2009

As one can see by our remarkable cover, we have been busy at Terra Nova! From the electric gold Geum ‘Eos’ to the metallic-berry of Heuchera ‘Berry Smoothie’, we have once again come up with an amazing 45 NEW plants for horticulture!

Ernie and Marietta O’Byrne have graced us with the exclusive launch of some fantastic double Hellebores in every color from slate blues to red-edged ambers. Harini Korlipara and her Echinacea team have released some new knockouts from the double ‘Coral Reef’ though the bicolored ‘Flame Thrower’ to the diminutive ‘Little Angel’. Janet Egger on the Heuchera front has introduced ‘Electra’ with its gold leaves and year round electric red venation to the most elusive color – the deep red-leaved ‘Fire Chief’. Heucherella ‘Sweet Tea’ is my current favorite foamy bell. Its warm-orange tones will make this an irresistible plant in the nursery. It’s vigorous - filling a pot quickly.

‘Sparkler’ is a fab Ajuga with a twist, Athyrium ‘Lady in Lace’ is a departure from all others and for the Begonia lovers, we present my ‘Silver Splendor’, a palmate, silvery tribute. Offering major flower-power is our selection, Nepeta ‘Blue Dragon’ with roots from China.

Customers have requested “native-appearing” Tiarella with BOLD markings and a great running habit. We have come through with ‘Cascade Creeper’ and ‘Happy Trails’. Our first new Pulmonaria in years, ‘Silver Bouquet’ not only lights up the shade, but feeds the hummingbirds, and is deer-resistant to boot! What more? A dwarf Ligularia, a new golden Tradescantia (with lavender-pink flowers), a new Leucanthemum, some new looks for Coreopsis, a new warm orange Agastache... I’m running out of breath! We are SO excited and so proud of our new launches! Explore the catalog and bring your customers the amazing plants they crave!

AGASTACHE 'SUMMER FIESTA' ▲

AGASTACHE 'SUMMER SKY'

AGASTACHE 'COTTON CANDY' ▲ AGASTACHE 'SUMMER GLOW' ▼

Breeder's Goals for Agastache

- More weather resistance
- The longest lasting flowers in the industry
- Non browning calyces mean longer lasting color
- Better habit for more garden and container uses
- Broad color palette (better for use as fillers and thrillers)

Agastache 'Cotton Candy' PPAF PVR

(Hummingbird mint) This easy, vigorous grower blooms non-stop from midsummer through fall. **The dense flower spikes have numerous light pink flowers.** Compact low branching habit. Tolerates dry conditions and summer watering. All Agastache are popular with hummingbirds. Needs good drainage.

Z 6-9 ☀ 🌱 🌿 ✂ 🌧 🌞 20/18/25

Agastache 'Summer Sky' PPAF PVR

(Hummingbird mint) Blooms all summer with **glowing violet blue flowers with dark calyces which extend the showy season.** A compact habit with bright green foliage. Thrives under dry conditions, but needs some summer watering. All Agastache are popular with hummingbirds. Needs

good drainage.

Z 8-11 ☀ 🌱 🌿 ✂ 🌧 🌞 18-20/18-24/24

NEW Agastache 'Summer Fiesta' PPAF PVR

(Hummingbird mint) **Outstanding dense, spicy orange red spikes are weather proof and heat proof.** One of the best attributes of our Agastache is an unfading calyx that clasps the flower. The calyx does not brown like other Agastache, giving it a much longer lasting spike. Even without a single flower on the spike, it still appears to be in bloom! All our Agastache need good drainage.

Z 6-9 ☀ 🌱 🌿 ✂ 🌧 🌞 20/18/25

Agastache 'Summer Glow' PPAF PVR

(Hummingbird mint) **Lemon custard flowers glow against the pine green foliage** of this most charming, drought tolerant plant. The dark purple calyx extends the excitement. Plant with Nepeta 'Blue Dragon' (Page 20) and you'll have hummingbirds camped out in your garden. Blooms all summer. Requires good drainage.

Z 7-11 ☀ 🌱 🌿 ✂ 🌧 🌞 20/17/25

AJUGA 'BLUEBERRY MUFFIN'

NEW Ajuga reptans 'Blueberry Muffin' PPAF PVR

An extremely vigorous small leaved ground cover with dark NEW leaves and blueberry-blue flowers on eight inch spikes. **A much faster and stronger grower than A. 'Chocolate Chip'.** Leaves are thicker and more weather resistant to boot. What's cookin'? – This little cupcake!

Z 5-9 ☀ 🌱 🌿 ✂ 🌧 🌞 4/24/9

NEW Ajuga 'Sparkler' PPAF PVR

Entirely new! A sparkly NEW variegated Ajuga. **'Sparkler' has thick, dark green, shiny foliage covered in creamy-white splashes that light up the floor of a garden like nothing else.** Come winter, the variegated foliage takes on amazing pink tones. Warm weather with new growth brings out even more variegation. **'Sparkler' is the most vigorous and variegated Ajuga in our collection, and is an awesome accent or foil in containers, as a ground-cover or as an edging for the border.** Lovely blue flowers.

Z 6-9 ☀ 🌱 🌿 ✂ 🌧 🌞 3/12-24/3

NEW Athyrium filix-femina 'Lady in Lace'

(Lady Fern) Looking much like **prehistoric parsley**, this fun and fantastic fern is easier than it looks. Not finicky about much, this is truly a classy lady. Easy in the garden and a great fluffy filler in shady pots. **Distinctive and deciduous it joins its cousin 'Dre's Dagger' as a unique addition to your customer's garden.**

Z 4-9 🌱 🌿 12/12/-

ATHYRIUM 'LADY IN LACE' ▼

AJUGA 'SPARKLER' ▲

BEGONIA 'SILVER SPLENDOR'

BEGONIA 'MARMADUKE'

BEGONIA 'CURLY FIREFLUSH'

Begonia 'Curly Fireflush'

Dramatic spiraled leaves highlight this hybrid Begonia. Accenting the spiral is a red brown edge and center contrasting nicely with the deep green leaves. The soft fuzzy texture is from the minute red hairs. Keeps its foliage all winter. Pearl white flowers. Likes humidity.

Z 11-13 ● ☒ 18/24/25

NEW Begonia 'Marmaduke'

Maple shaped leaves have red splashing over a yellow-green background on this Big Begonia. A wonderful summer annual or house plant. Tall white flower spikes add a great bonus in winter. The Royal Horticultural Society was so impressed in this plant's strength and stature, that they gave it an Award of Garden Merit (AGM)! Easy and fast.

Z 10-11 ● ☒ 14/12/16

NEW Begonia 'Silver Splendor' PPAF

Newly bred by Dan Heims from hardy Chinese species, this upright Begonia is unlike any other. Smooth, platinum splashed, palmate leaves, look like a silver-leafed Japanese maple in the garden. Candy pink, heart-shaped flowers appear in late summer. It has not been fully cold-tested yet so we are offering as a tropical. Nevertheless, this is an outstanding addition to a container or used as a cool houseplant.

Z 10-11 ▶ ● ☒ 24/18/24

Begonia 'Madame Queen'

Stunning variety with large, glossy, copper-colored leaves, a ruffled and frilled edge, and a red reverse. Prominent light green veins radiate from the center of the leaves. Tall sprays of deep pink flowers. Vigorous grower. Upright rhizomatous type. Wonderful in containers.

Z 10-13 ● ☒ 16/18/16

NEW Brunnera macrophylla 'Emerald Mist' PPAF PVR (Walter's Gardens)

Splashes of antique silver "mist" over emerald green hearts creating a distinctive addition to your garden. Like a jeweler's best work this elegant, NEW Brunnera, is a garden gem. Superior markings over Brunnera 'Langtrees'. Light sapphire blue flowers hover over the foliage. Here's a cool one!

Z 4-9 ▶ ● ☒ 14/24/17

Campanula x pulloides 'Jelly Bells' PPAF PVR

Decidedly delicious with large, deep blue, nodding bells over a bright green mat of foliage. It can be used in a container where it will rebloom or in a rock garden. 'Jelly Bells' makes a vigorous and attractive low growing perennial, returning year after year. It prefers full sun and needs good drainage.

COREOPSIS 'STRAWBERRY PUNCH'

COREOPSIS 'MANGO PUNCH' ▲

COREOPSIS 'LEMON PUNCH' ▲

Coreopsis - The answer to a boring Mum market. Offer your customers an exciting and unique alternative to summer chrysanthemums! Our series of Coreopsis display a fresh flush of brilliant color throughout summer into fall. These are easy to grow annuals with a compact habit. They create ideal dollops of color in the garden. Perfect for containers, colorful borders and mixed plantings.

NEW Annual Coreopsis Series
Z 9-10 ☀ 🌿

Coreopsis 'Lemon Punch' PP19081 PVR
(patented as RP 4) (The Ivy Farm/Terra Nova)

Soft yellow flowers are lightly fluted and kissed with rose-pink. Lacy foliage provides a nice background for the free-flowering one inch flowers. A great mixer for containers or this compact plant makes a lovely foreground for the border. 12/18/12

Coreopsis 'Little Penny' PP18502 PVR
(patented as RP 1) (The Ivy Farm/Terra Nova)

Our tiniest member of the series is a flower machine! Numerous, small copper-colored daisy-like flowers emerge freely over a low pincushion. Blooms continuously all summer. A great one for summer pots! 8/16/8

Coreopsis 'Mango Punch' PP18475 PVR
(patented as RP 5) (The Ivy Farm/Terra Nova)

Luscious petals of mango-orange with a red overlay. One of the most admired plants in our Coreopsis trials due to its truly unique color, its mounding form, and its free flowering habit. 12/18/12

Coreopsis 'Rum Punch' PP18889 PVR
(The Ivy Farm)

Massive quantities of fruity watermelon pink flowers are good enough to drink! Blooms all summer over a mound of rich green foliage. Wonderful addition to the mixed border or in containers. Easy to grow. 12/18/14

Coreopsis 'Strawberry Punch' PPAF PVR

Cheerful blooms of deep-rosy pink pour on the charm in this, our "punch with the pink." Its low, mounding shape makes it a natural in containers or front and center of the border. 9/14/10

COREOPSIS 'RUM PUNCH' ▼

Echinacea (Coneflower) - The North American native coneflower is climbing the popularity charts for many reasons and the varieties coming out are so stunning! Our plants, based on the superior Echinacea purpurea ‘Ruby Giant’, have remarkably strong and branched, stiff stems, large, well-colored flowers with horizontally held, double row of petals. See page 29 for additional Echinacea information.

Enjoy the Terra Nova stamp of quality breeding:

- Amazing, non-fading blooms (for weeks)
- Superior quality blooms
- Bloom all summer
- Wonderful cut flowers
- Upright, well-branched habits in a wide range of heights
- Fragrance in all cultivars
- Drought and cold tolerance, once established
- All are low-maintenance North American natives

For our growers:

- Multiple crowns for faster finish
- Excellent stem strength for better shipping
- Good rebloom and long-lasting flower color extends shelf-life

For more cut flower ideas see page 27

NEW Echinacea ‘Coral Reef’ PPAF PVR

‘Coral Reef’ is characterized by **amazing two-toned double anemone-like 4” flowers with dark orange to coral rays** combined with a coral red cone. A full-sized Echinacea that is excellent as a cut-flower. A real show stopper. Its coral tones are great in combination with Agastache ‘Summer Fiesta’ and/or contrasting with dark leaf foliage like Actaea ‘Black Negligee’.

Z 4-9 ☀ 🦋 🐦 🏡 ✂ 🍷 🌿 30/28/36

NEW Echinacea purpurea ‘Little Angel’ PPAF PVR

Our NEW baby is just heavenly with **a profuse collection of fragrant white flowers over a dwarf plant**. Flowers are proportional to the foliage and this one makes a great mixer in containers or en masse in the border. ‘Little Angel’ shows her white wings for an extended period and even reblooms! **The first in our compact series.**

Z 4-9 ☀ 🦋 🐦 🏡 🍷 🌿 12/16/16

Echinacea ‘Mac ‘n’ Cheese’ PP19465 PVR

You can take comfort with these warm and tasty, **non-fading, 4 ½” blooms** covering our NEW Echinacea. Vigorous, well-branched stems are featured on this upright plant (to 26” tall). Their yellow rays are a perfect complement to E. ‘Tomato Soup’. Put them together for a summertime feast!

Z 4-9 ☀ 🦋 🐦 🏡 ✂ 🍷 🌿 21/18-24/26

Echinacea purpurea ‘Pink Poodle’ PPAF PVR

This pink “puppy” is prancing into the coneflower arena with **amazingly large and fluffy, 4” wide flower heads**. These **fully double bright pink blooms are a departure from the E. ‘Razzmatazz’ semi-double form** and feature strong, well-branched stems to 32” tall and excellent vigor. This was no “dog” in our trials! – It’s a Grand Champion!

Z 4-9 ☀ 🦋 🐦 🏡 ✂ 🍷 🌿 22/28-32/32

Echinacea ‘Tomato Soup’ PPAF PVR

Warm, non-fading, tomato-red flowers to 6” wide stunned our nursery visitors! A real treat to 32” tall and nearly as wide covered with flowers till frost! Plants are well branched and show excellent vigor. A natural pairing with E. ‘Mac and Cheese’.

Z 4-9 ☀ 🦋 🐦 🏡 ✂ 🍷 🌿 27/32/32

NEW Geum coccineum ‘Eos’ (Beeches Nursery)

One peek and you will see why this glowing gold foliage plant was named after the goddess of the dawn! **Bright orange flowers punctuate this golden statement.** The compact habit makes this plant a natural for sunny containers and for the front of the border in the garden. Easy and carefree.

Z 4-9 ☀ ● 🦋 6/10-12/11

ECHINACEA ‘LITTLE ANGEL’ ▲

GEUM ‘EOS’ ▼

A large, close-up photograph of several Echinacea 'Flame Thrower' flowers. The flowers have a dark red, spiky center and long, narrow petals that are a vibrant orange-red color. The background is slightly blurred, showing more of the same flowers and green foliage.

NEW Echinacea ‘Flame Thrower’ PPAF PVR

This reliable rebloomer has 3 ½” two-toned orange and yellow flowers that are hot, hot, hot! Add to this, a well-branched habit and you’ve got a great choice for the middle of the border or along a fence line. Here’s a fragrant selection that is easy to grow and blooms all summer. One of the earliest of the coneflowers to bloom for us in Oregon.

Z 4-9 ☀️ 🌿 🍷 🍷 🍷 🍷 36/40/40

A photograph of several Echinacea 'Tangerine Dream' flowers. The flowers have a dark green, spiky center and long, narrow petals that are a vibrant orange-red color. The background is slightly blurred, showing more of the same flowers and green foliage.

NEW Echinacea ‘Tangerine Dream’ PPAF PVR

Everything a great garden plant should be. **Elegant 4” clear orange flowers with wide, overlapping petals.** It has a better color than any variety we have seen and a lovely scent of honey. This is in our landscape series due to its multiple, wide-branching strong stems. Super for the sunny landscape, in mass or in a mixed planting. Great as a cut flower.

Z 4-9 ☀️ 🌿 🍷 🍷 🍷 🍷 27/30/30

A photograph of several Echinacea 'Heavenly Dream' flowers. The flowers have a yellow, spiky center and long, narrow petals that are a vibrant white color. The background is slightly blurred, showing more of the same flowers and green foliage.

NEW Echinacea ‘Heavenly Dream’ PPAF PVR

White-white clouds of flowers up to 4” wide adorn this low-branched wonder. This habit fits well into any sunny landscape, as a mass or in a mixed planting. Grab yourself a bit of heaven with this fragrant beauty. Echinacea are easy to grow in full sun with average soil and good drainage.

Hellebore Winter Jewels™ Double Strains (O'Byrne)

We consider Marietta O'Byrne to be the best Hellebore hybridizer in the world. This year, we are proud to offer for the first time, her **very large**, Winter Jewels™ double flowered strains in individual colors rather than as mixes. To ensure your success with these shade tolerant and **deer resistant** items, we're offering these in **30 cell jumbo plugs**. Plants are available in June '09. Limited quantities.

NEW *Helleborus x hybridus Winter Jewels™* (Double Lenten Rose)

Z 5-8 ☀ ▶ ● ♀ ✂ 🌱 12/24/14

Amber Gem

A double apricot dream! Blooms are yellow infused and blushed with red like a ripe apricot. **Perhaps the rarest of colors in Hellebores.**

Berry Swirl

Yummy **double orchid shades**, some with a creamy-white center kissed with orchid edging.

Cotton Candy

These double, **fluffy light pink flowers** are so appealing; you can almost taste the cotton candy.

Golden Lotus

Charming, golden, lotus-like flowers. Many of these double yellows will have red edges and some will have red streaking on the backs, as well.

Harlequin Gem

A whole group of double-flowered plants with **very complex colors**; the inside color contrasting with the outside. The inside can be streaked with red, green, or yellow, the outside is black or purple.

Jade Tiger

Catch this curious tiger with **double green flowers painted with purple edges**. The backs of the flowers are often streaked with purple.

Onyx Odyssey

Take a dark voyage into the world of **double slate, purple and black flowers**. Long lasting bloom color, which doesn't fade to green, makes this strain a better value in the retail store.

Painted Doubles

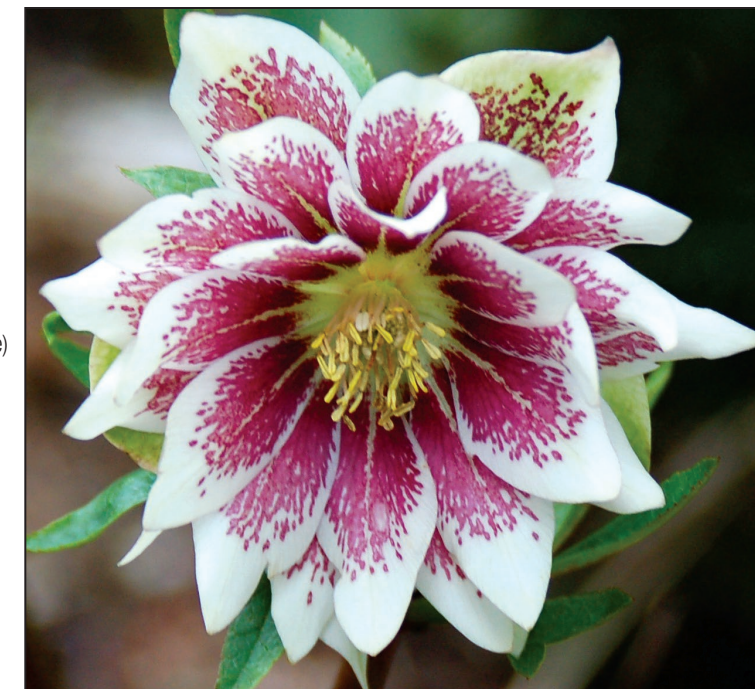

Like a artistic painted masterpiece, **this white double is adorned with red brush marks**.

Peppermint Ice

These large, double, pink picotees are so sweet! **Flowers are a fluffy, light pink** with a rim of darker pink edging. Dark pink on the back of the tepals adds to the appeal.

Sparkling Diamond

Marietta has worked hard to mine these very heavy flowering plants, producing a profusion of **double pure-white blooms**.

HELLEBORUS SPARKLING DIAMOND ▼

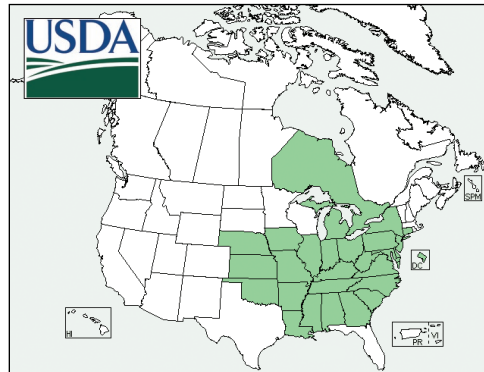

Heuchera are North American Natives

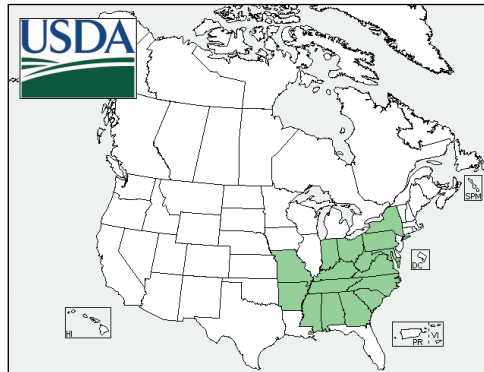

Our Heuchera varieties thrive in all conditions

Bred from carefully selected forms in North America, our pioneer breeding efforts are often copied. Terra Nova still brings the best of the best to the market, with the most testing and history behind each variety. Every year, thousands and thousands of seedlings are evaluated. Our worldwide network of test gardens ensures success in the global market. The USDA has provided proof that we cover more range in our breeding than anyone! (<http://plants.usda.gov/java/profile?symbol=HEUCH>)

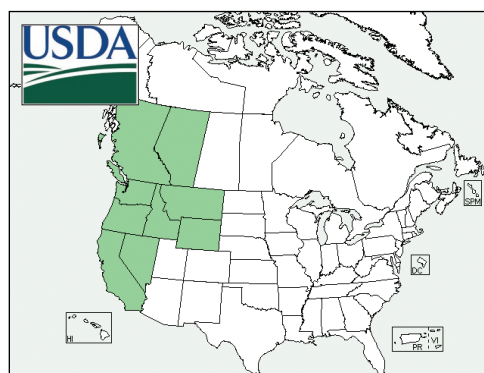

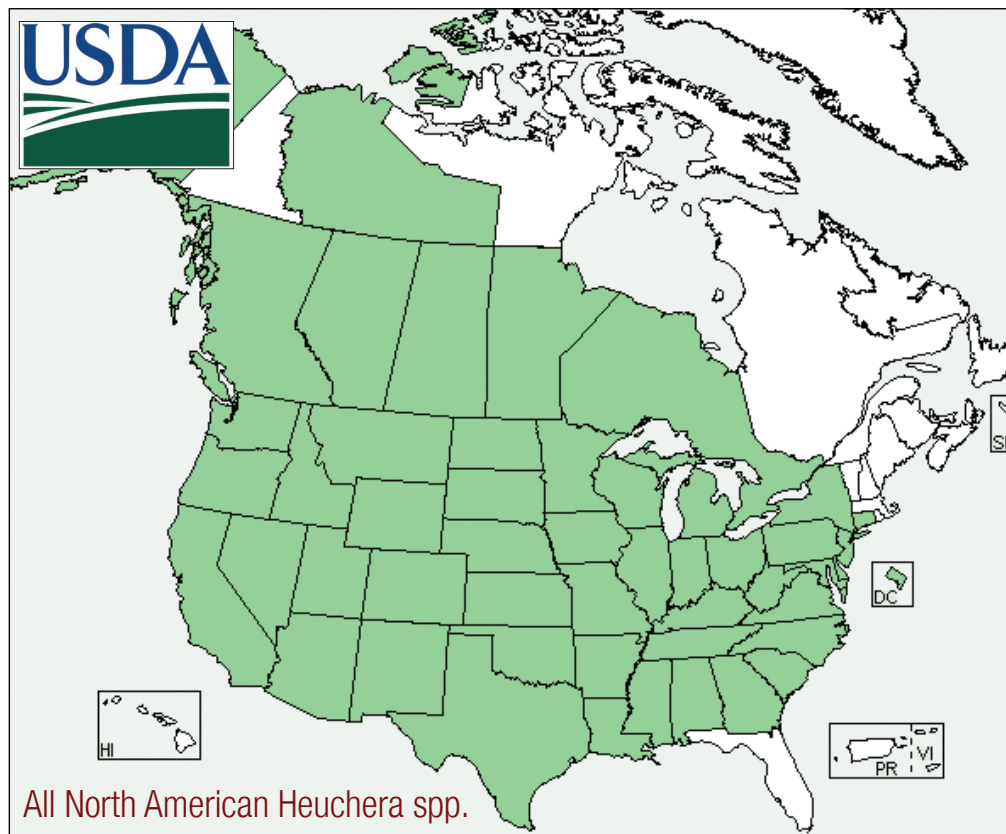

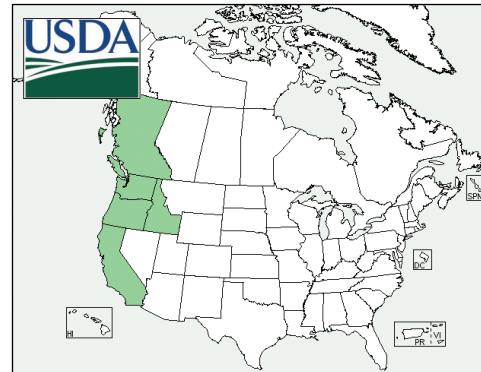

americana

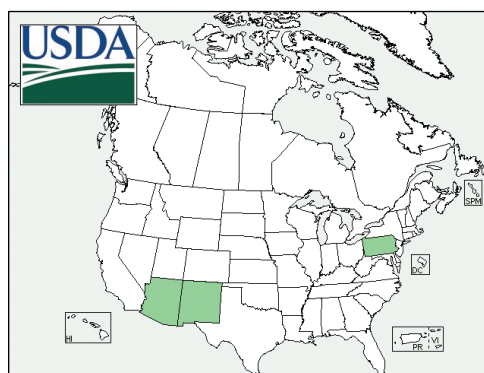

villosa

micrantha

cylindrica

sanguinea

- **H. americana** - Takes extremes of heat and cold. A durable beauty forms a great habit and fascinating leaf patterns.
- **H. villosa** - The heat seeking missile. Grows in a wide variety of climates. Takes humidity very well.
- **H. micrantha** - The source of ruffled and curled foliage that maintains its form into the winter. See page 25. This fantastic winter foliage helps to protect the crown from freezing winds. Native to the west coast, this species also imparts the best tolerance to wet feet.
- **H. cylindrica** - Compact wand flowers and habit. Imparts ability to survive harsh temperature extremes and drying winds.
- **H. sanguinea** - Drought and heat tolerant beyond belief. We owe our superb flower color range to this New Mexican native.

Wild Heuchera americana in Alabama

HEUCHERA 'ELECTRA' (PAGE 18)

- (A) - americana
- (V) - villosa
- (M) - micrantha
- (C) - cylindrica
- (S) - sanguinea

Our customers asked us to end the confusion of what Heuchera are best for their climate and region. To meet this challenge we developed the following "Key to your success with Heuchera."

americana
micrantha
villosa

HEUCHERA 'FIRE CHIEF' (PAGE 19)

- (FC) - Front & Center - Rebloomers with a smaller, tighter habit that is great for smaller pot sizes or the front of the border
- (AS) - All Star - Medium stature, multipurpose, can be used in all situations
- (LS) - Landscape - Largest plants that are more spreading and suitable for landscape applications

HEUCHERA 'BERRY SMOOTHIE'

NEW *Heuchera* 'Berry Smoothie' PPAF PVR

One of our biggest "wow" plants this year. Originally selected for its amazing spring color of rose pink, we were pleased to find a **big, bold habit with excellent color year round**. The large round leaves have colors from purple rose to rose pink. A delicious blend of heat loving *H. villosa* and cold tolerant *H. americana*.

Z 4-9 ► ● 🦋 🐦 🌿 🌸 18/18/28

NEW *Heuchera* 'Electra' PPAF PVR

Shocking, blood-red veins electrify the golden leaves of this startling NEW Heuchera. The red venation stays while the leaf changes from shades of yellow in spring, to chartreuse in summer and fall, and tan in the winter. Short, dense cones of white flowers. **This vigorous clumping *H. villosa* hybrid delivers what 'Tiramisu' promised.**

Z 4-9 ► ● 🦋 🐦 🌿 🌸 7/11/11

Heuchera 'Plum Royale' PPAF PVR

'Plum Royale' is the first Heuchera to have amazing, shiny purple leaves all summer! White flower contrasts beautifully with dark stems. Wonderful as an accent or en masse. Its habit is mounding. Present your garden with a NEW level of "Purplitude". Requires sun for summer color.

Z 4-9 ☀️ ► 🦋 🐦 🌿 🌸 10/14/12-20

AS V M

HEUCHERA 'FIRE CHIEF'

NEW *Heuchera* 'Fire Chief' PPAF PVR

Mid-sized leaves of glowing wine red make a gorgeous medium sized mound. These are topped with bicolored pink and white flowers on dark red stems. Foliage turns a little darker in the winter, but otherwise holds its wine red color. **Blooms continuously** in spring, summer, and fall like *H. 'Paris'*. "Come on baby light my fire..." You'll need to call the Fire Chief when you see this one!

Z 4-9 ☀️ ► 🦋 🐦 🌿 🌸 10/14/15

NEW *Heuchera* 'Lime Marmalade' PPAF EU-derived variety

A tasty lime foliage sport from TNN's finest amber foliage Heuchera, 'Marmalade'. Super vigorous and full of frills. **Like 'Marmalade' it is a tough plant and performs equally as well in the South as in the Northwest.** Compared to 'Lime Rickey', 'Lime Marmalade' features a bigger, "landscape sized" form. With ruffled lime colored leaves and a large mounding habit it is showy in containers as well as in mixed beds, and masses. Easy to grow with good drainage.

Z 4-9 ☀️ ► ● 🦋 🐦 🌿 🌸 10/18/16

Jimmy Turner from the Dallas Arboretum reports that "all Heucherella do well in the south".

NEW x *Heucherella* 'Sweet Tea' PPAF PVR

Huge cinnamon stars are surrounded by the loveliest orange tea colored borders. A new, instant classic for containers and garden. **Undeniably the most intensely colored Heucherella ever.** The big, palmately cut leaves darken in the summer and lighten up again in the fall. Its *H. villosa* breeding gives it a big bold habit, heat and humidity tolerance.

Z 4-9 ☀️ ► ● 🌸 20/28/27

x Heucherella 'Tapestry' PPAF PVR

Stunning multicolored and veiled foliage with free flowering stems of warm pink flowers. High contrasting dark-centered leaves are colored blue green in spring and summer and change to green with dark centers in fall and winter. New leaves have blue iridescence. Needs good drainage.

Z 4-9 ☀️ ► ● 🌿 🌸 7/16/20

LIGULARIA 'DRAGON'S BREATH' ▲

NEW *Leucanthemum x superbum* 'Paladin' PPAF PVR

(Shasta daisy) A new and unique flower-type for a Shasta! **Flowers resemble a Victorian collar - so ruffled and multi-layered.** Fill your customer's gardens with these superb flowers on stiff, upright stems. It produces so many crowns; it will fill your containers in no time. **An ideal cut flower**, or enjoy months of elegant flowers outdoors. **No unpleasant scent!**

Z 5-8 ☀ 🌿 ✂ 16/15/20

NEW *Ligularia przewalskii* 'Dragon's Breath' (Lichen)

(Ligularia) A small garden-sized version of this gorgeous foliage plant with "dragon fire" leaves. Northern California plantsman, Lichen, describes this gem as having a "darkly elegant" look. Showy black-stemmed scepters of fringed yellow blooms are in perfect scale to the plant. Captivating in a group or as a small accent in a container. Looks exotic and tropical; yet is undemanding. Thrives in a moist location.

Z 4-8 ☀ ▶ ✂ 🌿 13/22/31

NEW *Nepeta* sp. 'Blue Dragon' PPAF PVR

Our selection of this catmint has **huge blue flowers, which upon close inspection, do look like blue dragon heads!** This form is much shorter than the species with larger, showier blooms. Excellent in a sunny border or large container. Chris Hansen of Great Garden Plants loves this plant.

Z 5-9 ☀ 🌿 🌱 ✂ 🌿 30/30/36

NEW *Pulmonaria* 'Silver Bouquet' PPAF PVR

Our first new Pulmonaria introduction in years – why? It has it all – cevennensis breeding for **mildew resistance, heat and humidity tolerance and an upright habit with large coral pink to violet flowers that "look at you."** Features an excellent shelf life with a very short delay from flower to foliage form. Spectacular silver foliage for year round sales makes this a winner!

Z 4-9 ▶ 🌿 🌱 🌸 7/20/10

NEPETA 'BLUE DRAGON'

PULMONARIA 'SILVER BOUQUET' ▼

LEUCANTHEMUM 'PALADIN' ▲

TIARELLA 'HAPPY TRAILS'

TIARELLA 'CASCADE CREEPER' ▲TRADESCANTIA 'SUNSHINE CHARM' ▼

Terra Nova's Terrific New Tiarellas

There's been a demand for new forms of **trailing** Tiarella. Enter Terra Nova with new vigorous forms sporting **well-marked leaves and interesting leaf-shapes!** These make great native spreaders covering the ground with a leafy blanket. This offers an opportunity for other woodlanders to peak out from beneath a living quilt.

Trailing Tiarella **root at every internode which means they can cover dry, shady areas.** Only a few nodes need to find water to feed the entire plant.

NEW *Tiarella* 'Cascade Creeper' PPAF PVR

Vigorous and beautifully marked, our 'Cascade Creeper' was **bred using the native Tiarella 'Running Tapestry' and our best marked, cut leaf varieties.** The medium large leaves are deeply lobed and marked dark brown filling up the center of the leaf. White flowers show in spring and sporadically until fall. Use under trees in moist or dry shade as a ground cover.

Z 4-9 ▶ ● 🌿 ✂ 🌿 4/48/9

NEW *Tiarella* 'Happy Trails' PPAF PVR

We selected 'Happy Trails' for its profusion of runners and charming small rounded lobed leaves that are marked with a thick black band on the veins. It's a vigorous trailer with short white flowers. Wonderful as a shade ground cover, cascading down a woodland slope, or weaving with other plants in a container or hanging basket. "Happy Trails to you..."

Z 4-9 ▶ ● 🌿 ✂ 🌿 4/36/9

NEW *Tradescantia* 'Sunshine Charm' PPAF PVR

(Golden Spiderwort) Add a little sunshine to your garden with this NEW spiderwort! **Glowing gold foliage creates a lovely foil for the lavender-pink flowers.** This vigorous grower is **very long blooming** and easy to grow. **More compact than 'Blue and Gold'** ('Sweet Kate'). Place in areas of half to full sun and it will absolutely charm you!

Problem: How do I carpet a park's understory with a fragrant, frothy groundcover?
Solution: 35,000 Tiarellas used in Pierce's Wood at Longwood Gardens

Photo courtesy of W. Gary Smith

With the new movement toward natives and sustainability, Terra Nova has been at the forefront, offering a wide range of Tiarella foliage and flower forms for the last decade. See why we are the market leader by trying our vigorous and colorful “solutions” to the problem of, “What can I plant in the shade that is showy and the deer won’t eat?”

HEUCHERELLA 'KIMONO' (FROST)

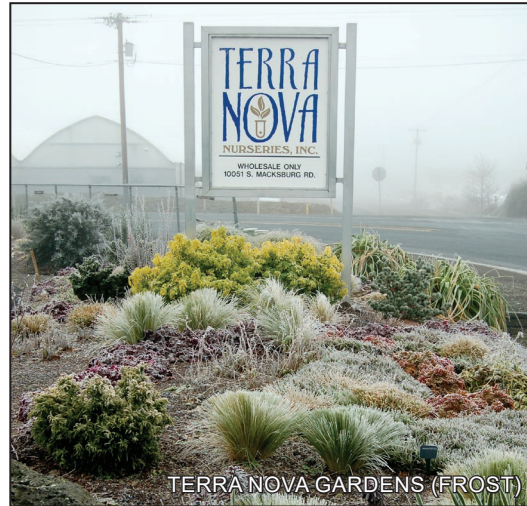

HEUCHERA 'MIDNIGHT ROSE' (FROST)

HEUCHERA 'PEACH FLAMBE' (FROST)

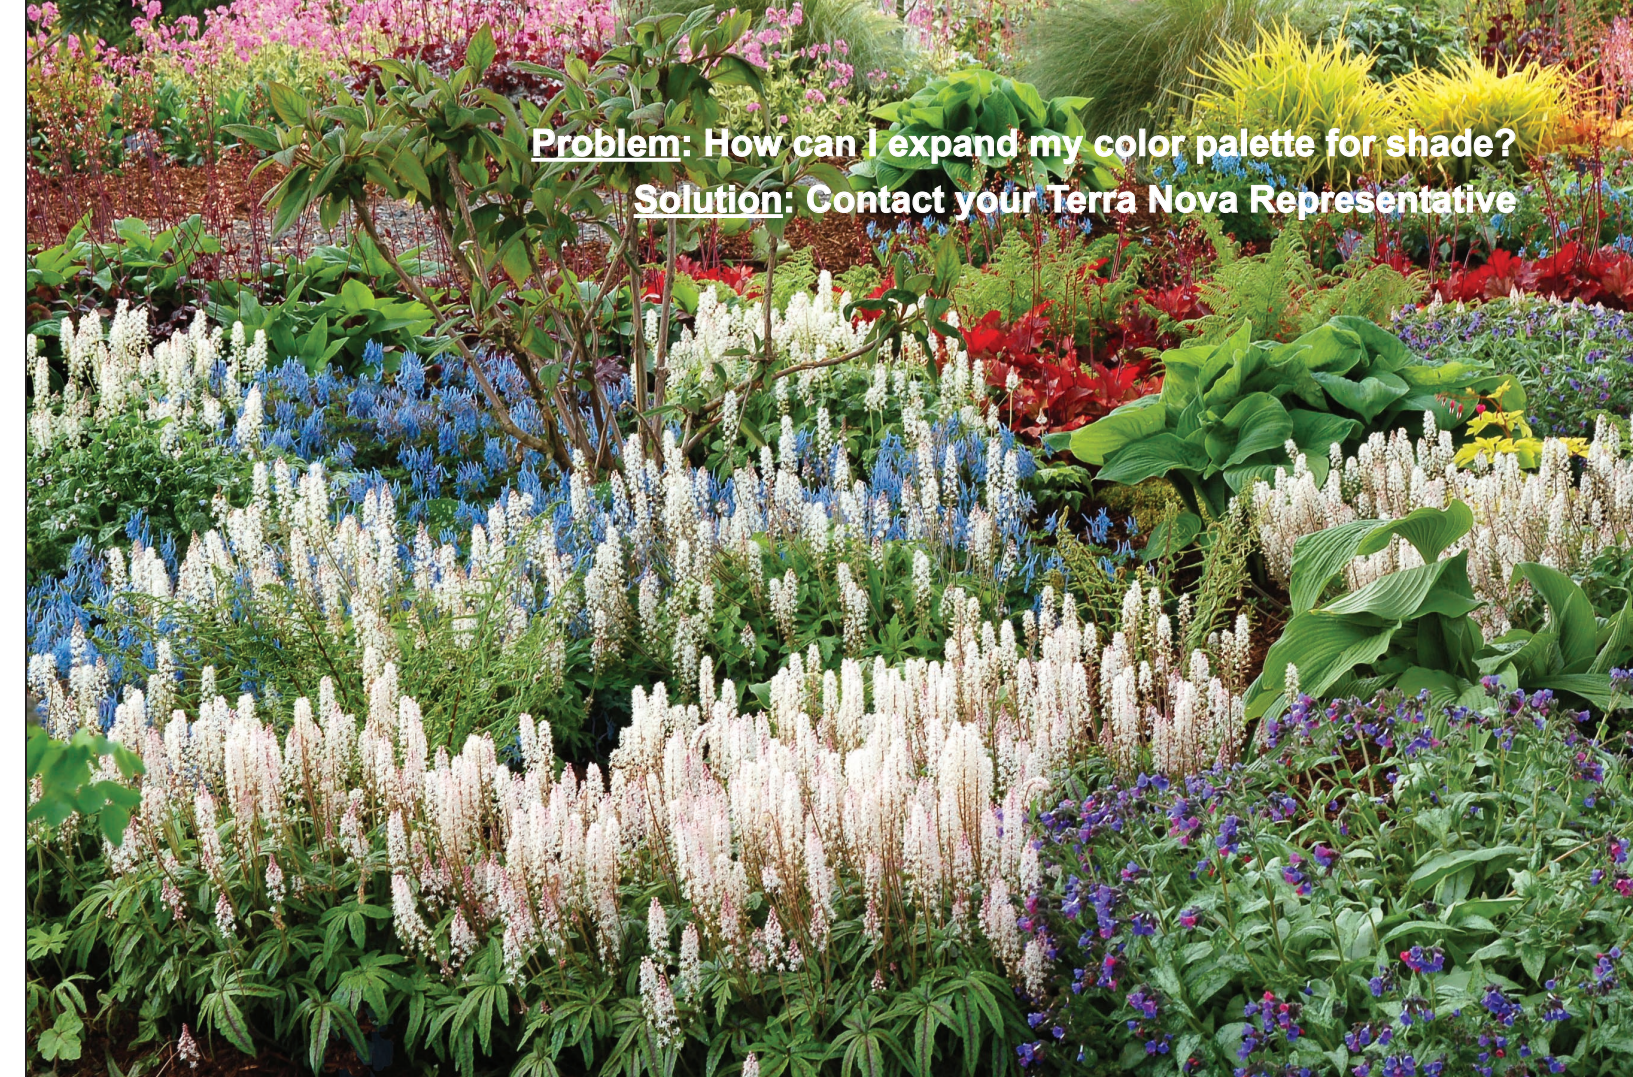

HEUCHERA 'PLUM PUDDING' (FROST)

TERRA NOVA GARDENS (FROST)

HEUCHERELLA 'ELECTRA' (WINTER)

Problem: How can I expand my color palette for shade?
Solution: Contact your Terra Nova Representative

Winter Appeal

This page offers ample proof of how our plants extend their appeal even into the winter months. We have notes from Northern clients who have exclaimed how nice it is to see any color in the garden in winter. A number of our Heuchera, Tiarella and Bergenia fill that bill!

HEUCHERA 'PURPLE PETTICOATS' (FROST)

HEUCHERA 'CHOCOLATE RUFFLES' (FROST)

HEUCHERA 'CHOCOLATE RUFFLES' & SCABIOSA 'VIVID VIOLET' (FROST)

HEUCHERA 'MARMALADE' (FROST)

TIARELLA 'SUGAR & SPICE' (FROST)

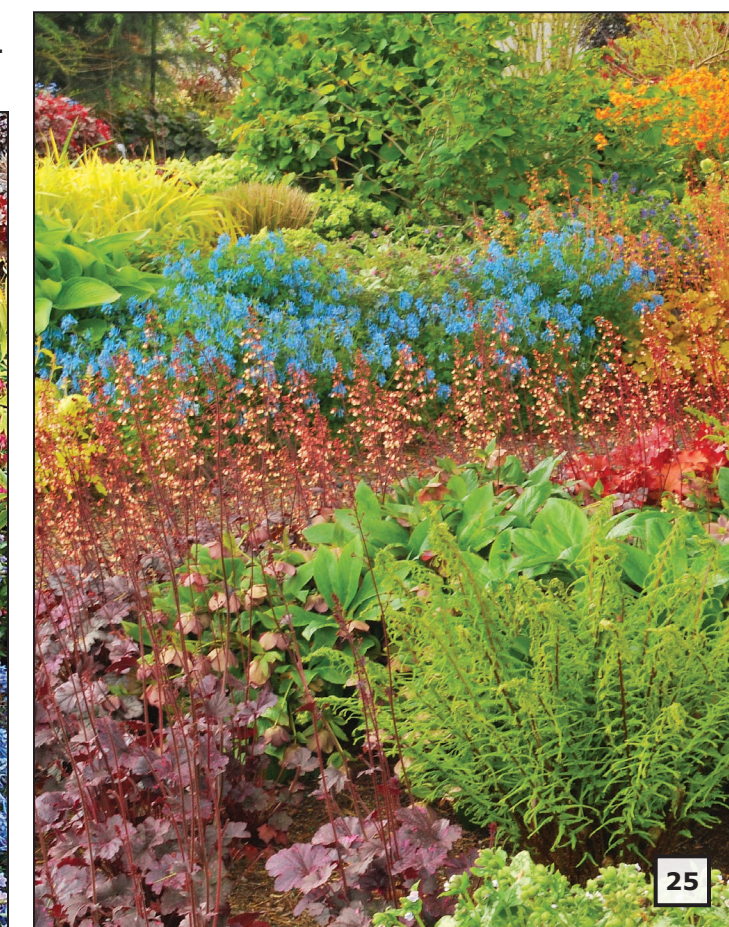

HEUCHERA 'PEACH FLAMBE' (FROST)

Nothing refreshes the senses like a splash of color after a cold, miserable winter. Terra Nova has worked hard to introduce plants that bloom early and rebloom, even in the shade. This adds value to the plants, pleases your customers, and makes a plant saleable over a longer period in your nursery. A win-win situation for all!

Spring Shade Solutions

Agastache

'SUMMER GLOW'

'SUMMER LOVE'

'SUMMER SKY'

- More weather resistance
- The longest lasting flowers in the industry
- Non browning calyces mean longer lasting color
- Better habit for more garden and container uses
- Broad color palette (better for use as fillers and thrillers)

Coreopsis

'LEMON PUNCH'

'LITTLE PENNY'

'MANGO PUNCH'

- The best plant habits on the market; no PGRs needed
- Easy, low cost plant to grow
- Single plant, mixed containers or landscape, we've got you covered
- Almost unbelievable flower count
- Months of carefree color

Dreams Come True

Echinacea

'MAC N CHEESE'

'MERLOT'

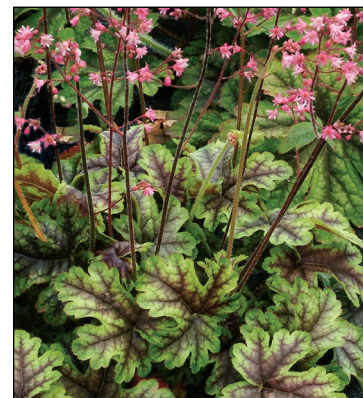

'TANGERINE DREAM'

- 'Ruby Giant' parentage gives incredible stem strength
- Better growth habit for containers or landscape
- Rich, saturated colors are brilliant in the garden
- Non-fading flowers extend display

Heucherella

'ALABAMA SUNRISE'

'TAPESTRY'

'SWEET TEA'

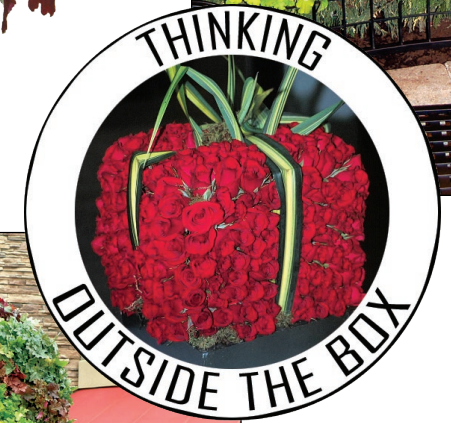

- The world's most sought after Heucherella collection
- Hardy in baskets, containers or as a groundcover
- Heat and humidity tolerance
- Hybrid vigor for years of garden enjoyment
- Sterile, repeat bloomers

MIXED HANGING BASKET

Dare to Dream

To survive in our current economy we hear the catchphrase, "Think outside the box" - offer more value for the money. We do both at Terra Nova. Here are some ideas to start with...

Heuchera Grower Tips:

How to succeed with Heuchera

- Select the right Terra Nova Heuchera for your region.
- See our regional guide on pages 16 & 17.
- Use well drained, organic soilless media, pH at 5.8 to 6.2.
- Plant Heuchera crowns high, allow soil to settle in.
- Use liquid feed at about 50 to 100 PPM.
- Use slow release sparingly, approximately 1# of N per cubic yard of soil.
- Each microclimate of the country is different, so use accordingly.

How to fail with Heuchera

- Bury the crown of the plug; it's the #1 killer!
- Poor drainage/overwatering.
- Over-pot a small plant.
- Over-feed anytime of the year.
- Use automated planters without checking planting depth.
- Grow in too low light.
- Use coco coir as your primary soil component.
- Grow them like annuals.
- Use a heavy dose of time release fertilizer.

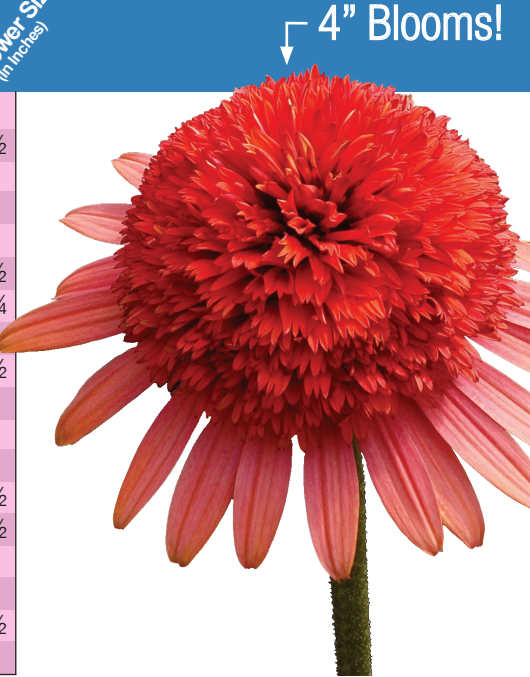

Heuchera 'Plum Royale' (Page 20)

E. 'Coral Reef' (Page 12)

Echinacea Grower Tips:

- Echinaceas tolerate a wide range of soil-types, but all soils must have good porosity and a pH over 5.0. Liquid-feed regimens of 50 to 100 ppm are good for growing plants.
- Plants started in the fall (September or October) from a 72 cell size would need to be bulked up for over-wintering in a 2.5"-3.0" container size or equivalent cell pak. These can be quickly finished when potted on after growth starts in the spring. This step will significantly cut losses due to overpotting in the fall. **This is not recommended for Northern growers without heated over wintering facilities.**
- Plants started in the spring or summer during rapid growth can go directly to their full size container **as long as careful attention is paid to the planting depth and crowns are not buried.** Normal cautions will apply to overwatering small plants in large containers. Caution is also needed when applying slow release fertilizers as a top dress to insure that the fertilizer does not settle around the crown of the plant or is a quick-release form as it can damage the roots.
- Timing for Echinacea in 1 gallon to 8" size containers.

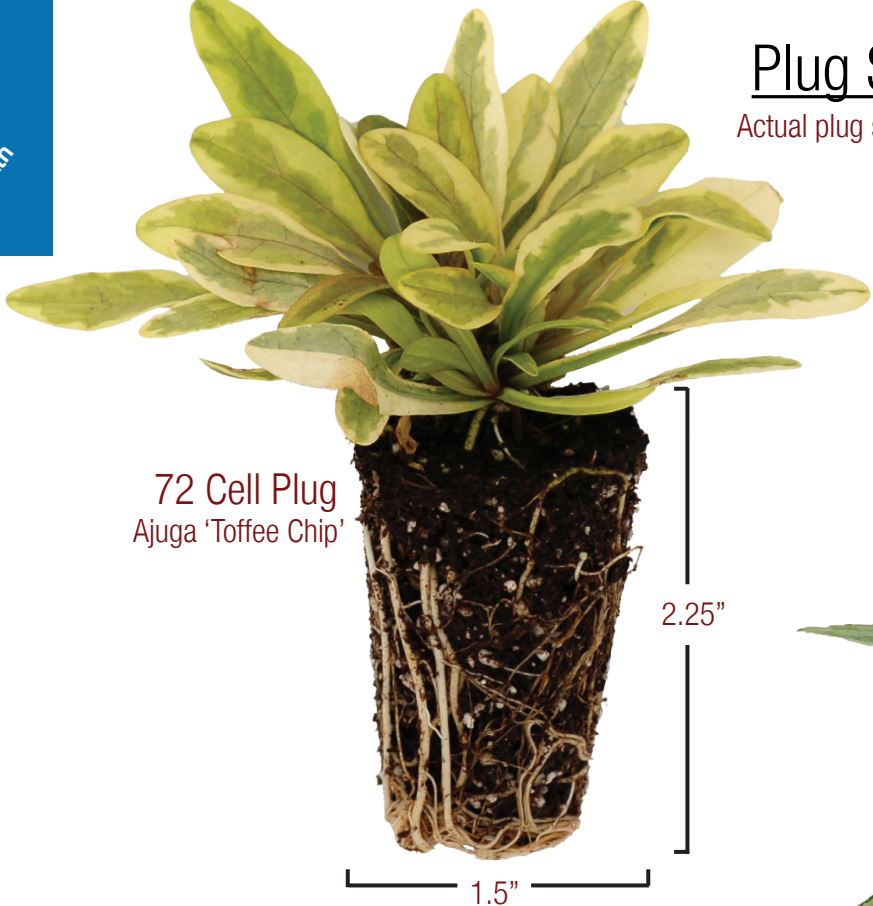

As cut flowers: E. 'Tomato Soup' (Page 12), 'Mac 'n' Cheese' (Page 12) & 'Flame Thrower' (Page 14)

KEY TO SYMBOLS

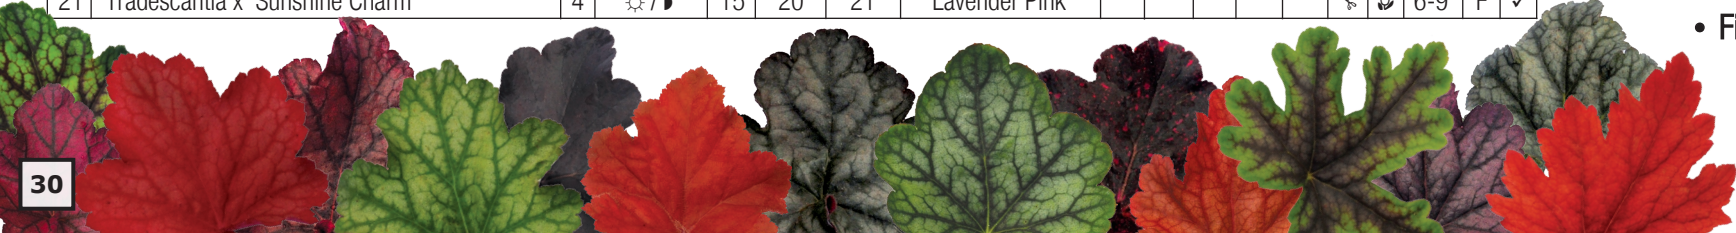

- PPAF = US Plant Patent applied for or pending
PP# = US plant patent number
PVR = European plant variety rights pending
EU# = European plant variety rights number
☀ = Full sun (No shade cloth required)
☀ / ☐ = Full sun to part or morning shade (30%)
☐ / ● = Part shade to full shade or morning sun (30%)
☐ = Part shade or morning sun (30%)
● = Shade or filtered light required (50%)
GC = Ground cover, spreading plant
☞ = Deer resistant
☞ = Drought tolerant
☞ = Fragrant
☞ = Winter color

FOOTNOTES

- **Zone** - Minimum USDA zone for mature, established plants
- **Exposure** - For acclimated mature, established plants
- **Deer resistant** - They fare better than others. No plant is deer proof
- **Drought tolerant** - Tolerate summer low water use
- **Bloom time** - Month of bloom for mature, vernalized plants in Oregon
- **Finish time** - From 72 (or 30) cell:
 - S = Slow (9-12 weeks)
 - M = Medium (6-8 weeks)
 - F = Fast (4-6 weeks)

Pricing/Order Form

Ordering Info

sent out and posted to our website
www.terranozanurseries.com weekly.

DOMESTIC SHIPPING: We ship materials using the most cost effective local carrier. An alternate carrier may be recommended; however, use of this carrier will be dependent on the size of the order and approval by sales and shipping. We may ship dormant plants September – April. All plants requiring special care will be marked with a “GROWER ALERT” label, corresponding to instructions enclosed in the box. Additional shipping charges may include:

- Boxing charge \$5.50 per box. Boxes hold up to 4 flats.
- \$45.00 certification fee for all grass orders shipping to California.

WILL CALL: Please coordinate all Will Call orders with the Shipping Department (call 800-215-9450 x 331 to make an appointment). Will Call hours are Wednesday – Friday from 7:30am – 3:00pm, we are closed Saturdays and Sundays. All Will Call orders not picked up within the designated time frame will be charged a restocking fee of 15%.

INTERNATIONAL SHIPPING: A customs broker must be selected and contact information provided at the time an order is placed. All orders must consist of full flats of plant material. We ship F.O.B. Canby, OR. Should your order be damaged in transit or held at a border, Terra Nova is not to be held responsible. Additional fees incurred in shipping:

- Boxing charge \$5.50 per box. Boxes hold up to 4 flats.
- Oregon Phytosanitary Certificate fee: \$15.00
- Canada and European Union International fee: \$25.00
- Japan International fee: \$45.00
- Chemical application fee (if required): \$45.00

At this time a chemical treatment is not required by the Canadian Food Inspection Agency. If an import permit is required, it is the responsibility of the customer to obtain one and provide a copy before an order ships. The global Home Land Security policies have had a dramatic impact on Import/Export fees. As an alternative to ordering direct from Terra Nova, please visit our website for a broker or distributor in a country near you.

PATENTS: Unauthorized propagation of varieties that are patented is strictly prohibited. These varieties are identified by PP or PVR (European Patent) If you are found to be propagating such material, you will be expected to destroy your stock and pay a punitive fee.

CLAIMS: Terra Nova Nurseries is committed to shipping the very best quality plants by the most efficient methods available. Our goal is to meet this objective with every order. All claims must be phoned in within 72 hours of receipt of shipment followed by a written notification of concerns and specific details on your company letterhead for our records. Providing photographs with your request for a credit will help speed the process and may ultimately be necessary to finalize the claim.

- Immediate notification is necessary for orders damaged in transit.
- We will help you with any paperwork necessary to file a carrier claim.
- Grower culture sheets are posted on our website and our sales and production teams are available to assist with growing questions. Your success is our future.

GUIDED TOURS: Contact the Sales Department to arrange tours.

ORDERING: Place your orders by fax, phone or e-mail.

- Minimum order of one flat.
- We are wholesale only and do not have the ability to accommodate orders that do not meet our minimums.
- Please allow at least a 9-month lead-time on custom/large orders.
- Large orders may require a 30% down payment and an additional 30% payment 30 days prior to shipping, the remaining balance due within the terms on the invoice.
- Our goal is to ship the majority of your plants at the same time, but all plants are not created equal and do not grow at the same rate. Our apologies if your ship dates are spread out.
- It is our policy to back order all material unavailable at the time of shipment unless specifically stated on your order, by you, that you do not wish to have items back ordered. Each time materials are shipped; new boxing and shipping charges are incurred.
- Tags automatically ship with patented items. Request tags at the time of ordering for non-patented plants. Tags are 7¢ each.

DORMANT PLANTS: If you are ordering plants to ship between September and April you may receive dormant plant material. These flats will be clearly marked with “Grower Alert” tags with special instructions. More information about the care and handling of dormant material can be found on our website www. terranozanurseries.com or by calling our Sales Department at 800-215-9450.

PRICES: We reserve the right to change our prices at anytime.

TERMS: All accounts will be cash in advance until credit is approved.

- Visa/MasterCard are accepted. Please phone or fax this information.
- Open accounts are payable within the terms stated upon each invoice. A finance charge of 1.5% per month is added to all account balances not paid within the terms.
- We reserve the rights to suspend credit and delay any and all shipments if conditions of account are not met.
- We reserve the right to change the terms of any account at any time for any reason
- Accounts with a balance of over 90 days will become cash only unconditionally.
- Returned checks are subject to a \$25 fee.
- There is a fee for any wired funds, foreign or domestic.
- All orders must be paid in U.S. funds.

RESTOCK/CANCELLATION POLICY: Customers receiving Quantity Discounts who then cancel orders within the customer provided delivery window will be required to pay back any discount received if the partial shipment falls below the required quantity amount.

- Customers canceling large orders of 1440 plants or more within two weeks prior to ship date will be required to pay a cancellation fee of 50% of the order cancelled.

CURRENT AVAILABILITY: Call or e-mail your sales rep to be added to our batch e-mail and fax lists to receive the most up-to-date availability. This information is
