Hardiness Zones: 4 - 9

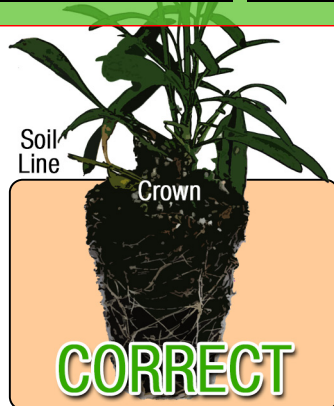

Possible Problems: Insect: Aphids are possible  
Diseases: Fungal problems can occur if provided poor drainage

Habit: Upright

Day Length for Flowering: Obligate long day

Do NOT bury the crown of the plug

## Description

Sedum 'Mocha Magic's original plant was watched for seven years, prior to its release. The time is right for this most unusual sedum. The enormous flower clusters are indeed the same color as a frothy, fancy coffee drink at your favorite barista shop. Very upright, with clean foliage, down to the ground, even in rainy Oregon! Young foliage starts out blue-gray, and then transforms itself in summer. Dark chocolate stems support milk chocolate foliage, topped with mocha foam. Yes, please!
