Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Perhaps the most elegant of the FYRE WING™ Series, 'Jet', radiates a subtle sophistication with black foliage covered by silky, silver hairs. In the right light, the foliage is reflective and hard to capture with a camera. The plant gives the impression of a large spider and should be a hit in multiple seasons, including Halloween as a tame indoor spider plant. Short flower spikes rise just above the foliage and hold sweet pink flowers in the spring and summer. An excellent choice for combining with more FYRE WING™ Heucheras or in mixed containers.
