Hardiness Zones: 7 - 10

Possible Problems: Insect: Aphids, mites, white fly, snails, slugs, all may occur

Diseases: Powdery mildew and fungal and bacterial spots may be problems

Habit: Clumping

Day Length for Flowering: Long day

Description

This vigorous, variegated Acanthus has striking, bold leaves with deeply cut white margins and splashing on the leaves. It forms a large clump with 4’ tall showy flower stalks with pink and cream flowers in summer. This was bred with Acanthus 'Summer Beauty' for vigor, more hardiness, and heat and humidity tolerance.

Do NOT bury the crown of the plug
