Water Requirements: Dry slightly between waterings

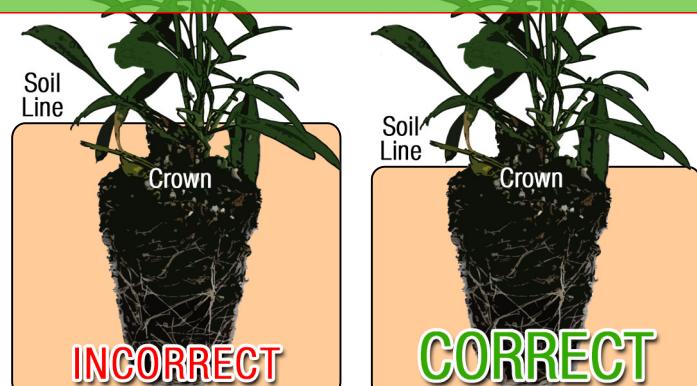

Hardiness Zones: 4 - 9

Possible Problems: Insect: --

Habit: Clumping

Diseases: --

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

### Description

A TERRA NOVA® twist to berries. A totally delicious and beautiful berry all in the same plant. Large semi-double red-red flowers look like miniature roses on sturdy strawberry foliage throughout the spring and summer. Huge clusters of delicious, large berries are produced for months on end. A clumping variety, few runners are produced. Ideal for hanging baskets, strawberry pots and in-ground production.
