# SUPPLEMENT

Welcome to the Terra Nova® Summer Supplement for 2014. We've got some terrific new plants to show you!

We have two new Begonias, Cocoa™ Enchanted Sunrise, a warm salmon-orange blooming form from our Cocoa™ Series and T Rex™ ‘St. Nick’, a new “star” from our T Rex™ Series.

Heucherella ‘Mojito’ has a dense, compact habit with gold to lime leaves adorned with red veins

x Mukgenia Nova™ ‘Flame’ is a brand new, never-before- seen, intergeneric cross between Bergenia and Mukdenia. This breaks new breeding ground! Check it out.

Our new Coleus continue to show just how good they are at filling voids for shade plants. Our Coleus work as jaw dropping specimens, combo basket plants, stunning annual groundcovers and brilliant accents. This supplement introduces:

- The Flying Carpet™ Series which are low, broad-spreading and decumbent plants in warm, rich colors. These perform well in hanging baskets, mixed containers or as unusual groundcovers.
- The Wildfire™ Series are a group of upright, mounding, fiery-colored plants that fill in beautifully in mixed containers.

In addition, we have back, by popular demand, three Lobelia; ‘Cranberry Crush’, ‘Grape Knee-Hi’, and ‘Monet Moment’, and two colorful Euphorbia, ‘Golden Glory’ and ‘Jade Dragon’.

Enjoy these new additions!

Fashions fall out of favor and return with a flourish. A plant's popularity can do the same thing! We maintain great plants for years in our laboratories, even if they are not listed in the catalog. Check out these great drought-resistant and showy Euphorbia and some Lobelia from the recent past.

**Euphorbia 'Golden Glory'** PP14514  
'Golden Glory' has incredibly dark red foliage in winter and early spring, staying dark all summer. The bright chartreuse flowers in spring are a wonderful contrast to the dark leaves. This is one of the best clones around for overall performance. Deer-resistant. Z 6-10 ● ☀️ 🌧️ 🌱 20/14/28

**Euphorbia 'Jade Dragon'**  
This evergreen has long, blue-green leaves that emerge red-purple in the spring. 'Jade Dragon' is robust, compact, bushy, and deer resistant. The summer blooming flower heads are huge and bright chartreuse. 'Jade Dragon' came from a cross between E. characias ssp. wulfenii and E. amygdaloides 'Rubra'. Z 6-10 ● ☀️ 🌧️ 🌱 36/30/40

**Lobelia 'Cranberry Crush'** PP14419 EU15713  
Tight inflorescences nearly bristle with flowers of cranberry-crimson. Rich color for the border front. Z 6-9 ● 🌱 🌧️ 🌱 20/12/22

**Lobelia 'Grape Knee-Hi'** PP13264  
A true dwarf cardinal flower with grape-purple flowers. 'Grape Knee-Hi' has an upright well-branched habit and it's also sterile which prolongs the bloom time. Loved by hummingbirds and bees. Z 6-9 ● 🌱 🌧️ 🌱 22/15/25

**Lobelia 'Monet Moment'**  
We were amazed by two of this plant's traits - immense flower size, and MASSES of rose pink flowers. The vigor of this plant is extraordinary. If Monet ever had "a moment" - it would be reflected in this gorgeous beauty. Z 6-9 ● 🌱 🌧️ 🌱 20/16/36
