

Growing Recipe

POLYSTICHUM 'PLUMOSOMULTILOBUM'

Approximate Finish Time From Liner

 = Minimum  = Maximum

pH: 5.8 - 6.8

Fertilization Recommendations: 150 - 200 PPM

EC: --

Light Levels: Part to full shade

Water Requirements: Keep moist, or dry slightly

Hardiness Zones: 6 - 9

Possible Problems: Insect: None

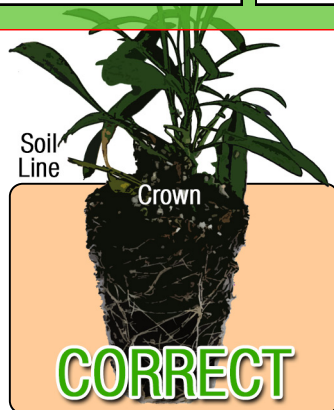

Diseases: None

Habit: Clumping

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Originally found in 1878, this Soft Shield Fern has stood the test of time. With evergreen, light green, multi-lobed fronds and a mossy texture it will form its characteristic dense sculptured look in any well drained soil. It grows well even in dry shade (once established) and lime soils.
