Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs
Diseases: The plants can have leaf spot and crown rot if kept too moist

Habit: Mounding

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

Charming, fluted petals from a lacy halo around the cone of this most charming Echinacea. This plant has tubular petals that form a star at the end - so unusual! This Echinacea also has a charming habit, staying neatly inbounds and makes a lovely neighbor for mixed borders. Sweetly scented, too.
