Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

A most unusual combination of rose, violet, purple and copper. Finely cut foliage looks delicate, but has all the lasting power of regular Heuchera. Densely foliated plants start off a rosy copper color in the spring and gradually add layers of additional color as time passes. By fall, more purple tones show through. Excellent for mixed container work as a thriller. By Heuchera standards, a medium-small plant, so wonderful in all ways.
