macksburg Rd. Canby, OR 97013

Chris visiting Marco Van Noort & Henk de Jong in Holland

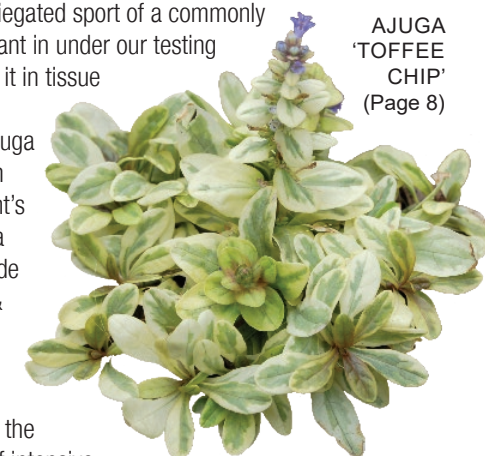

Over the past few years we've enjoyed our visits to Holland in search of new perennials to introduce to the US market. It was on one of these trips that we met Marco Van Noort and toured his wonderful nursery where he produces an array of unusual perennials. Marco had a stunning variegated Bergenia which he wanted to introduce to the worldwide market. We were thrilled when he accepted our testing agreement. After our successful trialing phase, Marco signed the licensing agreement and the plant was placed into our tissue culture lab for multiplication! This past spring, Chris was able to visit Marco and review the progress of his Bergenia, which we are now proud to "unveil" as Bergenia 'Solar Flare'!

BERGENIA 'SOLAR FLARE' (Page 10)

Dan receiving the original Begonia rex from Beth Chatto

Our friends, Ernie & Marietta O'Byrne approached Terra Nova several years ago with a unique variegated sport of a commonly available Ajuga. We brought their plant in under our testing agreement. We were able to initiate it in tissue culture and bulked up sufficient numbers for a national release of Ajuga 'Toffee Chip'. Through our special in vitro process, we increased the plant's vigor tremendously, thus obtaining a great new ground cover for the shade garden! During this time, Marietta & Ernie also presented Terra Nova with the opportunity to sell their color strains of Hellebores to avid gardeners in garden centers across the country. After more than 15 years of intensive hand breeding by the O'Byrnes, we are proud to introduce their series of Hellebores on pages 26-27 in this catalog!

Perennial!

COREOPSIS 'LIGHTNING FLASH'

COREOPSIS 'MOONLIGHT'

Our new *Coreopsis* hybrids:

The Terra Nova breeding team has been working hard and is ready to introduce several lines of *Coreopsis*. Our goals are to breed for flower size, bloom longevity, floriferousness, plant habit and hardiness. One of the backbones of this breeding program has been the extremely hardy *Coreopsis auriculata* 'Nana'.

NEW *Coreopsis tripteris* 'Lightning Flash' PPAF PVR (Messenbrink)

(Tall tickseed) 'Lightning Flash' is a new, bold *Coreopsis* with striking gold foliage that stays gold all summer. Found by Mark Messenbrink at his nursery in North Carolina. It is perfect for the perennial border, reaching 3' to 5'. The yellow flowers are a bonus in late summer. And it thrives in heat & humidity!

Z 3-8 ☀️ 🦋 ✂️ 32/60/72

NEW *Coreopsis* 'Moonlight' PPAF PVR

'Moonlight' blooms continuously for 3 to 4 months. Each plant has over 150 2" pastel-yellow flowers which change color to peach in cool weather. This new Terra Nova bred *Coreopsis* forms attractive mounds, thrives in heat and humidity, and is an improvement on C. 'Moonbeam'.

COREOPSIS 'GOLD NUGGET'

COREOPSIS 'SNOWBERRY'

NEW *Coreopsis* 'Gold Nugget' PPAF PVR

Feel the heat from this new Terra Nova *Coreopsis*! An amazing bloomer, with over 200 warm gold flowers on a first year plant, each with a blazing red eye. Blooms continuously for 3 to 4 months! Flowers are an amazing 1.5" wide. 'Gold Nugget' has a superb mounding form that thrives in heat and humidity.

Z 6-9 ☀️ 🦋 ✂️ 32/24/26

Coreopsis 'Snowberry' PPAF PVR

Like raspberries dropped in the snow, these creamy-white flowers are splashed with an eye patch of dark red. Multitudes of large 1 ½" wide flowers bloom all summer atop dark green foliage. Works well in the mixed border or used in containers. It's sterile (making it a more prolific bloomer) and is easy to grow. Requires good drainage.

Coreopsis 'Autumn Blush' PPAF PVR

This hardy hybrid out of *C. auriculata* 'Nana' begins flowering in the late spring with 1" strawberry-eyed, butter-yellow flowers. Flowers form a mid-height canopy of color, which changes as the season progresses. Cooler temperatures of late spring and fall enhance the strawberry coloration. Continuous flower production and vigorous growth have made 'Autumn Blush' destined to become one of American gardeners' favorite plants. Requires good drainage.

Z 6-9 ☀️ 🌿 32/24/26

Coreopsis 'Pinwheel' PPAF PVR

Quilled, butter-yellow flowers with lacy-blue foliage put this Coreopsis in a league of its own! This hardy charmer forms wonderful mounds covered with hundreds of flowers all summer! The pleasing soft color of this uniquely shaped flower combines well with the entire garden color palette. Requires good drainage.

Corydalis (Fumitory)

Corydalis shimienensis 'Berry Exciting' PPAF PVR

Brilliant yellow, fern-like leaves are streaked green and erupt in fragrant purple flowers. This wonderful new mutation of C. 'Blackberry Wine' is one of the few Corydalis that does not go summer dormant. Its vigorous cascading habit makes it an excellent ground cover and looks great spilling out of baskets and over banks. A stunner in the spring garden! Requires good drainage.

Z 5-9 ► 🌱 16/10/13

Corydalis shimienensis 'Blackberry Wine'

This early-emerging beauty has blue-green, ferny leaves which provide a backdrop for hundreds of ultra-fragrant flowers the color of blackberry wine! It holds its slightly silvered foliage all spring, summer, and fall with a cascading habit, excellent in baskets or over walls. Takes heat and humidity! Cut back after bloom to freshen foliage. Mark Tebbitt and Henrik Zetterlund (working on a new Corydalis book) are the ones to thank for finding the species name.

Z 5-9 ► 🌱 16/10/13

Corydalis curviflora var. rosthornii 'Blue Heron' (Hinkley)

Our largest, darkest blooming Corydalis! Dark, gentian-blue flowers atop stunning red stems are enhanced by blue-green foliage. This new form bloomed all spring and summer for us in Oregon. A marvelous new Corydalis collected in Sichuan, China by Mr. Dan Hinkley himself! Will go summer dormant if it is kept too dry or hot.

Z 6-8 ► ● 🌱 10/8/9

Corydalis flexuosa 'Blue Panda' (Hatch, Reeck)

A wonderful, fragrant blue Corydalis from China's "Panda Country". This long bloomer and re-bloomer in the Pacific Northwest combines the charms of cobalt-blue flowers and fragrance.

Z 5-8 ► ● 🌱 12/12/14

CORYDALIS 'BERRY EXCITING'

**Colorful & Vigorous
Groundcover with
Fragrant Flowers!**

Corydalis 'Canary Feathers' PPAF PVR

Soft, blue-green feather-like foliage is accented by large, trusses of canary-yellow flowers carried high above the leaves. This is our showiest and most vigorous Corydalis introduced to date! This long bloomer and sun tolerant hybrid makes a great highlight in shady spots where it combines well with our silver leaf Heuchera and Pulmonaria. Prefers moist, well-drained soils.

Z 8-9 ► 12/7/9

Corydalis elata (Reeck)

Perhaps the best Corydalis for the south! Fabulously fragrant cobalt-blue flowers adorn the upright habit of this garden jewel. Flowers emerge in May and bloom through July in Oregon. This superior selection does well in moist soils.

Z 6-8 ► 🌱 16/8/16

Corydalis flexuosa 'Golden Panda'

PP13254 EU15678 (Hatch, Reeck)

One of the gifts of the tissue culture process is the occasional occurrence of an amazing sport. Green-gold leaves in spring become infused with a warmer golden glow as they age. When the gold reaches its peak, the plant puts forth hundreds of fragrant blue flowers. More sun = darker flowers. Glowing reports have been heard for this introduction. Summer dormant.

Z 6-8 ► 🌱 10/8/12

Corydalis flexuosa 'Purple Leaf' (Blue Dragon)

Up before the robins in spring (with its cousin 'Blackberry Wine'), this bronzy-leaved fumitory is vigorous, rhizomatous, early blooming and long lived. Plants are more compact than the type and are charming in the rock garden, or scrambling around stepping-stones. A great lacy contrast to Heuchera 'Lime Rickey'. Fragrant, violet-blue flowers abound in early spring. May go summer dormant.

Z 5-9 ► 🌱 10/8/10

NEW Cyclamen coum 'Something Magic' PPAF

(Hardy Cyclamen) The FIRST-EVER Hardy Cyclamen from tissue culture! Wonderfully marked leaves - each leaf sports a miniature Christmas tree with a silver halo. Large rose-pink flowers in Feb/March. 'Something Magic' is a lovely plant and a vigorous grower. Ships October though April only.

Z 5-9 ► 10/3/6

Dicentra spectabilis 'Gold Heart' EU4817 CPBR0974 (Pope)

Truly the most stunning plant in our spring garden with 3' tall, peach-colored stems holding exquisite, brilliant, gold leaves. In late spring, large, rose-pink flowers emerge on arching stems. From Nori Pope of Hadspen House Nursery in Castle Cary, England. Not for resale into Canada. Ships November through June.

Z 5-9 ► ● 🌱 ✂️ 🌧️ 24/24/26

Dicentra 'King of Hearts' (Ownbey)

This hybrid combines large dark rose flowers with the most sumptuous, lacy, "beyond blue" foliage in a duet that is incomparable. It is a good neighbor and spreads slowly forming multi-seasonal mounds. In addition, it doesn't go summer dormant!

Z 5-9 ► ● 🌱 ✂️ 🌧️ 14/6/9

Compact Habit with Over 25 Fragrant Blooms per Plant!

www.terranovanurseries.com | 800.215.9450

Long Lasting Color on this Darkest Orange to Date!

NEW Echinacea 'Tiki Torch'

PPAF PVR

This darkest orange coneflower explodes with massive 4 1/2" flowers with wide petals. 'Tiki Torch' retains its intense color for weeks rather than days.

The spicy-scented blooms sit atop strong and upright 36" stems. Use for the border and for cut flowers. Easy to grow. Ignite this flaming dream!

Z 4-9 ☀️ 🦋 🐝 🌿 🌱 26/28/36

The coneflower

is climbing the popularity charts for many reasons (cut flowers, drought tolerance, colors, length of bloom, habit, longevity, etc.) and the varieties coming out are quite stunning! So many new clones are being introduced that many buyers (and the public) are confused. Our plants, based on the superior 'Ruby Giant', have remarkably strong and branched, stiff stems, large, well-colored flowers with horizontally held, double row of petals. They all have a delightful fragrance and work well as extremely long-lasting cut flowers! Our plants have flowers that don't fade in a few days like some in the marketplace, so enjoy the Terra Nova stamp of quality breeding.

Intense Burgundy-Black Stems with GIANT 5" Orbs!

ECHINACEA 'MERLOT'

ECHINACEA 'LILLIPUT'
ECHINACEA 'FRAGRANT ANGEL'

Echinacea purpurea 'Fragrant Angel'

PP16054 EU17449

Grows just like 'Ruby Giant', with large, fragrant, horizontal flowers with layered, overlapping petals and huge yellow cones. The well branched stems extend the blooming season right through summer and fall. 'Fragrant Angel' also boasts extreme vigor in the South.

Z 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 24/20/30

Echinacea purpurea 'Green Eyes' PP17172 PVR

Shocking magenta flowers have beautiful indented green centers that mature to a cone with rich orange. This strong, well-branched plant is a super addition to the border with its long-lasting blooms that also make great cut or dried flowers!

Z 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 24/20/30

Echinacea purpurea 'Lilliput' PPAF PVR

A breeding breakthrough! Short mounds are covered with over 25+ blooms of fragrant deep rose-purple on this miniature 'Ruby Giant'. This form is unlike anything we have ever seen! Perfect in the front of the border or as a groundcover.

Z 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 15/12/16

ECHINACEA 'GREEN EYES'

ECHINACEA 'RUBY GIANT'

NEW Echinacea purpurea 'Merlot' PPAF PVR

Huge 5" wide, rose pink flowers centered with orange cones sit atop stunning burgundy-black stems. Well branched stems which are strong enough to break scissors! (We did! lol) A wonderful introduction! Like a fine wine, this beauty has great fragrance. 35 flowers graced our second-year-plant.

Z 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 26/27/30

Echinacea purpurea 'Ruby Giant'

'Ruby Giant' was the first Echinacea bred for multi-branched, strong flower stems boasting huge 5" wide fragrant blooms. This clonal selection from the original Rubinstern seed material has a double row of petals held horizontally for maximal impact. 'Ruby Giant' has become the industry standard for garden worthy Echinacea breeding. Blooms all summer into fall.

Z 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 24/20/30

ECHINACEA 'PINK DOUBLEDelight'

Echinacea purpurea 'Hope' PP17194 PVR

Calm, fragrant, soft pink flowers of great size, fragrance, and substance adorn this long blooming perennial. It is dedicated to the breast cancer survivors and the memories of those who have succumbed to breast cancer. Terra Nova will make a donation of \$.25 for each plant sold, to the Oregon & SW Washington affiliate of the Susan G. Komen Breast Cancer Foundation to help further the search for a cure for breast cancer. Sold with beautiful over-sized picture labels that advertises this as a "Plant for the Cure." Labels are mandatory to ensure success of the program.

Zone 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 24/20/30

ECHINACEA 'HOPE'

NEW Echinacea purpurea 'Pink Double Delight' PPAF PVR

This perennial powerhouse is half the height of Echinacea 'Razzmatazz' with twice the flower power! Well-branched, sturdy flower stems are perfect for cutting! Blooms for 2-3 months! Thrives in the intense heat & humidity of Texas! Double your pleasure!

Z 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 12/16/20

NEW Echinacea purpurea 'Coconut Lime' PPAF PVR

Echinacea 'Coconut Lime' is the first white double-flowering Echinacea! Its compact habit can sport over 20 blooms per plant! Well branched, sturdy flower stems are perfect for cutting. Blooms for 2-3 months. Thrives in intense heat & humidity of Texas! Put the lime in the coconut and

shake it all up!

Z 4-9 ☀️ 🌱 🌿 🌻 🌼 🌾 24/20/30

ECHINACEA 'COCONUTLIME'

First Double White Echinacea Ever!

HELLEBORUS 'HOT FLASH'
HELLEBORUS 'HONEYHILL JOY'

2+ Months of
Floral Display

***Helleborus x nigercors* 'Honeyhill Joy'** (Metcalfe)

(Lenten Rose) This hybrid from Honeyhill Farms is exceptional for its quantities of large, out-facing, cream-centered, white flowers over vigorous, shiny, blue tinged foliage. Plant 'Honeyhill Joy' at your entry to enjoy the exceptionally early 2-month long show of marvelous, late winter blooms. Blooms early (after its first winter) in a 4" pot!

Z 6-9 ► 24/18/28

NEW *Helleborus x sternii* 'Hot Flash' PPAF

Sumptuously silvered and red veined, this outstanding evergreen Hellebore sports deeply serrate edges to create one HOT leaf!!! Blooms in late winter to early spring with pale green flowers blushed with pink. Wonderful in the front of the border for its clean good looks and winter interest. Requires good drainage to thrive.

Z 6-9 ► 14/12/14

☼ = Full Sun ► = Partial Shade ● = Shade x/x/x = Spread/Foliage Ht./Flower Ht. (inches on a 2 year old plant) 🌸 = Fragrant ✂ = Cut Flower 🦋 = Butterfly 🐝 = Hummingbird 🇯🇵 = Japanese Origin ∞ = Tropicalismo 🏠 = House Plant 🦌 = Deer Resistant

***Euphorbia* 'Royal Velvet'** (O'Byrne)

(Royal Velvet Spurge) Tailored evergreen velveteen leaves of rich deep red provide the perfect foil for its spring floral display. In spring, its 8" chartreuse-colored flower spikes have dramatic dark maroon eyes. This cross between *E. characias* 'Portuguese Velvet' and *E. x martinii* 'Red Martin' has the best of both worlds! This superior hybrid from Ernie & Marietta O'Byrne thrives in their world-class garden and beyond. Requires good drainage.

Z 7-10 ☼ ✂ 🦌 24/18/36

***Geranium phaeum* 'Margaret Wilson'** (Wilson)

Spectacular creamy, marbled, variegation flows over the leaves of this tough plant. In April, the lilac-purple flowers emerge for a show throughout the spring season. The color display continues thru the summer as the variegation holds true all season. Hailing from England, this strong plant is perfect for the woodland or the border.

Z 5-9 ► 14/12/13

***Geum* 'Fireball'**

(Avens) Profuse, huge, sterile, orange-yellow, semi-double flowers continue from spring to fall. These 1 ½" blooms are picoteed with a red edge. One of the most impressive (and early) orange blooming perennials in the spring! Found exploding in the walled city of York, England, this dynamic plant held its regal position in the garden, attracting every eye. Well-drained soil.

Z 5-9 ☼ 🦋 ✂ 24/8/26

***Hakonechloa macra* 'Albo-Striata'**

(Variegated Japanese forest grass) Broad white-striped leaves spill over rocks and are superb by pathways. This is a Japanese forest grass, so it performs best in partial shade, moist soil, and is quite happy between smaller Hosta and spilling out of containers on a shady patio. Most sun-tolerant of all of the *Hakonechloa*. Limited.

Z 6-9 ► 24/10/NA

***Hakonechloa macra* 'All Gold'**

(Gold Japanese forest grass) This gleaming, metallic gold "Forest Grass" holds its brilliant color all summer before turning tan in winter. Leaves are more upright and spiky than the type and are awesome in containers and the garden! Dan saw this glowing in the morning sun while visiting Suzuki-En in the Kowaguchi area of Japan.

Z 6-9 ► 20/8/NA

NEW *Hakonechloa macra* 'Stripe It Rich' PPAF PVR

(Variegated gold Japanese forest grass) These white-striped, golden leaves create a new spin on the shade tolerance Japanese Forest Grass. 'Stripe It Rich' grows vigorously in full to partial sun. It is spectacular as a woodland accent, in containers, along pathways or entrances, and adds an Asian garden look.

HELLEBORUS GOLDEN LOTUS

HELLEBORUS CAROUSEL

HELLEBORUS SPLASHDOWN

HELLEBORUS LONDON FOG

Helleborus Brushstrokes Strain

(Brushstrokes Lenten Rose) Marietta's single mix is a compendium of the world's greatest Hellebores. Brushstroked splashes, spots, and true, rich colors adorn the wide petals of this superior group.

Z 5-8 ☼ ● ♀ 24/12/12

Helleborus Carousel Strain

These wonderful Anemone-flowered Hellebores bring to mind the carousels of the past. Anemone-flowered forms are amongst the most uncommon of plants and hard to find in the trade. Flowers are large with picotee edges and contrasting center "bosses". Come take a ride!

Z 5-8 ▶ ● ♀ 24/12/12

Helleborus Golden Lotus Strain

A nearly golden glow emanates from these charming lotus-like flowers. **Double yellows** are amongst the rarest of Hellebores and Marietta has come through with a dazzler of a series!

Z 5-8 ▶ ● ♀ 24/12/12

Helleborus London Fog Strain

Chris and Dan's recent trip to England exposed them to a multitude of silvery-grey colors visible in this series. The slate roofs, the grey streets of London, the darkened skies; all are reflected in the blooms of this group. Flowers are large and plants are vigorous.

Z 5-8 ▶ ● ♀ 24/12/12

Helleborus Splashdown Strain

Of all Marietta's hybrids, these are the ones that simply take your breath away. Incredible, bold splashes of burgundy, red, and purple are painted on white to ivory backgrounds. Strong flower forms have mostly green nectaries. C'est magnifique!

Z 5-8 ▶ ● ♀ 24/12/12

First Ever Pure Yellow
Seed Strain with Giant
3½" Flowers

HELLEBORUS MELLOW YELLOW
(Actual flower size shown above)

Helleborus Mellow Yellow Strain

(Yellow Lenten Rose) Marietta has created this wonderful group of single yellows with the occasional apricot surprise! Some are splashed or tinted with picotee edges and all boast tremendous garden vigor!

Z 5-8 ▶ ● ♀ 24/12/12

Helleborus Regal Ruffles Strain

(Double Lenten Rose) This strain of vigorous doubles include giant 3" fluffy flowers with triple the usual number of petals. Colors include vivid reds, greens, pinks, yellows, and picotees—all in double form! Add a new dimension to your spring sales with these colorful and long-lasting winter/spring bloomers.

Z 5-8 ▶ ● ♀ 24/12/12

Giant 3½" Fully
Double Flowers &
Deer Resistant

Marietta's Magic

Marietta O'Byrne is considered (even by other breeders) as one of the best Hellebore hybridizers in the world. Her quest to perfect true color strains has taken her to all ends of the globe. For more than 15 years, Marietta has kept detailed breeding records as she strives for superior vigor and flower forms. Her hybrids boast flowers with an amazing 3 1/2" flower diameter and colors ranging from slate blues to spotted greens! We are honored to be the 1st commercial nursery to introduce her handiwork. To ensure your success with these shade tolerant and deer resistant gems, we're offering these in a special line of **30 cell Jumbo Plugs!** Limited quantity.

HEUCHERA 'CHOCOLATE RUFFLES'

HEUCHERA 'BLOOD RED'
HEUCHERA 'CAFÉ OLE'

Heuchera (Coral Bells or Alum-Root)

For more than a decade, the Terra Nova Breeding Team has worked to enhance every characteristic of this trouble-free native. We've expanded the color palette to include oranges, blacks, reds, purples etc. This rainbow of colors is combined with ruffles, bright flowers, sturdier habit, and rebloom to extend the selling season and create popularity among American home gardeners. A wide range of color for both sun and shade make them excellent companion plants to complete your perennial program!

Grower Note: Most Heuchera need 12 weeks of vernalization to flower. So if you choose a variety based on the flower rather than the foliage, please provide the needed cold treatment. All Heuchera bought in late summer or early fall and given a chill period will produce vastly superior plants the next spring.

Heuchera 'Amber Waves'

PP13348 EU11455

The light rose-colored flowers are secondary to the STUNNING, ruffled, amber-gold foliage which is brightest in spring. No Heuchera has ever attracted such great attention at the retail level as much as our dazzling 'Amber Waves'. We had a designer grab our plant and hold it up to every colored foliage plant in the nursery and . . . it worked. We have discovered the "new neutral." Winner: "Best New Plant" - Four Oaks, UK 2001, Winner "Best New Product" 2001 – Scotgrow, UK 2001.

Z 4-9 🌞 🌙 🌿 🌱 🌾 17/8/12

Heuchera 'Amethyst Myst'

A cool fog of silver settles over the stunning amethyst foliage. This glossy-leaved, vigorous clump can achieve an impressive 24" across. Both size and color make this Heuchera stand out in the spring garden. The more you grow this plant - the more you admire it.

Z 4-9 🌞 🌙 17/9/26

Heuchera 'Black Beauty'

PP13288 EU11507 (as 'Dark Beauty' in Europe)

This recent introduction pleases the senses with very black-red and GLOSSY, ruffled leaves. From any angle this plant is strikingly backlit in ruby red. The leaves are held somewhat upright, catching the sun from any direction. Requires good drainage.

Z 4-9 🌞 🌙 16/10/24

Heuchera 'Blood Red'

PP17153

Large, blood red flowers on 20" stalks erupt over bright green leaves swirled with a silvery-white overlay. Largest red flower yet. Great in the border and one of the best for container production!

Z 4-9 🌞 🌙 🌿 🌱 🌾 12/7/20

Heuchera 'Café Olé'

PPAF PVR

Frilly, ruffled leaves in milk chocolate form a tight mound on this unusual new hybrid. Numerous branched spikes hold hundreds of white flowers kissed with purple. Create a cute border display with our best multi-crowned compact Heuchera! Great for edging a pathway or en masse.

Z 4-9 🌞 🌙 16/6/21

Heuchera 'Cherries Jubilee'

PP11377 EU10038

Soft red flowers on warm brown foliage make this Heuchera good enough to eat! A compact habit and tidy appearance. Foliage is veiled in shadier locations. Performs great in containers.

Z 4-9 🌞 🌙 🌿 🌱 16/7/16

Heuchera 'Chocolate Ruffles'

PP8965 EU3954

Heavily ruffled leaves of rich chocolate on top and deep burgundy on the bottom create a warm contrast of color. Thousands of small purplish flowers on strong purple spikes continue the show. One of our first and finest, and still in amazing demand, this heat/humidity tolerant Heuchera thrives in gardens across the country and has become a landscaper's staple. Winner of the highest gold medal as "Best New Perennial Introduction" at Plantarium in Holland '95. Gold and silver medal winner at VKC Nieuw, Belgium.

Z 4-9 🌞 🌙 🌿 🌱 17/10/30

Heuchera 'Cinnabar Silver'

PPAF PVR

Our breeders have been working for years to try and combine the best of both worlds... exceptional flowers and color-holding foliage on the same plant! Cinnabar Silver combines a profusion of cinnabar red flowers atop compact mounds of showy metallic silver foliage.

Z 4-9 🌞 🌙 🌿 🌱 🌾 13/9/18

HEUCHERA 'GINGER ALE'

HEUCHERA 'HOLLYWOOD'

HEUCHERA 'GREEN SPICE'

HEUCHERA 'GYPSY DANCER'

Blooms for
6+ Months

NEW Heuchera 'Georgia Peach' PPAF PVR

(Alum root) 'Georgia Peach' is the first in our “Southern Bells” series of villosa hybrids bred for heat and humidity tolerance. In spring huge peach colored leaves with a showy silver overlay adorn a large lush habit. Foliage color intensifies to rose purple with a decorative frosted veil in fall and winter. Great landscape specimen for North America.

Z 4-9 ► ● 24/14/30

Heuchera 'Ginger Ale' PPAF PVR

A surprise! Effervescent flowers in shades of ginger yellow and light pink erupt from soft, um, ginger colored leaves. Lovely to contrast with the darker coral-bells in the marketplace. Designers love the ability of this plant to complement so many colors. It is a perfect neutral tone. Good in containers and in borders.

Z 4-9 ► ● 16/12/22

Heuchera americana 'Green Spice'

A top-seller around the world and great in the shade! Much more color contrast and more vigorous than Heuchera 'Beauty Color'. Its dark gray-edged silver leaves with red venation are smoother and brighter, bigger, and better. Exceptional fall color, which we label as “pumpkin, neon orange”.

Z 4-9 ► ● 16/9/28

Heuchera 'Gypsy Dancer' PP15959 EU17450

This floriferous hybrid has a multitude of light pink flowers swirling over low, and flashy metallic silver and gray foliage. Multitudes of light pink flowers swirl over the bright foliage. Heavy repeat flowering. A heavy repeat bloomer which is first to start and last to finish! Stays small and flashy. Doesn't require long cold treatments to bloom like most Heuchera making it great for the South. Will grow in heavier shade than many others, but can also thrive in full sun. Any fortune teller will tell you this plant is fabulous.

Z 4-9 ☀ ► 12/8/20

Heuchera 'Hollywood' PP17129 PVR

Strong reblooming spikes of dense coral-red flowers are produced over white veiled, lightly ruffled metallic leaves. Every flower stem produces dozens of reblooming flowers continuously. The compact habit and long bloom period of 'Hollywood' make it perfect for mixed containers and edging. An amazing breakthrough in breeding and the first to get an “11” by Dan's standards.

Z 4-9 ☀ ► 12/8/16

Heuchera 'Lime Rickey' PP17129 EU17451

Consistently one of our top 3 selling Heuchera! Lime-green to chartreuse ruffled foliage provide multiseasonal interest in both gardens and mixed containers. This refreshing color is the perfect contrast plant allowing it to play well with others. A vigorous grower which is topped with 1000's of small pure white flowers in spring.

Heuchera 'Peach Flambe' PP17195 PVR

Bright peach-colored leaves that literally glow in spring, summer and fall, turning to plum in winter. Large, smooth leaves and flaming red infusions create drama in the garden.

The color progression of 'Peach Flambe' thru the year provides multiseasonal interest as a superb color companion with spring yellows, summer blues, and fall oranges. A vigorous, medium-sized plant that produces white flowers in spring on stems to 16". This newcomer has rapidly climbed the charts to become one of our TOP 5 sellers!

HEUCHERA 'PEACH FLAMBE'

HEUCHERA 'PURPLE PETTICOATS'

HEUCHERA 'SASHAY' (Winter Shot)

HEUCHERA 'PLUM PUDDING'

A Terra Nova
Exclusive Introduction

A Heat & Humidity
Lover with GIANT 6"
Leaves!

HEUCHERA 'SOUTHERN COMFORT'

Heuchera 'Plum Pudding' EU3330

Thriving in the heat and humidity of the South, this industry staple is still one of our finest "plums." Tight, compact habit with "beyond burgundy" shiny foliage make this an excellent companion planting for a wide array of colors. Gold medal winner VKC Nieuw, Belgium '96.

Z 4-9 ☀ ▶ 16/8/26

Heuchera 'Purple Petticoats' EU5885

Dark purple frilly foliage, the texture of petticoats, adorns this tough beauty. Placed first for winter foliage at one of the top horticultural shows during one of Holland's toughest winters. Gold medal winner at VKC Nieuw, Belgium '96. Award of Garden Merit winner.

Z 4-9 ☀ ▶ 24/12/28

NEW Heuchera 'Southern Comfort' PPAF PVR

Huge cinnamon-peach leaves and a lush habit. This plant makes a bold foliage statement like a Hosta (but evergreen). Creamy white flowers erupt in late summer. Foliage color changes from cinnamon peach to burnished copper to amber. Bred to do well in Southern humidity, the Midwest, the Northeast or in the Northwest. Our second "Southern Bells" is nice "on the rocks."

Z 4-9 ▶ ● 🌱 🌿 24/14/22

Heuchera 'Sashay'

This sport of 'Purple Petticoats' has deeply cut, ruffled leaves which are dark green on top contrasted by luscious burgundy below. The unique substance and leaf color provide dramatic interest in both landscapes and containers. Award of Garden Merit winner.

Z 4-9 ☀ ▶ 16/8/22

A Landscaper's Delight
with GIANT 6"
Burgundy Leaves!

HEUCHERA'SPARKLINGBURGUNDY'

Heuchera 'Rave On' PPAF PVR

One of our heaviest spring bloomers (full sun), producing masses of dark pink flowers above highly silvered foliage. Excellent in containers, en masse, or as a splendid specimen. A new level of Heuchera breeding with more flowers than any other in our trials.

Z 4-9 ☀️ ➡️ 🦋 🦋 ✂️ 14/8/20

Heuchera sanguinea 'Snowfire'

Our most vigorous variegated Heuchera! Leaves with heavy white variegation give rise to large rose-red flowers in late spring. This one is cool and hot at the same time! The pristine variegation does not slow this plant down as a strong garden performer!

Z 4-9 ☀️ ➡️ 🦋 🦋 ✂️ 14/8/20

Heuchera 'Sparkling Burgundy' PP17280 PVR
(as 'Sparkling Wine' in EU)

Giant 6" burgundy leaves literally glow all spring and summer. Multi-seasonal interest begins with bright rose burgundy spring foliage and clean white flowers followed by leaf colors that become orange and white veiled as the season progresses to a final summer color of veiled burgundy and olive tones. The evergreen leaves darken in winter to a rich wine-red. Forms a medium sized mound that is great in the landscape or in containers.

Z 4-9 ☀️ ➡️ 🦋 🦋 ✂️ 18/12/20

Heuchera 'Velvet Night'

Our darkest veiled form. 7" plush, slate black leaves, with complex metallic purple overlays. Great with gold Hosta. It has shimmering leaves that are actually velvety to the touch, showing best in part shade.

Z 4-9 ➡️ 17/7/26

Heuchera 'Vesuvius' PP13215 EU11503

Profuse and reblooming spires erupt like fountains of magma over the dark flanks of this hot little number. The flowers of this great garden performer are an orangey red. Bloomed very well in 55% shade.

Summer!

HEUCHERELLA 'STOPLIGHT'

HEUCHERELLA 'BURNISHED BRONZE'
HEUCHERELLA 'SUNSPOT'

HEUCHERELLA 'KIMONO'
HEUCHERELLA 'DAYGLOW PINK'

x Heucherella (Foamy Bells)

x Heucherella (HEW-ker-ella) are intergeneric hybrids between Heuchera and Tiarella. All forms are sterile and are thus profuse and repeat bloomers with starry, intermediate flowers.

Grower Note: Do not overfertilize this group. It's very common to do so after flowering, but entirely unnecessary. Use good drainage and more sun than you think would be prudent. Overall, they are more like Heuchera than Tiarella in culture. Some do better in Southern heat and high humidity than most Heuchera!

x Heucherella 'Burnished Bronze' PP12159 EU13528

This has large cut leaves with a glossy, burnished bronze finish. Top this off with starry, soft pink flowers on branched stalks and you have an amazing plant. Flowering repeats in the summer as well. One of Dan's favorites!

Z 4-9 ☀ 🌱 🌿 14/8/18

x Heucherella 'Dayglow Pink' PP12164 EU11469

Blooming with hundreds of branched, brilliant pink flower stalks, this hybrid stunned us from day one. The greatest thrill in hybridizing is to hit a color breakthrough. 'Dayglow Pink' comes through with flying colors. Leaves are cut with a chocolate inlay.

Z 4-9 ☀ 🌱 🌿 14/7/16

x Heucherella 'Kimono' PP12154 EU9997

One of our largest, most vigorous and showiest Heucherella, 'Kimono' has indescribable ornamentation of silvers, purples, and greens! The narrow, deeply dissected foliage with a dark chocolate center stripe are topped by summer blooms of creamy white. Tony Avent of Plant Delights was simply blown away with this plant and reports that 'Kimono' thrives in his southern garden. Killer metallic-rose winter color. Winner of the Medaille d'Argent in France in 2003 and an Award of Garden Merit.

Z 4-9 ☀ 🌱 🌿 20/12/24

x Heucherella 'Stoplight' PP16835 PVR

Large 4" screaming yellow and red centered spring leaves have shot this vigorous selection to the top of our Best Sellers list. Striking leaf coloration continues to intensify as leaves mature. 'Stoplight's texture and colorful foliage allows it to combine with red flowering annuals and perennials for multi-seasonal interest. Creates a focal point anywhere it is planted! Simply beautiful! Airy white flowers are produced in spring.

Z 4-9 🌱 🌿 14/7/16

NEW x **Heucherella 'Alabama Sunrise'** PPAF PVR

Changes color with the seasons! The deeply cut foliage, in spring to mid summer, is gold with red veins. In late summer, the leaves go to green with red veins. In fall, the older foliage turns orange pink. Small white flowers. A H. villosa hybrid therefore heat and humidity tolerant.

Z 4-9 🌱 🌿 12/12/20

x Heucherella 'Sunspot' PP14825 PVR

Feast your eyes on this brilliant form of 'Dayglow Pink' with electric yellow foliage and wine-red center patches. Blooms heavily with dozens of flamingo pink flowers adding to any spring color display. Foliage color softens to a pleasant buff for summer long interest.

Z 4-9 🌱 🌿 14/7/16

Ligularia 'Britt-Marie Crawford' PP16113 EU12794 (Crawford)

Giant 12" leaves of glossy black create mirrors in the garden! This darkest Ligularia to date exhibits extreme vigor providing a dramatic backdrop for infinite color combinations! Daisy-like flowers of golden orange emerge in late summer. Create a tropical mood with this hardy "must have" perennial.

Z 4-9 ☀ 🌱 🌿 🌿 16/16/45

NEW **Lobelia cardinalis 'Golden Torch'** PPAF PVR (Horvath)

(Golden cardinal flower) A fabulous combination of gold foliage and bright red flowers discovered by Brent Horvath of Intrinsic Perennial Gardens. In spring and early summer the bright gold foliage stands out in direct contrast to the brilliant scarlet two-lipped flowers which emerge from July to September. Great for moist spots.

Z 3-9 ☀ 🌱 🌿 15/12/24

Lobelia 'Grape Knee-Hi' PP13264

(Cardinal Flower) By backcrossing to an extremely dwarf form of the very hardy Lobelia siphilitica, we've come up with a true dwarf cardinal flower with deep, purple flowers! Not only is this plant dwarf, it's also sterile! This prolongs the bloom time.

Z 6-9 ☀ 🌱 🌿 🌿 15/22/25

Lobelia 'Monet Moment' (Maness)

(Cardinal Flower) We were amazed by two of this plant's traits - immense flower size, and MASSES of flowers. The vigor of this plant is extraordinary. If Monet ever had "a moment" it would be reflected in this gorgeous rose pink beauty from Thurman Maness.

Z 4-9 ☀ 🌱 🌿 🌿 16/20/36

LOBELIA 'GOLDENTORCH'

LOBELIA 'GRAPE KNEE-HI'

LOBELIA 'MONET MOMENT'

Deeply Cut Foliage
Changes Color
Through the Year!

**A Hardy Heuchera
Relative from China!**

MUKDENIA 'CRIMSON FANS'

PENSTEMON 'DARK TOWERS'

PETASITES 'GOLDEN PALMS'

**Foliage is Darker
Than P. 'Husker's Red'**

Mukdenia rossii 'Crimson Fans' (syn. 'Karasuba')

Mukdenia is a very hardy, deciduous Heuchera relative from China. This form has large maple-like leaves, which emerge green then age (after flowering) to mid-green splashed with bright red. Foliage remains red all summer. Numerous white, bell-shaped flowers are held in branched panicles for several weeks from February to April. Can be used as a groundcover or specimen in part shade. This stunning plant is actually hardy in Vermont! Likes even moisture and remember, it is not as fast growing as a Heuchera. Best grown in a 4" pot before shifting to a gallon container. Limited.

Z 4-9 15/12/16

NEW Penstemon 'Dark Towers' PPAF PVR (Lindgren)

Glossy bronze-red foliage is topped with masses of pink flowers in July and August. Compared to 'Husker's Red' this beauty has much darker foliage, which stays darker and does not flop. Dale Lindgren of University of Nebraska created this dark leaf ultra-hardy, pink flowering form. A tough, carefree plant which tolerates high heat and humidity. A perfect dark background plant for the border.

Z 3-8 30/33/36

Petasites frigidus var. palmatus 'Golden Palms' (Pavlich)

A wild sport collected at 1500' in the Northwest by Chuck "Eagle-eye" Pavlich. Shimmering metallic golden "palms" a foot wide arise in early spring preceded by cream male flower spikes from February-April. Thrives in moist conditions. Requires shade in southern climes and needs sun elsewhere for best color. Offered as bare root only.

Z 6-10 15/12/15

Podophyllum (Asian Mayapple)

All of our Podophyllum prefer shade, moist, and cool, well composed soil. Avoid drought stress. Protect from hard frosts in spring. Loves organic fertilizer or compost tea.

Grower Note: Keep the crowns of the plants from being buried too deeply as it can cause rot. They do come back after treatment, but it takes time. Do not force the plants into growth; slow and steady is the rule. Grow in a cool house for best color. Make sure the plant doesn't dry out as this may induce dormancy.

Podophyllum 'Kaleidoscope' PP14460

(Asian Mayapple) "The" plant to have! Astounding! Exotic! Breathtaking! One runs out of adjectives to describe this "way-cool" relative of our Mayapple. Of Himalayan origin, this hybrid member of the barberry family produces umbrella-like hexagonal leaves, parallel to the ground. Each is liberally splashed with bronze and silver. If the 20" wide leaves weren't enough, it produces 7 to 20 burgundy red flowers when mature, each measuring nearly 2 inches in length! Most sell here for \$40 for a gallon pot. Crowds will encircle them. We've seen it. Protect from late spring frosts.

Z 7-9 16/18/17

Podophyllum 'Spotty Dotty' PPAF PVR

(Asian Mayapple) This brilliant hybrid of several Asian Mayapples boasts large, VIGOROUS, lobed umbrella shaped leaves. Leaves are chartreuse with dramatic and bizarre chocolate-brown spotting throughout the spring. Like nothing you've ever seen! In summer, the leaves are green with lightly spotted areas. Huge garnet-colored flowers are found under the leaves in clusters of 5 or more. This form was selected for its coloring, more frost tolerance, vigor, and rhizomatous habit.

Z 6-9 24/18/17

See me on page 5

PHILODENDRON
'PINK PRINCESS'

Polemonium caeruleum 'Snow and Sapphires'

PP13441 (McDonald)

(Variegated Jacob's ladder)
Clean white variegation surrounds the larger fern-like leaflets. The foliage mound gives up sky-blue flowers whose fragrance can be enjoyed from 3-5 feet away. Deadheading can encourage rebloom. It has rebloomed 3 times here with deadheading. Vigorous and long-lived.

Z 3-9 16/10/11

Polystichum sp. 'Shiny Holly'

(syn. 'Spiny Holly') (Jones)

(Shiny Holly Fern) This recently collected evergreen fern has a wonderful, clean, shiny look, and plastic-like texture. Deep green foliage year round looks great in the fall, winter and in spring with early bulbs. The emerging fronds are also a sight with huge coppery scales unfurling. From Judith Jones at Fancy Fronds. Easy to grow and use in the woodland garden or containers for long lasting beauty.

PULMONARIA 'HIGH CONTRAST'

PULMONARIA 'VICTORIAN BROOCH'

PULMONARIA 'MOONSHINE'

PULMONARIA 'EXCALIBUR'

Pulmonaria

Terra Nova Pulmonaria breeding has focused on vigor, flower size, color, plant habit, and mildew-resistance. Being one of the earliest perennials to bloom, they combine wonderfully with spring bulbs, Dicentra, and Corydalis.

Pulmonaria 'Bubble Gum' PP14086 EU16876

(was also sold as 'Sunset')

True pink has been elusive in the Lungwort world. 'Pierre's Pure Pink' ain't, and most others have a salmon or coral effect. 'Bubble Gum' fills this gap. Dense, upright flowering habit and silver spotted leaves develop into a compact, mounding form. Mildew resistant.

Z 4-9 D ● 🌱 🌱 12/8/9

Pulmonaria 'Cotton Cool'

This long-blooming English introduction sports attractive upright leaves that are entirely silvered. We looked at 'Majeste' and 'Cotton Cool' in our trials and of the two, 'Cotton Cool' never mildewed. Good blue flowers appear in April in clusters of smaller flowers. A cool addition to shady areas but will take morning sun. Combine with Heuchera. Cool, daddy-o!

Z 4-9 D 🌱 🌱 19/12/14

Pulmonaria 'Dark Vader' PP12333 EU11550

A fine, mildew resistant plant with a super strong habit. Silver spotting and pink to dark blue flowers adorn this plant. This is one of Dan's favorites.

Z 4-9 D 🌱 🌱 19/10/11

PULMONARIA 'BUBBLE GUM'

PULMONARIA 'DARK VADER'

Pulmonaria 'Excalibur' PP8958

Shiny silver leaves edged in dark green give rise to spring masses of purplish-blue flowers held tightly against the foliage in spring. Extremely mildew-resistant (see winter 2001 PPA journal). A great shade & woodland garden plant with a proven track record.

Z 4-9 D 🌱 🌱 20/9/9

Pulmonaria 'High Contrast'

PP12337 EU11566

'High Contrast' has brilliantly contrasting foliage and one of the best track records of all of our Pulmonaria in the hot summers of the Midwest and South. Large pink flowers fade to blue over mildew resistant foliage. Nice mounding habit. Wavy, spear-shaped leaves are dark green, infused with melting silver.

Z 4-9 D 🌱 🌱 18/9/9

Pulmonaria longifolia ssp. cevennensis

This superb landscape Pulmonaria has the best of both worlds. Long, silver, spear-shaped 26" leaves are highly mildew resistant and provide the perfect backdrop for an EXTENDED floral show. Large, midnight-blue flowers are wider than the typical

PULMONARIA CEVENNENSIS

longifolia species. The PPA gave this subspecies from the Cevennes (a region in France), the highest mildew resistance rating in their trials.

Z 4-9 D 🌱 🌱 24/18/12

Pulmonaria 'Milky Way'

This plant offers the stellar combination of lance-shaped, heavily spotted leaves and pink-wine blooms that fade to blue. Strong spotted leaves are of mildew-resistant P. 'Margery Fish' heritage. Tony Avent of Plant Delights Nursery feels it's the best form for the south!

Z 4-9 D 🌱 🌱 12/15/10

Pulmonaria 'Moonshine'

PP13686 EU14325

Our flashiest Pulmonaria with great garden vigor, compact growth habit, and mildew resistance. Shimmering silver-white leaves are rounded with a thin edge of darkest green. Heat and humidity tolerance make it a good choice for the South. One of the favorites of the entire Terra Nova breeding team! Small, pale, blue-white flowers.

Z 4-9 D ● 🌱 🌱 12/14/16

Pulmonaria 'Raspberry Splash'

PP12138 EU11545

Very profuse flowering on this sun tolerant hybrid. Dusky raspberry-coral flowers arrive in early spring to herald the strongly silver-marked, sharply pointed, very upright

PULMONARIA 'COTTON COOL'

PULMONARIA 'RASPBERRY SPLASH'

PULMONARIA 'MILKY WAY'

PULMONARIA 'TREV FOUNTAIN'

PULMONARIA 'SILVERSHIMMERS'

**Blooms Continuously
From Late Spring to
Frost!**

SCABIOSA 'VIVID VIOLET'

TRICYRTIS 'IMPERIAL BANNER'

**NEW Rudbeckia
subtomentosum 'Henry Eilers'**
(Lowman)
(Quilled sweet coneflower) Charming
blooms of unusual gold quilled petals
highlighted by chocolate-brown button
centers. Good for cut flowers. A narrow
upright grower which makes a great
specimen in the back of the border. Very
appealing in the late summer. Introduced
by Larry Lowman of Ridgecrest Nursery.

Z 4-8 ☀ 🌿 24/48/60

Sanicula caerulea

(Blue Sanicle) Hundreds of dainty
sky-blue, flowers stand on black stems
over the divided bronze-green foliage
on this low-growing groundcover. This woodland
gem has a compact, creeping habit with flowers
emerging in early summer, and continuing thru
fall. This ever-blooming new groundcover has
enchanted all who have seen it!

Z 6-9 ▶ ● 🌿 12/4/6

NEW Scabiosa 'Vivid Violet' PPAF PVR
(Hybrid pincushion flower) Large, vivid violet
pincushion flowers set atop low mounds of frilly
foliage. Very heavy flowering and will bloom
continuously from late spring to frost. Vigorous
grower! Nice.

Z 4-9 ☀ 18/11/15

Sedum (Stonecrop)

New breeding has yielded a great new group of
cultivars which are more compact and less likely
to do the Sedum "fall apart" swan song in mid-
season. The flower masses are truly a sight to be
seen, many times covering the foliage entirely

Grower Note: All Sedum are sensitive to chemical applications
and require good drainage and low fertility (reduced N levels).

Sedum 'Cloud Walker' PP17406 PVR

'Cloud Walker' beautifully combines large mauve
blooms and dark tinted foliage. A S. spectabile
hybrid with vase shaped, open branching habit
that creates a new look in blooming hybrid Sedum.
The 6-8" airy flower clusters are layered in
patterns reminiscent of clouds.

Z 4-9 ☀ 🌿 16/15/17

Sedum 'Mr. Goodbud' PP17671 PVR

This dusky new S. spectabile hybrid has tight
foliage and strongly contrasting colors between its
light buds and dark mauve flowers. Richer tones
and better foliage than S. 'Brilliant'. Upright habit
and short stature. Dan's favorite of this trio. Won
an AGM (Award of Garden Merit) from
the RHS in 2006.

Z 4-9 ☀ 🌿 14/15/17

☀ = Full Sun ▶ = Partial Shade ● = Shade x/x/x = Spread/Foliage Ht./Flower Ht. (inches on a 2
year old plant) 🌿 = Fragrant 🌿 = Cut Flower 🦋 = Butterfly 🐦 = Hummingbird
🌿 = Japanese Origin ∞ = Tropicalismo 🏠 = House Plant 🦌 = Deer Resistant

Sedum spectabile 'Hot Stuff'
PP17212 PVR

The SHORTEST S. spectabile on the
market! This seedling of 'Brilliant'
bloodlines forms a tight 10" mound of
foliage covered by domes of bright pink
flower heads!

Z 4-9 ☀ 🌿 14/10/12

Sisyrinchium 'Devon Skies'

(Blue eyed grass) This showy, grass-like
clumper is covered with dozens of large,
sky-blue flowers for weeks in midsummer
atop deer resistant foliage. It blooms all
summer in the NE and South tolerating
heat, humidity, poor soils, and drought as
long it has good drainage. Super in the
rock garden or front of the border (It's
sterile too!).

Z 7-10 ☀ 🌿 10/4/6

**NEW Stokesia laevis
'Purple Pixie'** PPAF PVR

(Stoke's Aster) The first dwarf Stoke's
Aster! Large violet blue flowers emerge
over a plant with a short, compact habit
combine to a form that doesn't open up
(fall apart) with maturity. Blooms in early
July with sporadic rebloom. Also grows
great in high heat and humidity!

Z 5-8 ☀ 🌿 14/9/11

**Thalictrum sp.
'Black Stockings'**

(Meadow Rue) This tall beauty has long,
nearly black stems, contrasting green
leaves and is topped by fluffy lavender
flowers in large flat-topped corymbs. Very
showy for the back of the border. Needs to
be vernalized to bloom.

Z 5-9 ▶ 🌿 🌿 24/48/48

Tricyrtis 'Imperial Banner' PPAF

A very elegant sport of T. 'Empress'
with cream and deep green variegated
leaves and dark stems. The orchid-like
flowers are heavily purple spotted over a
white base. Flowers from August through
September atop a compact plant. Prefers
moist, woodland conditions. The Japanese
will hold this one high! The roots need to
be warm to express variegation.

Z 5-9 ▶ ● 🌿 12/18/18

Tricyrtis hirta 'Lightning Strike'

Its variegated and gold-striped leaves
vary to a light center with a dark green
"lightning" along the edges. Lavender
flowers come into view in fall. Keep moist
for best growth.

TIARELLA 'PIRATE'S PATCH'

TIARELLA 'NEON LIGHTS'

Tiareella (Foam Flowers)

This genus is indispensable in the woodland/shade garden. These shade loving groundcovers thrive in moderately moist, humus rich soils. Tiarellas have many great attributes; evergreen foliage (in the NW), winter color, fragrant spring flowers, and attractively marked and shaped leaves.

Tiareella 'Candy Striper' PP15528

Lush green leaves sport a dark stippled stripe down each leaf lobe. Its mounding habit, huge leaf size, pink flower buds, and white, foamy flowers are tantalizing. Possibly our largest foamflower, Candy Striper combines strikingly with Athyrium 'Burgundy Lace' and Pulmonaria.

Z 4-9 12/10/14

Tiareella 'Crow Feather' PP12335 EU13663

Bright green leaves, cut, and deeply marked with a black feather. Probably the best winter color of ALL Tiarella - simply stunning with a brocade of pinks, reds, purples, and blacks. A strong grower with a mounding habit and bright pink spring flowers.

Z 4-9 11/8/12

Tiareella 'Iron Butterfly' PP12396 EU9848

Large, fragrant flowers, striking, contrasting, cut foliage, and beautiful plant form combine into what is one of the most widely distributed Tiarella in the world. Dan saw this blooming in Chicago in mid-October! Winner of a Silver Award at Plantarium in Holland '00.

Z 4-9 11/8/16

Tiareella 'Jeepers Creepers' PP13437 EU11504

Most running forms of Tiarella are blasé; they run too fast, and their flowers are often insipid. 'Jeepers Creepers' is the answer: Bold, well marked foliage, creeping (not running) habit and large white flowers. It has one of the best winter contrasts of all of our foamflowers.

Z 4-9 24/7/12

Tiareella 'Neon Lights' PP13289 EU13669

The blackest, black centered, palmate-cut leaves are edged with contrasting neon-green in spring and topped with large white flowers. This huge leaved cultivar glowed in our trials and has earned respect at the retail front.

Z 4-9 22/8/16

Tiareella 'Pink Skyrocket' PP13382 EU13697

Our BEST pink flowering Tiarella! One of our wild outcrosses shot up with this sparkling salute. Explosive heads of shrimp pink are held above the marvelously cut and marked foliage. This is a new flower form for the genus. Fall color in full sun is burnished bronze and in shade is deep shiny black.

Z 4-9 12/6/11

Tiareella 'Pirate's Patch' PP14907 EU17429

Broad, uncut leaves with a patch as dark as a pirate's heart. A breakthrough plant with outstanding habit with its low, creeping stems. Over 250 flower spikes

TIARELLA 'JEEPERS CREEPERS'

(a record) on a mature plant make this Ken's favorite foamflower. Good bronze fall color.

Z 4-9 12/5/10

Tiareella 'Spring Symphony' PP12397 EU9847

A smooth melody of compact foliage with leaves "painted" with black along the mid-rib. Profuse, light pink flowers reach their crescendo in mid-spring.

Z 4-9 10/7/10

TIARELLA 'CANDY STRIPER'

Tiareella 'Sugar and Spice' PP16738 PVR

This plant is everything nice, and it IS Dan's very favorite Tiarella in the whooooo world! Dramatic, lacy leaves with painted, heavily marked centers are seen in summer to winter. Lightly fragrant, spring flowers are uniquely "frosted with pink with a white interior," says Ken. The shiny leaves appear to be lacquered and look fabulous all year here at the nursery!

Verbascum (Mullein)

Terra Nova's Breeding Team has been up to some of the best improvements this genus has seen to date. Verbascum were once tall, lanky, sparsely flowered, and anemically colored. Our new clones are compact, supremely branched, floriferous, vigorous, and have flowers that are larger, with more color and presentation. (All species are deer resistant too!) The TN Team stresses the sterility of these hybrids. . . Why? Because they rarely stop blooming! Mullein seed strains simply stop when finished blooming. Shearing the old stalks to the new buds assures a neat plant. Some varieties may exhibit a few drops of black exudate on the stems which is normal and natural. Good drainage is essential for best garden performance!

Verbascum 'Dark Eyes' PP16986 EU19206

Absolutely unique form displays pyramids of bloom! Large dark, red-centered sterile flowers in shades of pale yellow on very tight but wide spikes. Individual flowers have purple stamens and an orange pistil. The leaves are silver and have a rugose texture. This is our most dwarf Verbascum to date – so low it can be planted en masse as a groundcover!

Z 5-9 ☀ 🌿 🌱 🌱 10/8/12

Verbascum 'Gold Nugget' PPAF PVR

This super compact plant has soft golden-yellow, sterile flowers that are held close to the lovely silvered foliage. Drought tolerant and needs good drainage.

Z 5-9 ☀ 🌿 🌱 🌱 14/8/18

Verbascum 'Honey Dijon' PP17170 PVR

Numerous flower heads boasting hundreds of hefty flowers in shades of peach and gold, with a plum eye over compact, sterile plants! Will rebloom after cutback. Foliage is like felt. Wonderful when combined with Echinacea 'Hope' and Heuchera 'Marmalade'.

Z 5-9 ☀ 🌿 🌱 🌱 14/8/18

Verbascum 'Lavender Lass' PP16658 PVR (as 'Lovely Lass' in EU)

Masses of summer-long bloom create a gigantic display of color. Shades of lavender and plum arise from compact plants atop this sterile bloomer! Foliage is quite ruffled. One of Dan's favorites.

Z 5-9 ☀ 🌿 🌱 🌱 14/8/23

Verbascum 'Lemon Sorbet' PPAF PVR

These reblooming (and sterile) clear lemon blooms decorate a well behaved clump. This drought tolerant hybrid is perfect for the Southwestern garden with glowing flowers lasting well into summer heat.

Z 5-9 ☀ 🌿 🌱 🌱 14/8/18

Verbascum 'Royalty' PPAF PVR

Only 12-15" tall in bloom with more than 80 blooms per branch! Our richest royal-violet flowers atop compact 12" tall clumps add a new and

VERONICA 'AZTEC GOLD'

needed color to our Verbascum palette. Use in containers or in the garden and cut back the sterile flowers for more flower show.

Z 5-9 ☀ 🌿 🌱 🌱 10/6/12

Verbascum 'Sugar Plum' PP16224 EU17455

You will be amazed at the large, clear plum flowers on numerous spikes. This dwarf reblooms for months in full sun with Delphinium-sized flowers.

Z 5-9 ☀ 🌿 🌱 🌱 12/8/18

Veronica prostrata 'Aztec Gold' PP13354 EU13144

(Golden Speedwell) Brilliant gold foliage spreads in congested mats and is complimented by rich blue flowers in May. This versatile groundcover works well in mixed containers, hanging baskets, over walls, etc. Great to contrast with our top selling black leaved Heuchera 'Obsidian' and our variegated Silene 'Valley High'. Foliage goes chartreuse in partial shade, which is still very nice!

Z 3-9 ☀ 🌿 🌱 🌱 GC/3/6

NEW Viola 'Heartthrob' PPAF PVR

(Perennial violet) Bold foliage with a strongly contrasting deep burgundy splash. Wonderful foliage plant. Strong textured leaves are attractive in containers, the front of the border, or as a ground cover.

Z 5-9 🌿 🌱 12"/8"/7"

Yucca filamentosa 'Color Guard'

Tantalizing tufts of yellow centered foliage make a great addition to the garden. Awesome coral winter color along the stripes. Growth is superior to other clones of Yucca filamentosa. Creamy white, fragrant flowers on large spikes.

Z 4-9 ☀ 🌿 🌱 🌱 24/20/36 (in 4 years)

Yucca rostrata 'Sapphire Skies' (Cistus)

(Blue beaked Yucca) Elegant, short leaf selection, with gorgeous powder blue-colored leaves which hold their color year-round. Over the years it will form an upright, unbranched tree with a stout trunk to about 4'. The hardiest of the trunk forming Yucca.

Another rare and exciting plant find brought to us from our friends at Cistus Nursery, Sean Hogan and Parker Sanderson. Prefers alkaline soil and needs excellent drainage.

Z 5-9 ☀ 🌿 🌱 🌱 (if winter dry and with wind protection) 16/16/36 (in 4 years)

Year Round
Evergreen Color!

BEAT THE HEAT WITH OUR SUMMER SIZZLERS

You want plants that can grow in the South!

Terra Nova hears you. Hot, humid summers can test the mettle of many perennials. We have put our breeders and plant finders out to come up with plants that not only survive the summer, but thrive in the summer!

Check out our SOUTHERN BELLS™ series of Heuchera and Heucherella. 'Georgia Peach' and 'Southern Comfort' Heuchera and Heucherella 'Alabama Sunrise' offer a new palette of foliage colors, all using blood from Heuchera villosa – a native of the south!

Our Coreopsis selections are bred with a Southeast U.S. native, no stranger to heat and humidity.

Begonias, Pulmonaria, Sedum to Zantedeschia. All can have a place in the Southern Garden. Xanthosoma 'Lime Zinger' develops gigantic leaves in high humidity – bring on the heat!

If you have a plot with a "jungle-like" climate, let us fill your pots and gardens with the Terra Nova touch!

Where Passion Meets Vision.

14 years ago two plant geeks had a plan. “Omigod!” said hortiholic Dan, “with our skills, we could do a lab – we could multiply the coolest plants in the world and sell them to gardeners everywhere!” Ken said, “I can handle the science. I can set it up. Let’s get to work!” And work they did. Today, with their perseverance, Terra Nova has spread to fifteen acres of trial beds, greenhouses, gardens, and a recently completed laboratory for research and the production of millions of the newest plants in the marketplace.

This couldn’t be done alone. Our breeding, sales, shipping, and growing staff has done an incredible job supporting Ken and Dan’s dream of being one of the world’s top plant introduction teams. In addition to the plants we’ve bred, our work with other breeders and Dan’s trips around the world have brought a plethora of new and showy items to horticulture; over five hundred to date! We’ve joined with strategic partners from the U.S., Germany, New Zealand, Holland, and Japan to bring our plants to an expanding market worldwide.

What will the future bring? New plants and better plants. The sky’s the limit, and as Walt Disney once said, “It’s kind of fun to do the impossible.”

A summer beauty. Lovely light, peachy-yellow flowers with red eyes all summer. In the cool days of spring and fall the flowers take on a wine rose blush. Bright green mounds are covered with large flowers. Easy to grow and doesn't seed around. (LIMITED)

Common Name: Hybrid Tickseed
Plant Type: Hardy herbaceous perennial.
USDA Hardiness Zone(s): 5-9
Habit: Mounding
Size (W/H/FL HT): 32"/24"/26"
Soil: Average, well-drained.

Cultural Sheets

Marietta's Magic
Marietta O'Byrne is considered (even by other breeders) as one of the best Helleborus hybridizers in the world. Her quest for perfect true color strains has taken her to all ends of the globe. For more than 15 years, Marietta has had detailed breeding records as she strives for superior vigor and flower form. We are honored to be the first commercial nursery to introduce her handwork. To ensure your success with these shade tolerant and deer resistant gems, we're offering them in a special line of 30 cell Jumbo Plugs! Limited quantity.

Heuchera Mellow Yellow Strain
Over 15 years of intensive hand breeding.
True color strain of single yellows with occasional rose spotting.
Large 1 1/2" mounded flowers.
#1 deer resistant shade perennial.
Exclusive introduction from Terra Nova.

FOOTNOTES

- **Zone** - Minimum USDA zone for mature, established plants
- **Exposure** - For acclimated mature, established plants
- Foliage spread, height for two year old, well grown plants
- Flower height for two year old, mature plants
- **Deer resistant** - They fare better than others. No plant is deer proof
- **Drought tolerant** - Tolerate summer low water use
- **Bloom time** - Month of bloom for mature, vernalized plants in Oregon
- **Finish time** - From 72 (or 50) cell:
 - **S** = Slow (9-12 weeks)
 - **M** = Medium (6-8 weeks)
 - **F** = Fast (4-6 weeks)

KEY TO SYMBOLS

PPAF = US Plant Patent applied for or pending
PP# = US plant patent number
PVR = European plant variety rights pending
EU# = European plant variety rights number
R = Royalty paid to breeder/originator
☀ = Full sun
☀ / ☐ = Full sun to part or morning shade
☐ / ● = Part shade to full shade or morning sun
☐ = Part shade or morning sun
● = Shade or filtered light required
GC = Ground cover, spreading plant
🦋 = Deer resistant
DT = Drought tolerant
🦋 = Fragrant
W = Winter color

Garden Writers - Portland, OR (September 19th-21st, 2008)

KEY TO SYMBOLS:

New for 2008

Terra Nova Tags must be purchased for all Patented & Patent Pending plants. If you currently have your own tag program & can provide Terra Nova with a sample of your tag per variety that includes the Patent or Patent Pending information, purchase of Terra Nova tags will not be required. Tags for PP, PPAF, & PVR plants will be automatically added to your order unless proof of existing tags with matching info is provided.
